

**National Interagency Coordination Center
Incident Management Situation Report
Thursday, August 18, 2011 – 0530 MT
National Preparedness Level 2**

National Fire Activity

Initial attack activity: Light (148 new fires)
 New large fires: 3 (*)
 Large fires contained: 6
 Uncontained large fires: ** 10
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 1
 Type 2 IMTs committed: 1

Nationally, there are 44 large fires being managed to achieve multiple objectives.

** Uncontained large fires include only fires being managed under a full suppression strategy.

Southern Area (PL 3)

New fires: 54
 New large fires: 2
 Uncontained large fires: 6
 Type 1 IMTs committed: 1

Lateral West, Great Dismal Swamp NWR. IMT 1 (Quesinberry). Nine miles southeast of Suffolk, VA. Brush and grass. Minimal fire activity.

* **Highway 30**, Oklahoma DOF. Ten miles south of Erick, OK. Timber litter. Minimal fire activity.

* **Crow**, Oklahoma DOF. Two miles north of Titanic, OK. Hardwood litter. No further information received.

County Road 235, Texas Forest Service. Thirteen miles east of Tyler, TX. Timber. Moderate fire activity. Reduction in acreage due to more accurate mapping.

Wallow, George Washington & Jefferson NF. Four miles southeast of Strasburg, VA. Hardwood litter. Minimal fire activity.

Bluff, Cherokee NF. Four miles southeast of Benton, TN. Timber. No new information.

Predictive Services Discussion: Scattered showers and thunderstorms will extend from the Southwest into the southern Great Basin and nearby central Rocky Mountains near a surface trough. Scattered showers and thunderstorms are also expected over parts of the Great Plains, Mississippi Valley and the Northeast. Scattered showers and thunderstorms will continue over much of Florida. Windy conditions are expected over the northern Rockies, northern High Plains and northern Great Plains.

Predictive Services Outlook products: <http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

Today's discussion is from the
Fireline Safety Category.

TAKING A NAP NEAR THE FIRELINE

Firefighting is often exhausting work and firefighters can find themselves needing to sleep while on the fireline. Before pausing to rest, firefighters must weigh the following considerations:

- Are lookouts posted? Discuss who that lookout can be. Can the lookout on the knob across the draw watch over you or does it need to be your partner on the fireline alternating rest times?
- Is the area free of hazards? (Falling snags or rolling materials) Discuss what you need to do to create a safe resting area.
- Are you still within agency work and rest guidelines? Review what these guidelines are.
- Does your crew need a break? Have they been pushed too hard? Talk about situations where you need to simply take yourself and/or your crew off the fire for uninterrupted rest.
- To reduce risks:
 - Keep lookouts posted; rotate lookouts.
 - Communicate crew conditions and status to supervisor or chain-of-command contact. Have firefighters discuss ways that they find to rest on the fireline and suggestions for methods to alternate shifts for more effective firefighting.
