

**National Interagency Coordination Center
Incident Management Situation Report
Tuesday, August 30, 2011 – 0530 MT
National Preparedness Level 3**

National Fire Activity

Initial attack activity:	Heavy (446 new fires)
New large fires:	13 (*)
Large fires contained:	11
Uncontained large fires: **	42
Area Command Teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	1
Type 2 IMTs committed:	16

Nationally, there are 57 large fires being managed to achieve multiple objectives.

** Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

The Type 1 Incident Management Team (Giachino) assigned to Hurricane Irene recovery at East Farmingdale, New York was released yesterday. A Type 2 Incident Management Team (Aultman) is assigned at Fort Devons, Massachusetts for emergency road clearing. A Type 2 Incident Management Team (Ourada) is assigned at Stewart Air Force Base in New York to manage and support a mobilization center.

Northern Rockies Area (PL 3)

New fires:	60
New large fires:	1
Uncontained large fires:	8
Type 2 IMTs committed:	6

* **Canyon Creek**, Montana DNR. IMT 2 (Benes). Started on private land five miles north of Laurel, MT. Timber. Moderate fire activity. Structures threatened.

West Riverside, Montana DNR. IMT 2 (Grant). Twelve miles southeast of Missoula, MT. Timber. Moderate fire activity.

Granite Pass, Lolo NF. IMT 2 (Kusicko). Twenty-five miles southwest of Missoula, MT. Timber. Moderate fire activity.

Saddle Complex – Bitterroot Branch, Bitterroot NF. IMT 2 (Hutton). Thirty miles southwest of Darby, MT. Timber. Moderate fire activity. Structures threatened. Evacuations in effect.

Diamond Complex (two fires), Miles City Field Office, BLM. IMT 2 (Heintz). Twenty-nine miles south of Ashland, MT. Timber. Creeping and smoldering. Structures threatened.

Ariana 2, Northwest Land Office, Montana DNR. IMT 2 (Fry). Started on private land fourteen miles southeast of Libby, MT. Grass. Creeping and smoldering.

Elk Park, Lewis and Clark NF. Twenty-two miles northwest of Sulphur Springs, MT. Grass. Creeping and smoldering. Structures threatened.

Black Springs Complex, Northern Cheyenne Agency, BIA. Six miles west of Lame Deer, MT. Timber. No new information.

Northwest Area (PL 3)

New fires: 48

New large fires: 4

Uncontained large fires: 18

Type 2 IMTs committed: 4

High Cascades Complex (four fires), Warm Springs Agency, BIA. IMT 2 (Fillis and Goff). Warm Springs Reservation. Timber, brush and grass. Active fire behavior. Structures threatened. Evacuations in effect.

Hancock Complex, (seven fires) Prineville District, BLM. IMT 2 (Rapp). Two miles northeast of Clarno, OR. Grass. Moderate fire activity. Structures threatened.

* **Dollar Lake**, Mt. Hood NF. IMT 2 (West). Sixteen miles south of Hood River, OR. Timber. Active fire behavior. Residences threatened.

* **Bell Plain Complex**, Washington DNR. Four miles northeast of Pomeroy, WA. Brush and grass. Minimal fire activity.

Smyth Creek, Burns District, BLM. Fifteen miles south of Diamond, OR. Timber and grass. Minimal fire activity.

Webster, Warm Springs Agency, BIA. Four miles northeast of Warm Springs, OR. Grass. No new information. Last report unless new information is received.

Dead Dog, Prineville District, BLM. Thirteen miles north of Mitchell, OR. Grass. Moderate fire activity. Precipitation occurred over parts of the fire area yesterday. Reduction in acreage due to more accurate mapping.

*** Wishram 2**, Washington DNR. One mile west of Wishram, WA. Grass and brush. Active fire behavior. Residences threatened.

Incident 615, Prineville District, BLM. Three miles southeast of Twickingham, OR. Grass. No further information received.

Lauserica, Burns District, BLM. Twenty miles northwest of Fields, OR. Brush. Minimal fire activity.

*** Shadow Lake**, Deschutes NF. Fifteen miles west of Sisters, OR. Timber. Moderate fire activity. Last report unless significant activity occurs.

Predictive Services Discussion: Isolated showers and thunderstorms will develop over the Pacific Northwest and Northern Rockies near a cold front. Scattered thunderstorms will develop across the Southwest, eastern Great Basin and Rocky Mountains. Scattered showers and thunderstorms are expected over parts of the High Plains, Great Plains and Upper Mississippi Valley near a trough and front. Isolated showers and thunderstorms are also forecast over the Gulf Coast and Southern Atlantic Coast States near a front. Conditions will remain generally hot across much of the West.

Predictive Services Outlook products: <http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

**Today's discussion is from the
Fireline Safety Category.**

UNINFORMED ON STRATEGY, TACTICS OR HAZARDS

Firefighters who are uninformed on strategy, tactics or hazards are in conflict with Watchout Situation #5. Before going to the fireline, it is imperative that firefighters obtain information about strategies, tactics or hazards by asking themselves the following questions:

- Can communications be established to find out strategy, tactics or hazards? Discuss ways you might establish communications; for example, contacting someone who is already on the fire and asking them what tactics and strategies are working or not working, what hazards they have witnessed, etc.
- Can scouting safely identify potential hazards? Talk about different methods of scouting a fire (e.g., using a lookout from your crew or sending a line scout ahead, utilizing air attack or the spotter on a smokejumper airplane). Discuss what types of hazards you might come across and ways you would mitigate them. For example, arriving at a fire after dark and a being instructed to dig line downhill with the fire below. How could you make this a safe situation?
- Have strategies, tactics or hazards changed since last informed? Discuss situations that might alter the way you are fighting a fire (e.g., wind shifts, resources you expected don't arrive, etc.). Also, think about what new hazards can develop while you are on the fireline (e.g., roots burning out and trees coming down, winds shifting direction and speed, etc.)
- Can you get a briefing from your supervisor? Talk about the importance of constant communications and ensuring firefighters are on the same page with strategies and tactics. For example, if one crew decides to do a burnout, but doesn't let the crew at the other end of the line know what they are doing, then what can happen?
- To reduce the risks:
 - Post lookouts.
 - Determine escape routes and establish safety zones.
 - Consider retreating until you are informed.
 - Don't leave a staging area or operational briefing until you have all the pertinent information. Emphasize ways to inform firefighters about strategies, tactics and hazards. Tell a story about when you were uninformed and what you did to correct the situation so that you were safe.
 - Get the national standard Incident Response Pocket Guide standard briefing
