

**National Interagency Coordination Center
Incident Management Situation Report
Saturday, July 9, 2011 – 0530 MT
National Preparedness Level 3**

National Fire Activity

Initial attack activity:	Moderate (244 new fires)
New large fires:	7 (*)
Large fires contained:	4
Uncontained large fires: **	20
Area Command Teams committed:	1
NIMOs committed:	0
Type 1 IMTs committed:	4
Type 2 IMTs committed:	4

Nationally, there are 19 large fires being managed to achieve multiple objectives.

** Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

On July 7th, a member of the Bonneville Hotshot Crew died while working on the CR 337 fire five miles northwest of Mineral Wells, Texas. The firefighting community extends condolences to the family and friends of the deceased.

Two MAFFS C-130 aircraft and support personnel from the 302nd Airlift Wing, Air Force Reserve, Colorado Springs, CO, are deployed to Albuquerque, NM. Col. Jay Pittman is the Air Expeditionary Group Commander.

Southwest (PL 4)

New fires:	47
New large fires:	1
Uncontained large fires:	5
Area Command Teams committed:	1
Type 1 IMTs committed:	4

Las Conchas, Bernalillo District, New Mexico DOF. Area Command Team (Oltrogge). IMT 1 (Reinarz, Hughes, Morcom and Turman). Thirteen miles west of Los Alamos, NM. Timber and grass. Active fire behavior. Numerous residences threatened.

Donaldson, Capitan District, New Mexico DOF. Twenty-eight miles northwest of Roswell, NM. Grass. Minimal fire activity.

Pacheco, Santa Fe NF. Nine miles north of Santa Fe, NM. Timber and slash. Minimal fire activity.

Stanley, San Carlos Agency, BIA. Twenty miles east of Globe, AZ. Juniper, brush and grass. Minimal fire activity.

* **Triplets**, San Carlos Agency, BIA. Three miles north of San Carlos, NM. Grass. Minimal fire activity.

New fires:	62
New large fires:	3
Uncontained large fires:	12
Type 2 IMTs committed:	4

Texas IMT 2 (Hannemann) is managing existing and new fires located in Texas state initial attack zones.

Simmons Road, North Carolina DFR. North Carolina IMT2 (Hendricks). IMT is also managing the Juniper Road fire. Nine miles northeast of Tar Heel, NC. Brush. Minimal fire activity. Residences threatened.

Juniper Road, North Carolina DFR. Thirteen miles northeast of Rocky Point, NC. Brush. Minimal fire activity. Numerous residences threatened.

Honey Prairie, Okefenokee NWR. Florida IMT 2 (West). Five miles northeast of Fargo, GA. Southern rough. Active fire behavior. Numerous residences threatened.

Sweat Farm Again, Georgia DOF. Northeast Compact IMT 2 (Schenk). IMT is also managing the Racepond fire. Twelve miles west of Waycross, GA. Southern rough. Minimal fire activity. Residences threatened.

Racepond, Georgia DOF. Twelve miles south of Hoboken, GA. Hardwood litter. Minimal fire activity. Structures threatened.

CR 337, Texas Forest Service. Five miles northwest of Mineral Wells, TX. Brush. Minimal fire activity.

Espanola, Florida DOF. Seven miles northwest of Bunnell, FL. Southern rough. No new information.

Malone, Texas Forest Service. Ten miles north of Robert Lee, TX. Grass. No further information received.

Brite Ranch, Texas Forest Service. Thirty miles west of Marfa, TX. Grass. No further information received.

* **Seven**, Oklahoma DOF. Nineteen miles southwest of Sallisaw, OK. Grass. No further information received.

* **1008**, Texas Forest Service. Six miles northwest of Glen Rose, TX. Slash and brush. Residences threatened. No further information received.

Burnett, Texas Forest Service. Twelve miles northeast of Benjamin, TX. Brush. Residences threatened. No further information received.

Terrell Mill Pond, Georgia DOF. Two miles west of Hinesville, GA. Southern rough. Minimal fire activity. Residences threatened.

Predictive Services Discussion: Scattered wet and dry thunderstorms will persist across the Southwest, Great Basin and Northern and Central Rockies. Strong west winds will progress through the Northern Rockies and Northern Plains on Saturday. A stalled front in the eastern US will produce scattered showers and thunderstorms over most of the Gulf coast and Lower Atlantic states. Hot and dry weather will continue across the Plains and the Mid Mississippi Valley.

Predictive Services Outlook products: <http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

**Today's discussion is from the
Fireline Leadership Category.**

Developing a Learning Organization

Leaders evaluate performance at all levels to understand the causal factors of successes and failures. All those involved learn incrementally, applying today's lessons to the next assignment. This focus on continuous improvement brings with it a responsibility to share lessons learned throughout the organization.

In a learning organization, leaders treat honest mistakes as opportunities to learn and do better next time. Understanding that failure is a part of learning, they establish command climates in which followers are motivated by desire to succeed rather than fear of failure. At the crew level, conducting regular After Action Reviews is one of the most powerful tools a leader has for building effective and cohesive teams.

Discussion Points

- Discuss the relationship between developing a learning organization and safety.
- What happens when honest mistakes are punished rather than used as a learning opportunity?
- How are mistakes and failure dealt with within your crew / organization?
- What was your crew's / organization's most recent learning moment?
