

**National Interagency Coordination Center
Incident Management Situation Report
Monday, March 21, 2011 – 0800 MT
National Preparedness Level 1**

National Fire Activity

Initial attack activity: Light (85 new fires)
 New large fires: 7 (*)
 Large fires contained: 2
 Uncontained large fires: ** 9
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 0
 Type 2 IMTs committed: 0

Nationally, there is 1 large fire being managed to achieve multiple objectives.

** Uncontained large fires include only fires being managed under a full suppression strategy.

BDU - San Bernardino Unit, Cal Fire

Predictive Services Discussion: Strong winds continue across southeast Arizona, New Mexico, west Texas and eastern Colorado on Monday with generally warm and dry weather across the southeast U.S. The strong Pacific storm system continues to move inland bringing rain and snow to the western U.S.

**Today's discussion is from the
Fireline Safety Category.**

Extended Attack

After your initial size-up of the fire and/or transfer of command from an initial attack IC, answer the following questions. Repeat this analysis whenever there is a change, or predicted change, in fire conditions.

- Do you have a current fire weather forecast for the fire location?
- Is the observed fire weather consistent with the forecast?
- Have you established a new organizational structure and communicated it to the other forces associated with the fire?
- Can you control the fire with the resources available (either on the incident or soon to be on the incident) under expected conditions?
- Have you developed a plan to attack the fire?
 - Direct or indirect
 - Anchor points
 - Escape routes
 - Head or flank attack
 - Priority areas
- Have you communicated this to all personnel assigned to the incident, including new arrivals?
- Can you see all of the fire area?
- Can you communicate with everyone on the fire and with dispatch?
- Are escape routes established?
 - If you are using the black, is it completely burned and without a reburn potential?
- Are safety and the standard fire orders being followed and/or mitigated?
- Will you contain the fire before the next operational period?
- Have you reported the status of the fire to dispatch?
- Do you have a complete list of what resources have been ordered for the fire?
