

**National Interagency Coordination Center
Incident Management Situation Report
Wednesday, August 1, 2012 – 0530 MT
National Preparedness Level 2**

National Fire Activity

Initial attack activity:	Light (188 new fires)
New large fires:	6 (*)
Large fires contained:	2
Uncontained large fires: **	24
Area Command Teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	0
Type 2 IMTs committed:	4

** Uncontained large fires include only fires being managed under a full suppression strategy.

Two MAFFS C-130 aircraft and support personnel from the 146th Airlift Wing, Channel Islands (California Air National Guard) are supporting wildland fire suppression operations out of Boise, ID.

Northern Rockies Area (PL 3)

New fires:	32
New large fires:	4
Uncontained large fires:	9
Type 2 IMTs committed:	2

Elbow Pass Complex (3 fires), Lewis & Clark NF. IMT 2 (Hall). Includes previously reported Rapid Creek fire. Twenty-five miles southwest of Augusta, MT. Timber. Active fire behavior with long-range spotting. Structures threatened and evacuations in effect.

* **Butler**, Lolo NF. IMT2 (Kusicko). Twenty-seven miles northwest of Frenchtown, MT. Timber. Moderate fire activity with torching.

Prisoner Lake, Flathead NF. Twenty-five miles east of Condon, MT. Timber. Active fire behavior with single tree torching. Trail closures in effect.

* **Chain Buttes**, Lewistown Field Office, BLM. Thirty-five miles northeast of Winnett, MT. Brush and grass. No further information received.

* **Wells**, Charles M. Russell NWR. Thirty-five miles southeast of Zortman, MT. Timber, brush and grass. No further information received.

* **Goblin Gulch**, Lewis and Clark NF. Seven miles southwest of Monarch, MT. Timber. Active fire behavior with torching and spotting. Residences threatened.

Chrandal Creek, Bitterroot NF. Thirty-two miles south of Darby, MT. Timber. Creeping and smoldering.

This table does not include fires reported in the large fire section of this report. Updated weekly.

Predictive Services Discussion: Scattered showers and thunderstorms will continue over the Southwest, eastern Great Basin and the central Rockies. Isolated thunderstorms are also possible across the northern Rockies, and windy conditions will develop as a cold front moves through the region. Otherwise, hot and dry conditions will persist across the West. Hot conditions will continue over the central U.S., with scattered thunderstorms developing in the Southeast and along the East Coast. Showers will form ahead of a cold front dropping into the Great Lakes region.

Today's discussion is from the
Environmental Factors Category.

MANAGING VEHICLE TRAFFIC IN SMOKE

Smoke has the potential to cause safety hazards to vehicle traffic in the vicinity of active fires (both wildfires and prescribed), especially at night. The following traffic-related items should be considered and addressed in local unit planning documents prior to an incident/project.

- Identification, location, and phone numbers of local units that have law enforcement and traffic control responsibilities in the smoke-impacted areas. Review any local agreements with these agencies presently in place.
- Identification of important, public roads that may be impacted by smoke.
- Identification of adequate equipment and trained personnel to control traffic. This may include warning signs, communications equipment (preferably not using the active fire frequency) and vehicles equipped with warning or flashing lights.
- Identification and phone numbers of radio and television stations that can issue traffic advisories for the smoke-impacted area.
- Identification of alternative traffic routes as part of the incident/project traffic plan.
- Identification of traffic routes subject to temperature inversions as well as contributory factors such as fog and ice.
- When potential smoke-related problems are identified:
 - Advise the Incident Commander, Burn Boss, or Agency Administrator that severe smoke exists.
 - Notify local law enforcement units and highway departments of a potential problem.
 - Implement preplanned actions such as posting smoke warning signs.
 - Ensure that proper equipment is ready and appropriate personnel are briefed on contingency plans and are available to control traffic.
