

**National Interagency Coordination Center
Incident Management Situation Report
Sunday, July 29, 2012 – 0530 MT
National Preparedness Level 2**

National Fire Activity

Initial attack activity: Light (187 new fires)
 New large fires: 9 (*)
 Large fires contained: 8
 Uncontained large fires: ** 29
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 1
 Type 2 IMTs committed: 4
 ** Uncontained large fires include only fires being managed under a full suppression strategy.

Two MAFFS C-130 aircraft and support personnel from the 146th Airlift Wing, Channel Islands (California Air National Guard) are supporting wildland fire suppression operations out of Boise, ID.

Rocky Mountain Area (PL 4)

New fires: 25
 New large fires: 3
 Uncontained large fires: 9
 Type 2 IMTs committed: 2

Ferris, Rawlins Field Office, BLM. Thirty-five miles north of Rawlins, WY. Timber, brush and grass. Active fire behavior. Structures threatened.

Region 24 Complex (3 fires), Nebraska DOF. IMT 2 (Pechota). Two miles south of Norden, NE. Timber and grass. Creeping and smoldering with occasional single-tree torching. Structures threatened.

*** Willow**, White River Field Office, BLM. Twenty-five miles southwest of Meeker, CO. Timber. Running, torching and spotting. Structures threatened.

Longhorn Complex (3 fires), Rosebud Agency, BIA. Transfer of command from IMT 2 (Lowe) back to the local unit will occur today. Four miles northwest of St. Francis, SD. Timber, brush and grass. Creeping and smoldering. Precipitation occurred over the fire area yesterday.

Air Park, Southern Ute Agency, BIA. Four miles south of Durango, CO. Juniper and brush. Smoldering.

Total	36	1,049,754	65	52	11	879

This table does not include fires reported in the large fire section of this report. Updated weekly.

Predictive Services Discussion: Scattered showers and thunderstorms will develop in the afternoon over the higher elevations of the Southwest and over the central Rockies. Hot and dry conditions will continue over the West. A cold front will stall across the Southeast bringing showers and thunderstorms from southern Georgia and northern Florida along the eastern seaboard to Maine. Temperatures will remain near or slightly below normal across much of the East but hot and humid conditions will continue across the Gulf states and the central and southern Plains.

<http://www.predictiveservices.nifc.gov/outlooks/outlooks.html>

**Today's discussion is from the
Fire/Weather Behavior Category.**

Proper Use of Trigger Points

Accurate situational awareness (SA) requires constant reassessment of conditions (existing or potential) that may impact the safety and effectiveness of tactics. Monitoring for the 18 Watchout Situations and establishing operational / environmental limits ("trigger points") ahead of time can help to focus SA, prompt reassessment, and help you re-evaluate the risk of current actions. The following items are things to consider in your planning and discussion. Remember, trigger points are NOT decision makers, but serve as predetermined cues to prompt you to re-evaluate the current and potential situation and associated risks, and help you to determine and implement the proper course of action.

- Preplan! Don't wait until you're in the wrong place at the wrong time---with no time.
- Trigger points should be based on measurable factors such as:
 - RH
 - Winds
 - Fire Behavior
 - Topographical boundaries
 - Time constraints/Time of day
 - Time/distance to safety zones
 - Loss of suppression resources
 - Other operational considerations (e.g., firefighter fatigue, loss of lookouts or communication, weather change)
- As you approach predetermined trigger points, go through the Risk Management Process to help you decide if a change in tactics is required. (See the Incident Response Pocket Guide)
 - Gather information to assure good Situational Awareness
 - Assess hazards to anticipate serious risks
 - Establish hazard controls to mitigate serious risks
 - Make decisions based on your ability to mitigate those serious risks
 - Evaluate effectiveness of current actions
- Command/Leadership responsibilities when changing tactics
 - Communicate the changes to your subordinates, as well as to adjacent forces and up the chain of command
 - Account for all your people
 - Make sure everyone knows and follows the new plan
