

**National Interagency Coordination Center
Incident Management Situation Report
Friday, November 9, 2012 – 0800 MT
National Preparedness Level 1**

National Fire Activity

Initial attack activity:	Light (48 new fires)
New large fires:	0 (*)
Large fires contained:	0
Uncontained large fires: **	0
Area Command Teams committed:	0
NIMOs committed:	3
Type 1 IMTs committed:	2
Type 2 IMTs committed:	5

** Uncontained large fires include only fires being managed under a full suppression strategy.
[Link](#) to Geographic Area daily reports.

Eastern Area (PL 3)

New fires:	5
New large fires:	0
Uncontained large fires:	0
NIMO's committed:	3
Type 1 IMTs committed:	2
Type 2 IMTs committed:	5

Hurricane Sandy Support, Federal Emergency Management Agency. Ten incident management teams and 38 crews are assigned.

Three NIMO's are assigned (Quesinberry, Kleinman and Hahnenberg).

- Quesinberry: Is facilitating emergency road clearing in Nassau County, NY.
- Kleinman: Is coordinating with the New York City Office of Emergency Management Logistics Center.
- Hahnenberg: Is assigned to the Office of Emergency Management in New York City.

Two Type 1 Teams (Wilder and Opliger) are assigned.

- Wilder: Staged in Harrisburg, PA.
- Opliger: Is managing a mobilization center at Fort Dix, NJ.

Five Type 2 Teams (Pisarek, Dueitt, Kollmeyer, Fry and Edwards) are assigned.

- Pisarek: Is managing a mobilization, and receiving and distribution centers in the New York City area.
- Dueitt: Is facilitating the FEMA Community Relations Project in the New York City area.
- Kollmeyer: Is managing points of distribution in Nassau County, NY.
- Fry: Assisting with road clearing operations in New Jersey.
- Edwards: Assisting with road clearing operations in New Jersey.

Predictive Services Discussion: A winter storm will move across the northern Rockies and the Great Basin, bringing snow to the mountains and rain to lower elevations across much of the West. Blizzard conditions are expected in parts of Montana. High pressure dropping from Canada and low pressure over the central Plains will produce strong winds from northern Texas to the upper Midwest. Temperatures will fall quickly in the north while the Plains and the Mississippi valley warm quickly. Mild conditions will remain in place over most of the East while a few lingering showers and breezy conditions continue in the far Northeast.

**Today's discussion is from the
Miscellaneous Category.**

*"Fitness can neither be bought nor bestowed,
like honor it must be earned"*

The FireFit program was created with the intent of providing the interagency wildland fire community with a comprehensive, easy-to-follow, fitness program with the ultimate goal of improving firefighter safety and health and reducing injuries. This program provides a basic format for a well balanced fitness program that can be augmented as local units see fit. Program success will rely on management support at every level as well as individual's motivation and participation.

Wildland firefighters know that physical fitness plays an important role in our job performance and our ability to stay safe. The level of fitness required for the job is one that requires maintenance during the off-season.

Post-Season Fitness Module Objective: (all fitness modules are found on the website)

This module initially provides a transition from the fire-season program in order to allow time for rest and recuperation, and injury rehabilitation. After the initial 2 week rest/recovery phase, the program is designed to provide a transition to develop and maintain a baseline fitness level in preparation for the pre-season phase and optimal fitness.

The post-season module is also developed with flexibility in order to encourage cross-training and a diversity of activities that are fun and enjoyable. Initial concentration will be on identifying any injuries sustained during the fire season that need mitigation and/or rehabilitation. It will also allow for 2 weeks without training in order to allow the body to relax, physically and mentally. Once exercise is implemented, the primary focus will be on adhering to

- Low impact cardiovascular activities,
- muscle balance,
- and good flexibility.

Go to the [FireFit](#) homepage and click on [Post Fire Season Exercises](#) for many more ideas.
