

**National Interagency Coordination Center
Incident Management Situation Report
Wednesday, September 26, 2012 – 0530 MT
National Preparedness Level 3**

National Fire Activity

Initial attack activity:	Light (84 new fires)
New large fires:	2 (*)
Large fires contained:	4
Uncontained large fires: **	30
Area Command Teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	7
Type 2 IMTs committed:	8

** Uncontained large fires include only fires being managed under a full suppression strategy.

Northwest Area (PL 4)

New fires:	7
New large fires:	1
Uncontained large fires:	19
Type 1 IMTs committed:	3
Type 2 IMTs committed:	4

Table Mountain, Okanogan/Wenatchee NF. IMT 1 (Morcom). Eight miles northeast of Cle Elum, WA. Timber, logging slash, brush and grass. Backing fire with short upslope runs. Numerous structures threatened. Evacuations and road closures in effect.

Wenatchee Complex (10 fires), Okanogan/Wenatchee NF. Transfer of command from IMT 1 (Pendleton) to IMT 1 (Reinarz) will occur today. Two miles west of Wenatchee, WA. Timber, brush and grass. Upslope runs with spotting. Numerous residences threatened. Evacuations in effect.

Goat, Okanogan/Wenatchee NF. IMT 2 (Leitch). Three miles southwest of Pateros, WA. Timber and grass. Active fire behavior with torching and short-range spotting. Numerous structures threatened.

Cascade Creek, Gifford Pinchot NF. IMT 2 (Nickey). Eight miles north of Trout Lake, WA. Timber. Active fire behavior.

Pole Creek, Deschutes NF. Transfer of command from IMT 2 (Watts) back to the local unit will occur 9/29. Six miles southwest of Sisters, OR. Timber. Minimal fire activity with occasional torching. Numerous residences threatened.

Okanogan Complex (3 fires), Okanogan/Wenatchee NF. Transfer of command from IMT 2 (Williams) back to the local unit will occur today. Eight miles southeast of Carlton, WA. Timber. Backing fire with isolated torching. Structures threatened.

Yakima Complex, Okanogan/Wenatchee NF. Seventeen miles northwest of Ellensburg, WA. Timber, brush and grass. No new information.

* **Rooper**, Prineville District, BLM. Started on private land three miles northwest of Antelope, OR. Brush and grass. Running fire.

This table does not include fires reported in the large fire section of this report. Updated weekly.

Predictive Services Discussion: Isolated to widely scattered showers and thunderstorms will develop across the Rockies from northern Wyoming to northern New Mexico. Otherwise, warm and dry conditions will continue in the West. A cold front will stall across the Ohio Valley, bringing cooler weather to the Great Lakes and northern Plains, with showers and a few thunderstorms from Missouri to New England. Warm and humid conditions will remain over the Gulf Coast region and the Southeast.

<http://www.predictiveservices.nifc.gov/outlooks/outlooks.html>

Today's discussion is from the
Aviation Category.

SAFECOMS

Attention! To All Involved in Aviation Operations!

- Ever feel like you don't make a difference?
- Want to really have an effect on aviation safety?
- Well, here's your chance!!!!

The Interagency SAFECOM Working Group has developed a quick survey to get feedback from you- the user. In an effort to reach as many folks as possible we have put it on the internet linked from the SAFECOM Homepage and from the icon and link below. Please take 5-10 minutes to complete the survey and provide us with your thoughts. The survey will be open from October 1, 2009 to July 31, 2010 to get the widest possible respondent pool. A running total of responses will be posted on the SAFECOM website monthly, and survey results will be distributed shortly after it closes.

If the above icon does not work, please click on the following link or copy and paste into your web browser:
<http://www.zoomerang.com/Survey/?p=WEB229PT2DSXYS>

What the SAFECOM system IS

The Aviation Safety Communiqué (SAFECOM) [AMD-34/FS-5700-14](#) should be used to report any condition, observation, act, maintenance problem, or circumstance with personnel or the aircraft that has the potential to cause an aviation-related mishap. SAFECOMS are a tool used to identify, document, track, and correct safety related issues.

What the SAFECOM system IS NOT

- NOT intended for initiating punitive actions,
- NOT to be used as a complaint system or for personal attacks,
- NOT used by contracting officers for contract evaluations/award purposes,
- NOT a substitute for "on-the-spot" corrections to a safety concern,
- Does NOT replace the requirement for initiating an accident or incident report.

SAFECOMS provide the necessary feedback for development of the following communication tools:

- [Accident Prevention Bulletins](#)
- [Lessons Learned](#)
- [Safety Alerts](#)
- [Technical Bulletins](#)
- [Airwards](#)
- Information sharing Memos
- Maintenance deficiencies (ADs, SBs, etc)
- Safety trends
- Training needs

Please contact AMD at (208)433-5070 or USFS at (208)387-5285 to report problems with the SAFECOM system.
