

**National Interagency Coordination Center
Incident Management Situation Report
Tuesday, June 18, 2013 – 0530 MT
National Preparedness Level 2**

National Fire Activity

Initial attack activity:	Light (150 new fires)
New large fires:	0 (*)
Large fires contained:	0
Uncontained large fires: **	15
Area Command Teams committed:	0
NIMOs committed:	2
Type 1 IMTs committed:	1
Type 2 IMTs committed:	5

** Uncontained large fires include only fires being managed under a full suppression strategy.

Two MAFFS C-130 aircraft and support personnel from the 302nd Airlift Wing, Colorado Springs (US Air Force Reserve) are supporting wildland fire suppression operations out of Colorado Springs, CO.

Southwest Area (PL 4)

New fires:	30
New large fires:	0
Uncontained large fires:	5
NIMOs committed:	1
Type 2 IMTs committed:	1

Walker's Area Command Team was released yesterday.

Silver, Gila NF. IMT 2 (Reidy). One mile west of Kingston, NM. Timber. Active fire behavior with group tree torching. Structures threatened. Evacuations and area closures in effect.

Whites Peak, Cimarron District, New Mexico State Forestry. Fourteen miles southwest of Cimarron, NM. Timber and grass. Creeping and smoldering.

Thompson Ridge, Bernalillo District, New Mexico State Forestry. Ten miles north of Jemez Springs, NM. Timber. Minimal fire behavior.

Jaroso, Santa Fe NF. NIMO (Quesinberry). Eight miles south of Truchas, NM. Timber. Minimal fire behavior.

Tres Lagunas, Las Vegas District, New Mexico State Forestry. Fifteen miles north of Pecos, NM. Timber. Creeping and smoldering. Structures threatened. Area closures in effect.

Predictive Services Discussion: An upper low off the Northwest coast will move inland, producing gusty southwest to west winds across much of the Great Basin and the Southwest. Humidity will be very low, contributing to critical fire conditions around the region. Isolated to widely scattered thunderstorms will develop along the southern Rockies in the afternoon. The Northwest and northern Rockies will turn cooler with scattered showers and thunderstorms developing late. The East will remain mild to warm with scattered thunderstorms. Alaska will experience another very warm day.

FIGHT FIRE AGGRESSIVELY, BUT PROVIDE FOR SAFETY FIRST

Fireline Safety Category

Standard Fire Order #10 must be taken into account at all times when fighting fire. In order to fight fire safely and aggressively, every firefighter must be able to answer the following questions:

- Is the suppression method adequate? Ask yourselves, are we making progress? Are we beating our heads against a wall? Is there a better way to get this done? Give examples when you have had to change your suppression method.
- Are there adequate resources and time for effective suppression? Ask yourselves, do we need to retreat and reevaluate? Talk about times when you have realized you weren't getting anywhere and needed to retreat and start managing firefighters and placing orders.
- Are lookouts posted? Discuss when you post lookouts, who you would choose to be a lookout, and where they should be located.
- Are communications prompt with crews and other resources? Review the importance of good communications on the fireline.
- Have escape routes and safety zones been established? Talk about your crew's procedure for establishing escape routes and safety zones. Review what constitutes an escape route and a safety zone.
- Do you feel comfortable with your assignment? Discuss the situation check. Remind firefighters that every individual has the right to question an assignment.
- To reduce the risks:
 - Post lookouts.
 - Retreat if the situation is too complex. Emphasize that safety is everyone's responsibility; we all want to be good firefighters and being safe is part of that.
 - Do you have established trigger points?
