**Predictive Services Discussion:** Dry conditions will prevail across Arizona, Utah, Wyoming, Colorado and New Mexico. Scattered showers and thunderstorms will continue over the eastern half of the country. It continues to be cool with periods of rain from northern California and the Pacific Northwest eastward into northern Nevada, Idaho, and western Montana. Hot and dry over much of Alaska.

## Today's discussion is from the Hazard Tree Category.

### HAZARD TREE FELLING – HANG-UPS

- For decades, hazard trees have been associated with numerous deaths of workers assigned fire operations and project work. Incidents involving hazard trees are included in the top 5 life threats to wildland firefighters along with wildfire entrapment and motor vehicle accidents. In private industry, logging is recognized as the most dangerous occupation in the nation, and many associated fatalities involve felling hazard trees. Felling a hung-up hazard tree is a particularly hazardous and complex task.

- Sawyers are to be reminded on how vital it is to constantly apply and maintain situational awareness and assess risks, particularly when faced with problem of a **hang-up** hazard tree.
- In most cases, safely felling a hang-up requires extreme caution and expertise due to characteristic danger and complexity. The following are some topics experienced sawyers should review during 6 minutes for safety/tailgate safety discussions and cover in training modules specifically designed to address felling hang-up hazard trees:

- Cut/No Cut (walk-a-way) criteria
- Risk Assessment
- Situational Awareness Checklist
- Secure Felling Area
- No Work Zones (NWZ)
- Blasting option
- Equipment/cable option
- Role/responsibility of swamper/lookout
- Escape routes
- Pushingedriver tree opportunity
- Felling trees tied together
- Sidewinder potential
- Hazards of obscured view of top
- Need to keep looking up
- Weak/spiked tops, limb location/condition/density, and hidden defect/rot
- Prescribed step down (fence post/wafer) cutting techniques
- Rope Technique
