

**National Interagency Coordination Center  
Incident Management Situation Report  
Sunday, June 30, 2013 – 0530 MT  
National Preparedness Level 3**

**National Fire Activity**

Initial attack activity:	Light (155 new fires)
New large fires:	8 (*)
Large fires contained:	0
Uncontained large fires: **	15
Area Command Teams committed:	1
NIMOs committed:	1
Type 1 IMTs committed:	1
Type 2 IMTs committed:	7

\*\* Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

Four MAFFS C-130 aircraft and support personnel from the 302<sup>nd</sup> Airlift Wing, Colorado Springs (US Air Force Reserve), and the 146<sup>th</sup> Airlift Wing, Channel Islands (California Air National Guard) are supporting wildland fire suppression operations out of Colorado Springs, CO.

**Rocky Mountain Area (PL 4)**

New fires:	11
New large fires:	0
Uncontained large fires:	1
Area Command Teams committed:	1
NIMOs committed:	1
Type 1 IMTs committed:	1
Type 2 IMTs committed:	3

Area Command Team (Loach) is assigned to the West Fork Complex in support of Forest Service Region 2.

**West Fork Complex**, (three fires), San Juan NF. NIMO (Houseman) and IMT 1 (Blume). Fifteen miles north of Pagosa Springs, CO. Timber. Moderate fire behavior. Communities of South Fork and Wagon Wheel Gap, power lines, ski area and communications sites threatened. Evacuations and area closures in effect.

**East Fork**, Grand Mesa/Uncompahgre/Gunnison NF. IMT 2 (Kusicko). Thirty miles southeast of Montrose, CO. Timber. Creeping and smoldering with isolated torching and short-range spotting. Structures threatened.

**East Peak**, Huerfano County. IMT 2 (Esperance). Ten miles southwest of Walsenburg, CO. Timber and grass. Smoldering.

**Ox Cart**, Rio Grande NF. Transfer of command from IMT 2 (Dunford) back to the local unit will occur today. Nine miles north of Villa Grove, CO. Timber. Minimal fire behavior.

### **Southwest Area (PL 4)**

New fires: 18

New large fires: 1

Uncontained large fires: 6

Type 2 IMTs committed: 2

**Silver**, Gila NF. IMT 2 (Pierson). One mile west of Kingston, NM. Timber. Active fire behavior. Structures threatened. Area and road closures in effect. Increase in acreage due to more accurate mapping. Precipitation occurred over the fire area yesterday.

\* **W2**, Coronado NF. Nine miles east of Nogales, AZ. Oak, brush and grass. Active fire behavior with sustained runs and single tree torching.

**Jaroso**, Santa Fe NF. IMT 2 (McBratney). Eight miles south of Truchas, NM. Timber. Creeping and smoldering.

**Creek**, San Carlos Agency, BIA. Forty miles northwest of Safford, AZ. Timber and grass. Moderate fire behavior. Last report unless significant activity occurs.

**Doce**, Prescott NF. Seven miles northwest of Prescott, AZ. Timber and brush. Creeping and smoldering.

**Thompson Ridge**, Bernalillo District, New Mexico State Forestry. Ten miles north of Jemez Springs, NM. Timber and grass. Minimal fire behavior. Precipitation occurred over the fire area yesterday.

**Sycamore**, Papago Agency, BIA. Seventeen miles southeast of Sells, AZ. Grass. No new information.

### Alaska Area (PL 3)

New fires:	13
New large fires:	3
Uncontained large fires:	2
Type 2 IMTs committed:	2

**Moon Lake**, Tok Area Forestry, Alaska DOF. IMT 2 (Allen). Seven miles west of Tok, AK. Timber. Creeping and smoldering. Structures threatened. Precipitation occurred over the fire area yesterday.

**Beaver Log Lakes**, Tanana Zone, Alaska Fire Service. Fifteen miles northeast of Minchumina Lake, AK. Black spruce and tundra. Creeping with isolated torching. Structures threatened.

**Moore Creek**, Southwest Area Forestry, Alaska DOF. Previously reported incident. Started on BIA land 40 miles southwest of McGrath, AK. Flanking fire with single tree torching. Last report unless significant activity occurs.

**Chisana River**, Tok Area Forestry, Alaska DOF. Started on FWS land 29 miles southeast of Northway, AK. Black spruce. Minimal fire behavior. Precipitation occurred over the fire area yesterday.

**Skinny's Road**, Fairbanks Area Forestry, Alaska DOF. IMT 2 (Savage). Thirty miles west of Fairbanks, AK. Black spruce. Creeping with isolated torching.

**Lime Hills**, Southwest Area Forestry, Alaska DOF. Ten miles northwest of Lime Village, AK. Black spruce and tundra. Creeping with isolated torching. Reduction in acreage due to more accurate mapping.

**Moving River**, Tanana Zone, Alaska Fire Service. Previously reported incident. Started on NPS land 72 miles west of Garner, AK. Creeping and smoldering with isolated torching. Structures threatened. Last report unless significant activity occurs.

**Kristin Creek**, Southwest Area Forestry, Alaska DOF. Previously reported incident. Started on NPS land forty miles southeast of Lime Village, AK. No further information received. Last report unless significant activity occurs.

\* **North Porcupine**. Upper Yukon Zone, Alaska Fire Service. Started on FWS land 85 miles northeast of Fort Yukon, AK. Black spruce. Active fire behavior with group tree torching and long-range spotting. Last report unless significant activity occurs.

**Dead Fish Lake**, Tanana Zone, Alaska Fire Service. Previously reported incident. Nineteen miles northeast of Lake Minchumina, AK. Black spruce and tundra. Torching and spotting. Last report unless significant activity occurs.

\* **Innoko 1**, Galena Zone, Alaska Fire Service. Started on FWS land 85 miles south of Galena, AK. Black spruce and brush. Smoldering. Last report unless significant activity occurs.

\* **Four Mile Creek**, Galena Zone, Alaska Fire Service. Started on FWS land 70 miles south of Galena, AK. Black spruce, hardwood slash and brush. Smoldering. Last report unless significant activity occurs.

**Predictive Services Discussion:** Strong high pressure will keep extreme heat in place over the western U.S. Scattered thunderstorms will develop along the Colorado and New Mexico Front Range. These storms will produce rainfall amounts of 0.10" to 0.50" inch. Elsewhere in the West, isolated to widely scattered thunderstorms will form across parts of the northern Rockies, the Four Corners region, the Sierras, and parts of Nevada. Rainfall should be less than 0.10". In the East, mild conditions will continue from the Upper Midwest and mid-Mississippi Valley to New England. Scattered showers and thunderstorms will develop across much of the eastern third of the nation. In Alaska, temperatures will cool considerably over the western half of the state as scattered rain and thunderstorms spread through the region. The eastern Interior will remain very warm with isolated thunderstorms developing in the afternoon and evening.

<http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

## FALLING SNAGS

### *Hazard Tree Category*

Falling snags (dead, standing trees without leaves or needles in the crowns) present a significant hazard to wildland firefighters. Snags typically have much lower fuel moistures than live, green trees; and they burn more readily. In the process, they often throw spot fires far in advance of the main fire and often burn through more quickly than green trees, falling with little or no warning.

- The risk of injuries from falling snags increases during the night operational period when visibility is greatly reduced.
- While the cooler, nighttime period is generally a more effective time to gain control of wildfires, the increased risk from unseen falling snags may limit the widespread use of crews at night in areas of dead and dying timber.
- Environmental conditions that increase risk from falling snags:
  - Strong winds
  - Night operations
  - Steep slopes
  - Diseased or bug-killed areas
- Things to consider when assessing the potential hazards of both snags and green trees:
  - Trees have been burning for an extended period.
  - High-risk tree species (those that are known for rot and shallow root systems) are in the area.
  - Numerous downed trees
  - Dead or broken tips and limbs overhead
  - Accumulation of downed limbs
  - Absence of needles, bark or limbs
  - Leaning or hung-up trees
- Mitigation measures to take:
  - Identify and flag all high-risk snags and green trees.
  - Keep personnel out of the high-risk areas until the hazard has been removed.
  - Establish lookouts.
