

**National Interagency Coordination Center
Incident Management Situation Report
Friday, March 29, 2013 – 0800 MT
National Preparedness Level 1**

National Fire Activity (Weekly Total)

Initial attack activity: Light (451 new fires)
 New large fires: 7 (*)
 Large fires contained: 8
 Uncontained large fires: ** 1
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 0
 Type 2 IMTs committed: 0

** Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

Southern Area (PL 1)

New fires: 344
 New large fires: 7
 Uncontained large fires: 1

*** Shepherds Trail**, National Forests in Mississippi. Four miles northeast of Brooklyn, MS. Timber and grass. Moderate fire activity. Numerous structures threatened.

*** Puerto Negro**, Vieques NWR. Eight miles east of Vieques, PR. Brush. Minimal fire activity. Last report unless significant activity occurs.

*** Prine Road**, Alabama Forestry Commission. Five miles south of Citronelle, AL. Southern rough. No further information received. Last report unless significant activity occurs.

Predictive Services Discussion: A ridge will persist in the West, while a broad trough remains in place over the East. A weak storm will enter California over the weekend and cross the Great Basin and the central Rockies early in the week. Scattered rain and snow will accompany the storm as it moves across the region. A cold front will drop into the Plains and Great Lakes region at the beginning of the week and move to the Gulf and East Coast by midweek, bringing snow to the North and rain and thunderstorms to the South. Cool high pressure will build behind the front.

CHAINSAW SAFETY

Miscellaneous Category

Chainsaw safety is every saw operator's job.

- Always wear proper P.P.E. when handling or working around chainsaws.
 - Eye protection- approved goggles or safety glasses (no sunglasses)
 - Chainsaw Chaps- proper size and length
 - Gloves-proper size
 - Long sleeve shirt-no loose sleeves
 - Leather boots-no loose boot laces
- Take the time to inspect the chainsaw before operating the saw.
 - Check the chain and bar- Sharpness of chain, Bar seated correctly
 - Check the bolts and screws all around the saw- no missing screws or bolts
 - Check the casing of the saw- no cracked or missing plastic
- Make sure you're aware of your surroundings while operating the chainsaw.
 - Check the chain and bar- Sharpness of chain, Bar seated correctly
 - Check the bolts and screws all around the saw- no missing screws or bolts
 - Check the casing of the saw- no cracked or missing plastic
- Make sure you're aware of your surroundings while operating the chainsaw.
 - Look for people working in your area- advise all personnel you're operating the saw.
 - Look for any snags or hazards in your area- look up for power lines, widow makers, etc.
 - Make sure you always have a spotter or swamper to use for communications.
 - Always watch your footing while operating the saw- loose, rocky, steep terrain can cause you to slip while the chainsaw is running.
- Always make sure you are comfortable doing the task at hand.
 - Proper training for personnel running saws.
 - While falling trees know your escape route.
 - If you are not comfortable falling the tree walk away. Notify your supervisor and mitigate the safety issues or turn down the assignment.

Have an idea? Have feedback? Share it.
