

**National Interagency Coordination Center  
Incident Management Situation Report  
Wednesday June 4, 2014 – 0530 MT  
National Preparedness Level 1**

**National Fire Activity**

Initial attack activity: Light (83 new fires)  
 New large fires: 1 (\*)  
 Large fires contained: 0  
 Uncontained large fires: \*\* 4  
 Area Command Teams committed: 0  
 NIMOs committed: 0  
 Type 1 IMTs committed: 0  
 Type 2 IMTs committed: 1

\*\* Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

**Alaska Area (PL 2)**

New fires: 2  
 New large fires: 0  
 Uncontained large fires: 1  
 Type 2 IMTs committed 1

**Funny River**, Kenai-Kodiak Area, Alaska DOF. IMT 2 (Kurth). Started on FWS land five miles southwest of Soldotna, AK. Black spruce, hardwood litter and grass. Isolated interior smoldering. Numerous structures threatened.

**100 Mile Creek**, Military Zone, BLM. Previously reported incident. Twenty miles southwest of Big Delta, AK. Timber and grass. Backing fire. Structures threatened. Precipitation occurred over the fire area yesterday.

Incident Name	St	Unit	Size	Size Chge 24 Hrs	% Ctn	Est Ctn	Totl Pers	Pers Chge 24 Hrs	Crw	Eng	Heli	Strc Lost	\$\$ CTD	Origin Own

Total	0	0	0	0	0	0

**Predictive Services Discussion:** A trough of low pressure over the western U.S. will continue to send weak upper level disturbances through the Intermountain West and Great Basin with isolated thunderstorms and gusty winds but little if any precipitation. Further south hot and dry conditions will continue over California and the Southwest U.S. today. Unsettled weather is expected east of the Rocky Mountains from the Northern and Central Plains through the Ohio Valley where an upper level disturbance and cold front will be the focus for strong storms.

<http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

## **BASE ALL ACTIONS ON CURRENT AND EXPECTED FIRE BEHAVIOR**

*Weather / Fire Behavior Category*

- Can the resources you are replacing give you a thorough briefing? What information will you want to get from resources you are replacing?
- Can you observe the area or use scouts? What information are the scouts looking for?
- Have escape routes and safety zones been thoroughly scouted? List some ways your crew will scout out an area before you begin working
- Are escape routes and safety zones marked for night use? How do you adjust marking safety zones and escape routes for night use?
- Have potential dangers been located and can they be dealt with? List some dangerous fire behavior you may encounter and how you would deal with it.
- Do you have access to weather and fire behavior forecasts? What is your unit's procedure for obtaining forecasts?
- To reduce risk, initiate the following:
  - Post lookouts.
  - Check communications.
  - Retreat if you have doubts about your escape routes or safety zones or if the situation becomes too complex. Discuss fires where you have adjusted your actions based on current and expected fire behavior.

How would you judge the fire season? (Above normal, below, or average.)
