

**National Interagency Coordination Center  
Incident Management Situation Report  
Tuesday, May 27, 2014 – 0530 MT  
National Preparedness Level 2**

**National Fire Activity**

Initial attack activity:	Light (96 new fires)
New large fires:	2 (*)
Large fires contained:	1
Uncontained large fires: **	8
Area Command Teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	1
Type 2 IMTs committed:	2

\*\* Uncontained large fires include only fires being managed under a full suppression strategy.

**Alaska Area (PL 3)**

New fires:	5
New large fires:	0
Uncontained large fires:	2
Type 2 IMTs committed	2

**Funny River**, Kenai-Kodiak Area, Alaska DOF. IMT 2 (Kurth). Started on FWS land five miles southwest of Soldotna, AK. Black spruce and hardwood litter. Active crown runs. Numerous structures threatened. Evacuations in effect.

**Tyonek**, Mat-Su Area, Alaska DOF. IMT 2 (Allbee). Two miles north of Tyonek, AK. Timber and hardwood litter. Minimal fire behavior.

**Predictive Services Discussion:** Showers and thunderstorms will be focused from the Southern Plains to the Ohio Valley today in association with a trough of low pressure. There will also be a chance of storms for the Northern Rockies with a weak, upper level disturbance. Alaska will see higher humidity and a chance of rain as low pressure moves east across the state. A warming and drying trend will develop for California and the Southwest U.S. as high pressure and gusty winds build over the region.

## AVIATION WATCH OUTs

*Aviation Category*

As part of risk management, especially during high activity fires, each aviation manager and employee should be asking questions.

- Is the flight necessary?
- Who is in charge?
- Are hazards identified and known?

Flight Hazards: Have they been identified and assessed? Have the pilots been informed?

- Should the operation or the flight be stopped due to a change in conditions? Consider the following:
  - Radio Communications
  - Environmental Conditions – weather, visibility, terrain, elevation, temperatures
  - Mission Priorities
  - Successful Mission Completion Probabilities

- Is there a better way to do it?
- Is there pressure to complete a mission at all costs?
- Can you justify your actions?
- Is the mission airspace confined or congested?

Multiple aircraft  
Mixed types of aircraft  
Poor visibility

- Do you have an escape route?
- Are any guidelines being ignored or policies being broken?
- Are communications getting tense?
- Are you deviating from the assigned operation or flight?
