

**National Interagency Coordination Center
Incident Management Situation Report
Thursday, September 25, 2014 – 0530 MT
National Preparedness Level 2**

National Fire Activity

Initial attack activity: Light (58 new fires)
 New large fires: 0 (*)
 Large fires contained: 0
 Uncontained large fires: ** 9
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 3
 Type 2 IMTs committed: 3

** Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

Two MAFFS C-130 air tankers and support personnel from the 146th Airlift Wing (California Air National Guard) are deployed at Channel Islands to support wildland fire suppression operations in the western U.S.

Northern California Area (PL 3)

New fires: 11
 New large fires: 0
 Uncontained large fires: 2
 Type 1 IMTs committed: 3

King, Amador-El Dorado Unit, Cal Fire. Unified command between IMT 1 (Giachino) and Cal Fire IMT 1 (Smith). Eleven miles east of Placerville, CA. Timber and grass. Active fire behavior with torching and short crown runs. Numerous structures and energy infrastructure threatened. Evacuations, road and area closures in effect.

Happy Camp Complex, Klamath NF. IMT 1 (Opliger). One mile east of Happy Camp, CA. Timber, brush and grass. Moderate fire behavior. Area closure in effect. Precipitation occurred over the fire area yesterday.

Northwest Area (PL 2)

New fires: 4
 New large fires: 0
 Uncontained large fires: 6
 Type 2 IMTs committed: 3

36 Pit, Mt. Hood NF. IMT 2 (Rabe). Eight miles southeast of Estacada, OR. Timber. Road and area closures in effect. No further information received.

Onion Mountain, Rogue River-Siskiyou NF. Transfer of command from IMT 2 (Williams) back to the local unit will occur tomorrow. Fifteen miles west of Grants Pass, OR. Timber. Smoldering. Precipitation occurred over the fire area yesterday.

Freezeout Ridge, Wallowa-Whitman NF. IMT 2 (Kidd). Eleven miles southwest of Riggins, ID. Timber. Moderate fire behavior. Structures threatened.

Deception Complex, Willamette NF. Two miles west of Oakridge, OR. Timber. Smoldering. Area closures in effect. Precipitation occurred over the fire area yesterday.

South Steens Complex (2 fires). Ten miles north of Fields, OR. Juniper, brush and grass. Smoldering. Structures and sage-grouse habitat threatened.

790, Rogue River-Siskiyou NF. Thirty miles northeast of Medford, OR. Timber. Creeping and smoldering.

Predictive Services Discussion: Cool, wet, and blustery weather will result in the northwest U.S. as a very strong upper level trough steers abundant moisture inland. Heavy rain will be enhanced along a slow-moving cold front. This may produce flash flooding in steep terrain and over burn scars from recent wildfires in the Pacific Northwest and northern California. Showers and thunderstorms are also expected along the Gulf coast through the mid-Atlantic in association with a coastal trough and deep tropical moisture. High pressure over much of the central and eastern U.S. will provide dry, autumn conditions.

HELICOPTER LANDING AREA SAFETY

Aviation Category

The following points should be considered when operating around an unimproved landing site:

- Always wear your personal protective equipment (PPE) when working around an operating helicopter. (Eye, hearing, head)
- Always get the approval of a flight crewmember or the pilot before approaching an operating helicopter.
- Only approach and depart a helicopter as directed, in a slightly crouched position, and in full view of a crewmember. Keep in pilot's field of vision at all times.
- Never go near the tail of helicopters.
- When loading helicopters in uneven terrain, always approach and depart from the down slope (lower) side and do not hold equipment overhead.
- Remove or secure loose articles prior to working around an operating helicopter.
- Be aware of the dust abatement conditions of the landing area, as blowing dust, sand, or rocks caused by the helicopter's rotor wash can be hazardous.
