

**National Interagency Coordination Center
Incident Management Situation Report
Saturday, August 1, 2015 - 0530 MT
National Preparedness Level 3**

National Fire Activity

Initial attack activity:	Moderate (283 new fires)
New large incidents:	7
Large fires contained:	2
Uncontained large fires: **	22
Area Command Teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	8
Type 2 IMTs committed:	5

** Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

On July 30 a firefighter was fatally injured on the Frog fire near Alturas, CA. The firefighting community extends condolences to family and friends of the deceased.

Five wildland fire suppression crews and an IARR are assigned to support large fires in Alberta, Canada. Additionally, several states are supporting Canada through interstate forest fire compacts.

Northern California Area (PL 4)

New fires:	197
New large incidents:	4
Uncontained large fires:	9
NIMOs committed:	1
Type 1 IMTs committed:	4
Type 2 IMTs committed:	2

Rocky, Sonoma-Lake Napa Unit, Cal Fire. Cal Fire IMT 1 (Patterson). Six miles east of Lower Lake, CA. Timber and chaparral. Extreme fire behavior with short-range spotting, uphill runs and wind-driven runs. Numerous structures threatened. Evacuations, road, area and trail closures in effect.

* **Fork Complex**, Shasta-Trinity NF. IMT 2 (Johnson). Three miles east of Hayfork, CA. Timber. Active fire behavior with short crown runs and uphill runs. Numerous structures threatened. Evacuations in effect.

* **River Complex (2 fires)**, Shasta-Trinity NF. IMT 1 (Vontillow). Three miles southwest of Denny, CA. Timber, chaparral and brush. Active fire behavior with group torching and spotting. Numerous structures threatened. Evacuations in effect.

Lowell, Nevada-Yuba-Placer Unit, Cal Fire. IMT 1 (Gouvea). Two miles west of Gold Run, CA. Timber. Minimal fire behavior with creeping and smoldering. Structures threatened. Road, area and trail closures in effect.

* **Frog**, Modoc NF. NIMO (Houseman) and IMT 2 (Kurth). Five miles west of Scarface, CA. Timber and chaparral. Active fire behavior with wind-driven runs, long-range spotting and running. Structures threatened. Road, area and trail closures in effect.

Wragg, Sonoma-Lake Napa Unit, Cal Fire. Cal Fire IMT 1 (Estes). Four miles west of Winters, CA. Chaparral, brush and short grass. Minimal fire behavior with smoldering. Increase in acreage due to more accurate mapping.

Queen, Humboldt-Del Norte Unit, Cal Fire. Twelve miles northwest of Weitchpec, CA. Heavy logging slash. Minimal fire behavior with smoldering.

Swedes, Butte Unit, Cal Fire. Three miles north of Bangor, CA. Brush and short grass. Minimal fire behavior with smoldering. Reduction in acreage due to more accurate mapping.

Predictive Services Discussion: An upper level ridge of high pressure over the western U.S. will continue to bring hot, dry and unstable conditions to the northwest quarter of the Nation today. On the western edge of this feature, a strong disturbance aloft will move northward through the Great Basin and northern California with monsoonal moisture. This will kick off thunderstorms over Nevada, northern California and central Oregon. Some storms may have heavy rain but abundant lightning and gusty winds will be more widespread. Flooding will continue to be a concern over the southwest U.S. today with showers and thunderstorms from the Sierras eastward through Oklahoma. It will also remain unsettled and rainy over the southeast U.S. Southern Alaska will begin to see a warming and drying trend.

INSTRUCTIONS AND ASSIGNMENTS NOT CLEAR

Fire Communications Category

Every firefighter will be giving and receive briefings at some point on the job. Briefings are an effective way to disseminate information that can make the firefighter's job safer and easier. When giving a briefing, it is important to keep the following questions in mind and remain perceptive to how the audience is receiving the information:

- Did you use the Incident Response Pocket Guide standards briefing checklist?
- Did they ask questions? Talk about what it is like giving a briefing. Do you get empty stares? What feedback are you looking for to ensure they understand you?
- Did they take notes? What kind of information would you like to see people write down?
- Did they repeat information back? What other ways can you identify that your briefing is registering?
- Did you give all the necessary information? How will you ensure that you covered everything necessary?
 - Task
 - Location
 - Communications
 - Hazards
 - Who, when, etc.
- It is also important for the firefighter who is receiving instructions to be mindful of the following during the briefing:
 - Did you really listen? What do you do to make yourself pay attention to everything being said?
 - Did you understand the assignment, location, and the nature and location of hazards? Do you expect to figure it out for yourself when you get out there or do you step forward and ask questions?
- You must know the location of the assignment and:
 - What is to be done?
 - Who you are to report to and how often to report.
 - When you are expected to complete the assignment.
 - Hazards.
 - Communication plan frequencies.
 - Weather and fire behavior.
 - Status of adjoining forces.

Have an idea? Have feedback? Share it.
