Predictive Services Discussion: A cold front will move through the northwestern U.S. bringing cooler conditions to the Northwest, the northern Rockies, and the northern Great Basin. Windy conditions will develop along the Front Range of the Rockies with wind gusts in excess of 30 mph in parts of the High Plains from Montana to Colorado. Showers and thunderstorms will move into the northern Plains and the Upper Midwest ahead of the front. Scattered thunderstorms will also form over the Southwest and into the southern Rockies. Warm weather will continue over the southwestern U.S. Warm and humid weather will remain over the South with scattered afternoon thunderstorms developing along the Gulf Coast and through the Mid-Mississippi Valley.
