

**National Interagency Coordination Center**  
**Incident Management Situation Report**  
**Tuesday, June 16, 2015 - 0530 MT**  
**National Preparedness Level 2**

**National Fire Activity**

Initial attack activity:	Light (97 new fires)
New large incidents:	5
Large fires contained:	2
Uncontained large fires: **	5
Area Command Teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	0
Type 2 IMTs committed:	3

\*\* Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

**Alaska Area (PL 3)**

New fires:	7
New large incidents:	2
Uncontained large fires:	2
Type 2 IMTs committed	1

\* **Sockeye**, Mat-Su Area Forestry, DOF. IMT2 (Thomas). Started on private land six miles north of Willow, AK. Timber, brush and tall grass. Extreme fire behavior with crowning, running and spotting. Numerous structures threatened. Evacuations, road, area and trail closures in effect.

\* **Tanana Slough**, Tok Area Forestry, DOF. Started on tribal land four miles north of Dot Lake, AK. Timber, hardwood litter and brush. Active fire behavior with short crown runs, group torching and short-range spotting. Structures threatened.

Incident Name	Unit	Size		%	Ctn / Comp	Est	Personnel		Resources			Strc Lost	\$\$ CTD	Origin Own

SWS – Southwest Area Forestry, DOF

## Northwest Area (PL 2)

New fires:	12
New large incidents:	3
Uncontained large fires:	2
Type 2 IMTs committed	1

**Buckskin**, Rogue River-Siskiyou NF, IMT 2 (Johnson). Ten miles southwest of Cave Junction, OR. Timber and brush. Moderate fire behavior with wind-driven runs, short-range spotting and backing. Road, area and trail closures in effect.

\* **Little Basin**, Wallowa-Whitman NF. Ten miles north of Imnaha, OR. Timber, brush and short grass. Active fire behavior with uphill runs, flanking and backing. Structures threatened.

\* **Paradise**, Olympic NP. Thirteen miles north of Quinault, OR. Timber, closed timber litter and brush. Moderate fire behavior with wind-driven runs, short-range spotting and creeping. Area and trail closures in effect. Last report unless significant activity occurs.

**Predictive Services Discussion** Warmer and drier conditions will continue to develop over the southwest U.S. with locally breezy onshore winds along the Pacific coast. A weak upper level trough over the northern Rockies will bring isolated to scattered thunderstorms. Tropical moisture will continue to bring widespread rain and thunderstorms stretching from the southern Plains through the Ohio Valley. Overall, high pressure will continue to bring warm, dry and breezy conditions to Alaska today, but dry thunderstorms are expected in the southeast part of the state with a weak upper level trough.

<http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

This report contains information derived from the National Fire and Aviation Management Web Applications (FAMWEB) system and other sources to provide relative information about emerging and ongoing incident activity. This information is considered operational in nature, is subject to change, and therefore may not match official year-to-date agency records.

## BASE ALL ACTIONS ON CURRENT AND EXPECTED FIRE BEHAVIOR

*Weather / Fire Behavior Category*

- Can the resources you are replacing give you a thorough briefing? What information will you want to get from resources you are replacing?
- Can you observe the area or use scouts? What information are the scouts looking for?
- Have escape routes and safety zones been thoroughly scouted? List some ways your crew will scout out an area before you begin working
- Are escape routes and safety zones marked for night use? How do you adjust marking safety zones and escape routes for night use?
- Have potential dangers been located and can they be dealt with? List some dangerous fire behavior you may encounter and how you would deal with it.
- Do you have access to weather and fire behavior forecasts? What is your unit's procedure for obtaining forecasts?
- To reduce risk, initiate the following:
  - Post lookouts.
  - Check communications.
  - Retreat if you have doubts about your escape routes or safety zones or if the situation becomes too complex. Discuss fires where you have adjusted your actions based on current and expected fire behavior.

How would you judge the fire season? (Above normal, below, or average.)
