

**National Interagency Coordination Center
Incident Management Situation Report
Friday, June 19, 2015 - 0530 MT
National Preparedness Level 2**

National Fire Activity

Initial attack activity:	Light (104 new fires)
New large incidents:	5
Large fires contained:	0
Uncontained large fires: **	9
Area Command Teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	1
Type 2 IMTs committed:	4

** Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

Alaska Area (PL 4)

New fires:	5
New large incidents:	1
Uncontained large fires:	4
Type 1 IMTs committed:	1
Type 2 IMTs committed:	1

Card Street, Kenai-Kodiak Area Forestry, DOF. IMT2 (Allbee). Started on tribal land five miles southeast of Sterling, AK. Timber. Active fire behavior with group torching and spotting. Numerous structures threatened. Road, area and trail closures in effect.

Sockeye, Mat-Su Area Forestry, DOF. IMT1 (Doty). Started on private land six miles north of Willow, AK. Timber. Moderate fire behavior with group torching. Numerous structures threatened. Evacuations, road, area and trail closures in effect.

Stetson Creek, Chugach NF. Two miles southwest of Cooper Landing, AK. Timber. Active fire behavior. Structures threatened. Area and trail closures in effect.

Tanana Slough, Tok Area Forestry, DOF. Started on tribal land four miles north of Dot Lake, AK. Timber. Structures threatened. No new information.

Chisana River 2, Tok Area, DOF. Started on NPS land 25 miles west of Beaver Creek, AK. Timber. Active fire behavior with short crown runs, group torching and backing. Structures threatened. Last report unless significant activity occurs.

Healy Lake, Delta Area Forestry, DOF. Twenty-eight miles southeast of Delta Junction, AK. Timber. Active fire behavior with group torching, spotting and smoldering. Structures threatened.

* **Michigan Creek**, Delta Area Forestry, DOF. Thirty-eight miles northeast of Delta Junction, AK. Timber and closed timber litter. Active fire behavior with torching and uphill runs. Last report unless significant activity occurs.

Southwest Area (PL 2)

New fires:	14
New large incidents:	3
Uncontained large fires:	1

Kearny River, Arizona - Phoenix District, DOF. One mile west of Kearny, AZ. Timber. Active fire behavior with group torching and spotting. Structures threatened. Evacuations, road and area closures in effect.

* **Camillo**, Coconino NF. Four miles east of Mormon Lake, AZ. Timber. Moderate fire behavior. Structures threatened. Last report unless significant activity reported.

Whitetail, San Carlos Agency, BIA. Ten miles northeast of San Carlos, AZ. Brush and short grass and brush. Active fire behavior. Last report unless significant activity occurs.

Hog, Coronado NF. Thirty miles northeast of Douglas, AZ. Short grass. Moderate fire behavior with creeping. Last report unless significant activity occurs.

* **Horse Tank**, Coconino NF. Six miles north of Strawberry, AZ. Timber. Moderate fire behavior. Last report unless significant activity occurs.

* **Pinon**, Gila NF. Thirteen miles south of Aragon, AZ. Timber and short grass. Active fire behavior. Last report unless significant activity occurs.

Predictive Services Discussion A hot and dry airmass centered over southern California will expand eastward today as high pressure strengthens over the southwest U.S. Meanwhile a short wave trough of low pressure and dry cold front will move into the Pacific Northwest and northern Rockies. Between these two features, expect dry, downsloping winds from the Columbia Basin and northern California eastward through the Great Basin and central Rockies. Showers and thunderstorms will affect portions of the eastern U.S. including heavy rain from the Tennessee Valley through the Ohio Valley with residual moisture from Tropical Storm Bill. Another area of storms will develop along a frontal boundary in the upper Mississippi Valley. Hot and dry weather will continue in Alaska, with isolated thunderstorms in the south.

<http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

This report contains information derived from the National Fire and Aviation Management Web Applications (FAMWEB) system and other sources to provide relative information about emerging and ongoing incident activity. This information is considered operational in nature, is subject to change, and therefore may not match official year-to-date agency records.

DRIVING SAFETY

Vehicles/Roads Category

Driving is one of the most hazardous things we do because we literally perform the task hundreds of times in the course of our daily lives we tend to take it for granted. Based on recent accident trends, vehicle accidents are the source of more deaths and serious injuries to wildland firefighters than any other single cause.

- To be a safe driver you have to *want* to be one. Take a good hard look at your driving habits. Are you training yourself to do the right things the right way, like fastening your seat belt, checking your mirrors, and maintaining safe following distances?
- Inattentiveness is a major contributing factor in motor vehicle accidents within the wildland firefighting community. Since the average adult attention span is 15-20 minutes we must develop techniques that allow us to refocus our attention on our driving.
- Many things can lure our attention away from our driving such as: fatigue, eating and drinking, reading directions and maps, writing, cell phone and radio use, conversation within the vehicle and music.
 - ✓ Drive only when you are well rested and alert and avoid driving during the hours of 10:00 PM and 6:00 AM. Take a 10 to 15 minute break after every 2 hours.
 - ✓ Practice situational awareness; be aware of what is happening in front, behind, and on both sides of your vehicle.
 - ✓ Never drive when taking medications that make you drowsy.
 - ✓ Delegate navigation and communication to a passenger or pull over.
 - ✓ By constantly moving your vision, checking mirrors and distant road conditions, you can avoid highway hypnosis and daydreaming.
 - ✓ Avoid eating or drinking while driving.
 - ✓ When talking with passengers, keep your eyes on the road and both hands on the steering wheel. Avoid serious or argumentative conversations.
 - ✓ Do not be in a hurry, be patient.
- Safe driving starts with a safe vehicle. Something as simple as under-inflated tires can have serious consequences. Before operating any vehicle, do a walk-around to look for potential problems, make sure the lights and blinkers work, and adjust your seat and mirrors. If it is the first time you have driven the vehicle, make yourself aware of where everything is.
