

**National Interagency Coordination Center  
Incident Management Situation Report  
Monday, August 15, 2016 – 0530 MT  
National Preparedness Level 3**

**National Fire Activity**

Initial attack activity:	Light (112 new fires)
New large incidents:	4
Large fires contained:	1
Uncontained large fires:**	24
Area Command Teams Committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	7
Type 2 IMTs committed:	6

\*\*Uncontained large fires include only fires being managed under a full suppression strategy.  
[Link](#) to Geographic Area daily reports.

On August 13 a crewmember with the Lolo Interagency Hotshot crew was fatally injured while working on the Strawberry fire in Great Basin National Park. The firefighting community extends condolences to the family and friends of the deceased.

One MAFFS C-130 air tanker and support personnel each from the 153<sup>rd</sup> Airlift Wing, (Wyoming Air National Guard) and the 302<sup>nd</sup> Airlift Wing, (Colorado Springs, Air Force Reserve) have been deployed to Boise, ID in support of wildland fire operations.

One Convair 580 airtanker group from British Columbia has been deployed to Billings, MT in support of wildland fire operations.

**Southern California Area (PL 3)**

New fires:	22
New large incidents:	1
Uncontained large fires:	5
Type 1 IMTs committed:	4
Type 2 IMTs committed:	2

**Soberanes**, San Benito-Monterey Unit, Cal Fire. Cal Fire IMT 1 (Derum) and IMT 1 (Vontillow). Seven miles northwest of Big Sur, CA. Timber, chaparral and tall grass. Moderate fire behavior with short-range spotting, flanking and backing. Numerous structures threatened. Evacuations, road, area and trail closures in effect.

\* **Chimney**, San Luis Obispo Unit, Cal Fire. Cal Fire IMT 1 (Patterson). Fifteen miles west of Paso Robles, CA. Timber and chaparral. Extreme fire behavior with running, long-range spotting and isolated torching. Numerous structures threatened. Road and area closures in effect.

**Mineral**, Fresno-Kings Unit, Cal Fire. Cal Fire IMT 1 (Gouvea). Nine miles southwest of Coalinga, CA. Brush and grass. Minimal fire behavior. Road closures in effect.

**Pilot**, San Bernardino NF. Transfer of command from IMT 2 (Wakoski) back to local unit will occur tomorrow. Three miles west of Lake Arrowhead, CA. Timber, chaparral and brush. Minimal fire behavior. Road, trail and area closures in effect.

**Horseshoe**, Inyo NF. Transfer of command from IMT 2 (Laeng) back to local unit will occur today. Twelve miles southwest of Lone Pine, CA. Timber and brush. Minimal fire behavior with creeping and smoldering. Road closures in effect.

**Predictive Services Discussion:** Rain and thunderstorms will continue across much of the southeastern U.S. with locally heavy rain possible along the western Gulf Coast states. Isolated thunderstorms will develop in the afternoon over the mountains of the West. Widely scattered thunderstorms will move through the Upper Midwest. The western U.S. will remain hot and dry. Temperatures will be mild in the Midwest and begin warming across the Plains and the Southeast coast.

## Burn Protocols

*Firefighter Health & First Aid*

Burn injuries are often difficult to diagnose and may continue to worsen if they do not receive immediate, specialized treatment. The initial evaluation and treatment of these burns often happens in rural medical facilities with limited experience in burn injury care. In the past, this has resulted in evaluation and treatment that did not provide the best care to injured firefighters. Therefore, victims with either severe burns or burns that meet any of the below criteria should be immediately referred and transported to a regional burn center.

- Burn injury criteria identified by the American Burn Association as warranting immediate referral to an accredited burn center.
  - Partial thickness burns (second degree) involving greater than 5% Total Body Surface Area.
  - Burns involving the face, hands, feet, genitalia, perineum, or major joints.
  - Third-degree burns of any size are present.
  - Electrical burns, including lightning injury are present.
  - Inhalation injury is suspected.
  - Burns are accompanied by traumatic injury (such as fractures).
  - Individuals are unable to immediately return to full duty.
- It is imperative that action is expeditious, as burn injuries are often difficult to evaluate and may take 72 hours to manifest themselves. When there is any doubt as to the severity of the injury, the required action is to immediately refer and transport the employee to a regional burn center.
- To ensure that Workers Compensation assistance is provided an agency administrator, or designee, for the incident needs to coordinate with the firefighter's home unit.
- Do you know the location of the closest regional burn center?
  - <http://www.blm.gov/nifc/st/en/prog/fire/im.html>
