Predictive Services Discussion: Widely scattered thunderstorms will form over the Interior West, mainly over the mountains but also over the northern Great Basin. Scattered rain and thunderstorms, heavy at times, will continue across the South from Texas to Virginia. Scattered showers and a few thunderstorms will move across the Great Lakes and New England. Temperatures will be warm across most of the country with hot weather in the desert Southwest and the Central Valley of California. Mild conditions will continue over the Midwest and New England.

The 10 Standard Fire Orders

Operational Engagement Category

The orders are arranged according to their importance and grouped in logical sequence. Review and consider Standard Fire Orders as a part of every shift.

- Did you receive or request adequate weather briefing, current and predicted fire behavior, wind direction, predicted humidity, fuel moisture, local factors?
- Do you have map of the fire? Is topography, type of fuels, direction of the spread defined?
