**Predictive Services Discussion:** A cold front will move through the central Rockies and Plains and extend to the Great Lakes. Scattered showers and thunderstorms will develop across the northern and central Rockies, the northern and central Plains, and the upper Midwest. Scattered thunderstorms, some with heavy rain, will continue to form across the Gulf states to the Mid-Atlantic. Scattered thunderstorms will form over higher terrain in the Southwest with isolated thunderstorms possible along the Sierra in California. Temperatures will be much cooler across the northern and central Rockies to the Upper Midwest. Hot conditions will remain along the West Coast and across the Interior West. The South and East will be warm with mild conditions in the Ohio and Mid-Mississippi Valleys.

# LEAD Time

## Leader's Intent

*Leadership Category*

In fast-moving, dynamic situations, top-level decision makers cannot always incorporate new information into a formal planning process and redirect people to action within a reasonable timeframe.

We provide leader's intent so people closest to the scene of action can adapt plans and exercise initiative to accomplish the objective when unanticipated opportunities arise or when the original plan no longer suffices.

Leader's intent is a crucial element of effective operations because it reduces internal friction and empowers subordinates – even when chaotic conditions prevent the chain of command from communicating effectively.

Leader's intent is a clear, concise statement about what people must do to succeed in their assignments. It delineates three essential components:

1. Task - what is the objective or goal of the assignment?
2. Purpose – why the assignment needs to be done.
3. End state – how the situation should look when the assignment is successfully completed.

Within the framework of the defined end state, leaders can develop plans that include incident objectives, priorities, strategies, trigger points, and contingency plans.

### Discussion Points

- How were you most recently provided leader's intent?
- Describe a situation where leader's intent was utilized to adapt and achieve the desired end state.
- Describe a situation where leader's intent was not clear.
- Discuss how to gain leaders intent if it is not initially provided.
