

National Interagency Coordination Center
Incident Management Situation Report
Thursday, July 7, 2016 – 0530 MT
National Preparedness Level 2

National Fire Activity

Initial attack activity:	Light (154) new fires
New large incidents:	1
Large fires contained:	1
Uncontained large fires:**	14
Area Command Teams Committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	1
Type 2 IMTs committed:	5

**Uncontained large fires include only fires being managed under a full suppression strategy.

Southern California Area (PL 4)

New fires:	30
New large incidents:	0
Uncontained large fires:	4
Type 2 IMTs committed:	1

Pine, Los Padres NF. IMT 2 (Mills). Thirty miles northeast of Santa Barbara, CA. Timber, chaparral, and brush. Moderate fire behavior with isolated torching, flanking, and backing. Structures threatened. Road, area, and trail closures in effect.

Deer, Kern County Fire Department. Seven miles west of Ricardo, CA. Timber, brush, and tall grass. Minimal fire behavior. No new information.

Appaloosa, Tuolumne-Calaveras Unit, Cal Fire. Nine miles southwest of Angels Camp, CA. Timber, chaparral, and tall grass. Minimal fire behavior.

Erskine, Central California District, BLM. One mile southeast of Lake Isabella, CA. Timber, brush, and short grass. Minimal fire behavior. Area and trail closures in effect.

Predictive Services Discussion: Mainly dry conditions will continue across the West. A few showers will move into the Pacific Northwest while isolated afternoon thunderstorms develop over the far southern Rockies. Scattered showers and thunderstorms will spread from the northern Plains to New England and south to the Mid-Mississippi Valley. Temperatures will remain mild to warm across the northern half of the country while the southern half continues to be very hot. In Alaska, scattered showers and thunderstorms will continue across most of the state. Temperatures will remain warm in the Interior and mild to the north and south.

OPERATIONAL BRIEFINGS

Fire Communications Category

Operational briefings are critical to safe fire operations. To ensure a consistent and effective briefing, a standardized briefing checklist should always be used. The following checklist is printed on the cover of the NWCG Incident Response Pocket Guide:

- Situation:
 - Fire name, location, map orientation, other incidents in the area
 - Terrain influences
 - Fuel type and conditions
 - Fire weather (previous, current, and expected)
 - Fire behavior (previous, current, and expected)
- Mission/Execution:
 - Command (Incident Commander/immediate supervisor)
 - Leader's intent
 - Specific tactical assignments
 - Contingency plans
- Communications:
 - Communication Plan (tactical, command, air/ground frequencies, cell phone numbers, etc.)
 - Medevac Plan
- Service/Support:
 - Other resources that may be working adjacent to you and those available to order
 - Aviation operations
 - Logistics (e.g., transportation, supplies, equipment)
- Risk Management:
 - Identify known hazards and risks
 - Identify control measures to eliminate hazards and reduce risk
 - Identify trigger points for disengagement or reevaluation of operational plan
