

National Interagency Coordination Center
Incident Management Situation Report
Friday, July 8, 2016 – 0530 MT
National Preparedness Level 2

National Fire Activity

| | |
|-------------------------------|-----------------------|
| Initial attack activity: | Light (103) new fires |
| New large incidents: | 5 |
| Large fires contained: | 1 |
| Uncontained large fires:** | 12 |
| Area Command Teams Committed: | 0 |
| NIMOs committed: | 0 |
| Type 1 IMTs committed: | 1 |
| Type 2 IMTs committed: | 4 |

**Uncontained large fires include only fires being managed under a full suppression strategy.

Predictive Services Discussion: A cold front will move into the Pacific Northwest, bringing scattered showers and thunderstorms and cooler weather from the Northwest Coast to the northern Rockies. Warm and dry conditions will continue over the remainder of the West. In the East, scattered showers and thunderstorms will move through the Upper and Mid-Mississippi Valley to the Northeast. A few thunderstorms will form over the Southeast. Temperatures will turn cooler across the Northwest and the Great Lakes region. The southern half of the country will continue to be hot.

In Alaska, scattered shower and thunderstorms will be on the decrease. Temperatures will warm quickly across the state.

AIRCRAFT AND PILOT CARDING

Aviation Category

Every aircraft and pilot used in support of a Federal wildland fire mission must have a current Aircraft and pilot Card or letter of authorization. The card must be held in the aircraft or with the pilot, and give specific authorization to do the mission being requested.

These missions could be all, one, or any number of, missions as follows:

- Air attack (Level I, Level II, Level III)
- Reconnaissance
- Fire surveillance
- Water bucket
- Helitorch
- Cargo
- Longline

Every pilot who flies a properly carded aircraft must possess a current Interagency Airplane or Helicopter Pilot Qualification Card that gives specific authorization to fly the type of mission being requested and for the specific type of aircraft being used for the mission.

These missions could be all, or any number of, missions as follows:

- Air attack
- Reconnaissance
- Fire surveillance
- Low-level
- Paracargo
- Mountain/Remote airstrips
- Smokejumper
- Longline

Before the aircraft and pilot can be used for a specific mission, the aircraft must be specifically listed on a valid and current contract for the type of work being performed and a copy of the contract must be onboard the aircraft.

Each user of the aircraft and pilot has the authorization to physically inspect the Aircraft Data Card, the Interagency Airplane or Helicopter Pilot Qualification Card, and the contract. If any one of these three are not available for inspection, the mission must be cancelled or at least postponed until the authorizations of the aircraft, pilot, or contract can be determined.

Pilots have very specific and closely monitored duty time and flight time limitations that users must understand and adhere to:

- 14-hour duty day
- 8 hours flight time per day
- 2 days off in 14 calendar days
- 36 hours cumulative flight hours in any 6 consecutive days
