

National Interagency Coordination Center
Incident Management Situation Report
Saturday, July 16, 2016 – 0530 MT
National Preparedness Level 2

National Fire Activity

Initial attack activity:	Light (192 new fires)
New large incidents:	10
Large fires contained:	1
Uncontained large fires:**	12
Area Command Teams Committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	0
Type 2 IMTs committed:	3

**Uncontained large fires include only fires being managed under a full suppression strategy.
[Link](#) to Geographic Area daily reports.

Rocky Mountain (PL 3)

New fires:	9
New large incidents:	0
Uncontained large fires:	2
Type 2 IMTs Committed:	1

Hayden Pass, Pike & San Isabel NF. IMT 2 (Esperance). Twenty miles southeast of Salida, CO. Timber, heavy logging slash and chaparral. Active fire behavior with short crown runs, isolated torching and backing. Numerous structures threatened. Evacuations, road, area and trail closures in effect.

Beaver Creek, Routt NF. Previously reported incident. Twenty-four miles northwest of Walden, CO. Timber and brush. Active fire behavior with short crown runs, single tree torching and short-range spotting. Numerous structures threatened. Evacuations, road, area and trail closures in effect. Last report unless significant activity occurs.

Blair, White River Field Office, BLM. Thirty miles west of Meeker, CO. Brush and short grass. Extreme fire behavior with wind-driven runs, crowning and flanking.

Hairy, Fort Carson Army Base. Twenty-one miles southwest of Colorado Springs, CO. Hardwood slash, brush and tall grass. Minimal fire behavior. Area closures in effect.

Southwest Area (PL 3)

New fires:	14
New large incidents:	1
Uncontained large fires:	2
Type 2 IMTs committed:	1

Fuller, Grand Canyon NP. IMT 2 (Sinclair). Four miles northeast of North Rim, AZ. Timber and medium logging slash. Extreme fire behavior with wind-driven runs and long-range spotting. Road, area and trail closures in effect.

Baca, Northwest District, Arizona State Forestry. Fifty-two miles northwest of Prescott, AZ. Brush and short grass. Moderate fire behavior with running, flanking and backing. Last report unless significant activity occurs.

Pair O' Dice, Fort Apache Agency, BIA. Twenty-five miles southwest of Alpine, AZ. Timber and grass. No new information. Last report unless new information is received.

School, Gila NF. Two miles northwest of Snow Lake, NM. Timber and tall grass. Minimal fire behavior. Last report unless significant activity occurs.

Black Range Complex, Gila NF. Previously reported incident. Forty-five miles north of Silver City, NM. Timber. Moderate fire behavior with isolated torching, backing and creeping. Last report unless significant activity occurs.

* **Brannon**, Gila NF. Twenty-six miles northeast of Silver City, NM. Timber, brush and grass. Minimal fire behavior. Last report unless significant activity occurs.

Clavel, Las Vegas District, New Mexico State Forestry. Twenty miles northeast of Roy, NM. Brush and grass. Minimal fire behavior. Reduction in acreage due to more accurate mapping.

Alaska Area (PL 2)

New fires:	41
New large incidents:	8
Uncontained large fires:	1
Type 2 IMTs committed:	1

Tok River, Tok Area Forestry, DOF. IMT 2 (Kurth). Seven miles south of Tok, AK. Timber, light logging slash and grass. Moderate fire behavior with isolated torching and creeping. Structures threatened. Precipitation occurred over the fire area yesterday.

Alatna Complex (2 fires), Tanana Zone, BLM. Previously reported incident. Fifteen miles southeast of Alatna, AK. Timber, brush and short grass. Active fire behavior with crowning, wind-driven runs and spotting. Structures threatened. Last report unless significant activity occurs.

Iniakuk Lake, Tanana Zone, BLM. Started on state land 40 miles northwest of Bettles, AK. Timber and grass. Active fire behavior with short crown runs, spotting and backing. Structures threatened. Last report unless significant activity occurs.

* **Yokneda Lake**, Valdez-Copper River Area Forestry, DOF. Forty miles northeast of Glennallen, AK. Timber and grass. Active fire behavior with running, flanking and backing. Last report unless significant activity occurs.

* **Mid Salcha**, Fairbanks Area Forestry, DOF. Thirty-one miles southeast of North Pole, AK. Timber, brush and grass. Moderate fire behavior with wind-driven runs, short-range spotting and backing. Residences threatened. Last report unless significant activity occurs.

* **Timber Creek**, Southwest Area Forestry, DOF. Twenty-seven miles south of Chuathbaluk, AK. Timber and grass. Moderate fire behavior with torching and creeping. Last report unless significant activity occurs.

* **Owhat River 2**, Southwest Area Forestry, DOF. Seven miles northwest of Aniak, AK. Timber and grass. Active fire behavior with backing. Last report unless significant activity occurs.

* **Reindeer River**, Southwest Area Forestry, DOF. Thirty miles southeast of Flat, AK. Timber and grass. Active fire behavior with torching, running and backing. Last report unless significant activity occurs.

* **Israthorak Creek**, Southwest Area Forestry, DOF. Started on FWS land 17 miles northwest of Tuluksak, AK. Timber and grass. Active fire behavior with backing. Last report unless significant activity occurs.

* **Gweek River**, Southwest Area Forestry, DOF. Started on BLM land 17 miles northeast of Akiachak, AK. Timber and grass. Active fire behavior with torching, running and creeping. Last report unless significant activity occurs.

* **George River**, Southwest Area Forestry, DOF. Started on BLM land 18 miles northeast of Georgetown, AK. Timber. Active fire behavior with running, creeping and backing. Last report unless significant activity occurs.

Predictive Services Discussion: Westerly flow will settle over the northern U.S. with weak troughs holding over the Great Lakes and the Northwest. A flat ridge will remain over the South. Isolated thunderstorms will develop along the Arizona and New Mexico borders with Mexico. Scattered showers and a few thunderstorms will form over the far northern Rockies and the northern Plains. Thunderstorms will move across the Plains and the Southeast. Lingering light showers will remain over the Northeast. Temperatures will remain mild across the Northwest, northern Rockies and across to the Great Lakes. Hot conditions will persist in the Southwest and southern Plains. The Gulf and Atlantic coasts will continue to be very warm. In Alaska, cooler conditions will spread across the state. Scattered showers and a few thunderstorms will develop over the South.

ENTRAPMENT AVOIDANCE

Operational Engagement Category

Avoiding situations where firefighters become entrapped is the first concern when devising strategy and tactics. The following discussion points are among the things that should be considered.

- Discuss the three types of safety zones and describe examples.
 - The burn
 - Natural features
 - Constructed sites
- Discuss the guidelines for distance separation to avoid radiant heat injury.
 - Four times the maximum flame height (20 feet-flame height x 4 = 80 feet radius from firefighters)
 - Discuss size based on amount of resources and equipment in the area.
- Discuss heat impact factors that will affect the guidelines for distance separation.
 - Convection heat from wind and terrain features
 - Location relative to fire spread
 - Reburn potential of fuel in safety zone
- Discuss that firefighter's have a right to know the location of their escape routes and safety zones at all times.
- Discuss that firefighter have a right to ask for clarification when faced with unclear instructions or fear of the unknown.
- Describe a basic procedure for identification of effective escape routes and safety zones.
 - Observe
 - Visualize
 - Identify
 - Time
 - Inform
 - Evaluate

Have an idea? Have feedback? Share it.
