

National Interagency Coordination Center
Incident Management Situation Report
Wednesday, July 27, 2016 0530 MT
National Preparedness Level 3

National Fire Activity

Initial attack activity:	Light (188 new fires)
New large incidents:	5
Large fires contained:	0
Uncontained large fires:**	15
Area Command Teams Committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	3
Type 2 IMTs committed:	4

**Uncontained large fires include only fires being managed under a full suppression strategy.

Southern California Area (PL 3)

New fires:	27
New large incidents:	0
Uncontained large fires:	2
Type 1 IMTs committed:	1
Type 2 IMTs committed:	1

Soberanes, San Benito-Monterey Unit, Cal Fire. Cal Fire IMT 1 (Derum). Seven miles northwest of Big Sur, CA. Timber, chaparral and tall grass. Active fire behavior with torching and short-range spotting. Numerous residences and energy infrastructure threatened. Evacuations, road, area and trail closures in effect.

Sand, Angeles NF. IMT 2 (Wakoski). One mile south of Santa Clarita, CA. Brush, chaparral and tall grass. Active fire behavior with wind-driven runs and short-range spotting. Numerous structures and energy infrastructure threatened. Evacuations, road, area and trail closures in effect.

Great Basin Area (PL 4)

New fires:	20
New large incidents:	3
Uncontained large fires:	6
Type 1 IMTs committed:	1
Type 2 IMTs committed:	2

Pioneer, Boise NF. IMT 1 (Lund) and IMT 2 (Rosenthal). Five miles north of Idaho City, ID. Timber and grass. Active fire behavior with running and group torching. Structures threatened. Road, area and trail closures in effect.

Cliff Creek, Bridger-Teton NF. IMT 2 (DeMasters). Fifteen miles east of Hoback, WY. Timber. Active fire behavior with short crown runs, group torching and short-range spotting. Structures threatened. Road, area and trail closures in effect.

Lower Ebbs, Fishlake NF. Four miles south of Scipio, UT. Timber, chaparral and tall grass. Moderate fire behavior with isolated torching, flanking and creeping. Area and trail closures in effect.

Choke Cherry, Salt Lake Field Office, BLM. Ten miles northwest of Callao, UT. Timber, brush and grass. Minimal fire behavior. Sage-grouse habitat threatened.

* **Comet**, Salmon-Challis NF. Thirteen miles north of Salmon, ID. Timber and short grass. Active fire behavior with short crown runs, group torching and short-range spotting. Structures threatened. Trail closure in effect.

* **Carico**, Battle Mountain District, BLM. Thirty miles south of Battle Mountain, NV. Brush. Active fire behavior with running. Structures and sage-grouse habitat threatened.

* **MM52 Hwy 55**, Boise District, BLM. Started on county land six miles north of Eagle, ID. Brush and short grass. Active fire behavior with running, flanking and backing. Numerous structures threatened.

Rocky Mountain (PL 3)

New fires: 9
 New large incidents: 0
 Uncontained large fires: 3
 Type 1 IMTs Committed: 1

Lava Mountain, Shoshone NF. Transfer of command from IMT 2 (Connell) to IMT 1 (Martin) occurred yesterday. Twenty miles northwest of Dubois, WY. Timber and heavy logging slash. Active fire behavior with short crown runs, group torching and short-range spotting. Numerous structures threatened. Evacuations, road and trail closures in effect.

Cedar Draw 2, Buffalo Field Office, BLM. Twenty miles north of Gillette, WY. Timber and brush. Minimal fire behavior. Structures and sage-grouse habitat threatened.

Hatchery, Washakie County. Transfer of command from IMT 2 (Greer) back to the local unit occurred yesterday. Seven miles northeast of Ten Sleep, WY. Timber and brush. Minimal fire behavior. Structures threatened. Area and trail closures in effect.

Bench, Dinosaur National Monument, NPS. Twenty-seven miles north of Rangely, CO. Brush and tall grass. Minimal fire behavior. Road closure in effect. Reduction in acreage due to more accurate mapping.

Predictive Services Discussion: Scattered showers and thunderstorms will develop in the Southwest, from Arizona to Texas. A weak wave moving along the Canadian border and a cold front dropping into the northern Plains will produce widely scattered thunderstorms across the northern Rockies and the Plains states. Scattered thunderstorms will also develop along an old frontal boundary across the southern Appalachians to the Mid-Atlantic coast. Afternoon thunderstorms will form along the Gulf coast. Hot weather will continue across most of the country with cooler conditions moving into the northern Plains and the Upper Midwest. In Alaska, scattered showers and a few thunderstorms will spread across the South and into the Interior. Temperatures will cool slightly but will remain warm.

Escape Routes 2 (LCES)

Operational Engagement Category

Escape Routes are the path the firefighter takes from their current locations, exposed to the danger, to an area free from danger. Notice that escape routes is used instead of escape route(s). Unlike the other components, there always must be more than one escape route available to the firefighter.

Escape routes are probably the most elusive component of LCES. Their effectiveness changes continuously. As the firefighter works along the fire perimeter, fatigue and spatial separation increases the time required to reach the safety zone.

The most common escape route (or part of an escape route) is the fireline. On indirect or parallel fireline, situations become compounded. Unless safety zones have been identified ahead, as well as behind, firefighters retreat may not be possible.

- Have you ever timed an escape route? If not how do you judge its effectiveness?
- Describe a time when you were uncomfortably distant from your escape route.
- Describe a method you have used to communicate an escape route to your crews.
