

**National Interagency Coordination Center
Incident Management Situation Report
Monday, June 6, 2016 – 0530 MT
National Preparedness Level 1**

National Fire Activity

Initial attack activity:	Light (91 new fires)
New large incidents:	5
Large fires contained:	0
Uncontained large fires:**	9
Area Command Teams Committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	1
Type 2 IMTs committed:	2

**Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

Ten wildland fire suppression crews are assigned to support large fires in Alberta, Canada.

Southern California Area (PL 2)

New fires:	42
New large incidents:	2
Uncontained large fires:	5
Type 1 IMTs committed:	1
Type 2 IMTs committed:	1

Coleman, Los Padres NF. IMT 1 (McGowan). Started on DOD land 11 miles southwest of King City, CA. Chaparral and tall grass. Moderate fire behavior with creeping, smoldering and short runs. Numerous residences threatened. Road, area and trail closures in effect.

* **Old**, Los Angeles County Fire Department. One mile east of Calabasas, CA. Brush and short grass. Moderate fire behavior with flanking and backing.

* **Soda**, Central California District, BLM. Eight miles north of Cuyama, CA. Brush and tall grass. Minimal fire behavior.

Stony, Fort Hunter Ligget, DOD. Eight miles northwest of Jolon, CA. Chaparral and short grass. Moderate fire behavior. Last report unless significant information is received.

Chimney, Central California District, BLM. Transfer of command from IMT 2 (Mills) back to the local unit will occur today. Ten miles west of Pearsonville, CA. Hardwood slash, brush and grass. Minimal fire behavior. Road and area closures in effect. Reduction in acreage due to more accurate mapping.

Predictive Services Discussion: A slow pattern keeps a trough in the East and a ridge in the West. An upper low forms under the ridge in the West over the Great Basin. Scattered showers and thunderstorms continue over the Great Lakes and New England. Storms decrease in the South, remaining active in the far Southeast and along the immediate Gulf Coast. Widely scattered afternoon thunderstorms will form over central Rockies and across parts of the Great Basin and Northwest. Temperatures remain mild across the northern Plains to New England with some warming in the South. Temperatures cool slightly in the West but overall conditions remain very warm to hot. In Alaska, an upper low will keep scattered showers and a few thunderstorms over the state. Temperatures will remain mild to warm statewide.

MY SAFETY

Leadership Category

An important aspect of safety is individual responsibility for one's own health & safety. Even with the best supervision, each individual firefighter will occasionally be required to make personal decisions concerning their safety. It is important that individual responsibility be taught as the basis for a viable safety program. Some of those individual responsibilities are:

- Fitness for duty. Begin each work shift both mentally and physically prepared for the rigors of wildland firefighting. Getting adequate sleep, maintaining a healthy diet, and proactively participating in physical training are the foundation of "My Safety".
- Utilization of personal protective equipment. Wear your PPE without being told. Each individual is responsible for performing their own risk assessments. If a hazard is identified that can be mitigated by wearing a particular PPE component it should be utilized. Fireline supervisors have more important duties to focus on other than performing glove patrol.
- Following safe work practices. Using a spotter when backing up vehicles is the prudent and professional course of action. If you are unsure of how to perform a job task safely, ask your supervisor or experienced coworker.
- Using the correct reference materials is an important aspect of safety. You should have a working knowledge of the Red Book, IRPG, and your local operating guidelines.
- Ensure instructions are clearly understood. Communication is a basic responsibility for all fire personnel. Ask appropriate questions to clarify uncertain issues. Speak up when you observe hazards that may place yourself or others at risk.
- Maintain situational awareness at all times. Awareness is a vital component of "My Safety". Pay attention to what is happening around your area of operations. Always display an awareness of what is happening around you by asking questions or making comments.

Summary: Do not expect someone else to be responsible for your safety. Take it upon yourself to make "My Safety" your number one priority.

Discussions points:

1. *Talk about ways you can improve on your safety.*
2. *Have your supervisor talk about their expectations for individual safety.*

Have an idea? Have feedback? Share it.
