

**National Interagency Coordination Center**  
**Incident Management Situation Report**  
**Sunday, June 12, 2016 – 0530 MT**  
**National Preparedness Level 2**

**National Fire Activity**

Initial attack activity:	Light (80 new fires)
New large incidents:	2
Large fires contained:	0
Uncontained large fires:**	9
Area Command Teams Committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	1
Type 2 IMTs committed:	3

\*\*Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

**Southwest Area (PL 3)**

New fires:	7
New large incidents:	0
Uncontained large fires:	2
Type 2 IMTs committed:	2

**Tenderfoot**, Phoenix District, BLM. IMT 2 (Sinclair). One mile south of Yarnell, AZ. Brush and tall grass. No new information.

**Juniper**, Tonto NF. IMT 2 (Bales). Ten miles south of Young, AZ. Timber and chaparral. Minimal fire behavior with backing and smoldering. Numerous structures threatened. Area closures in effect. Precipitation occurred over the fire area yesterday.

**Escondida**, Socorro District, New Mexico State Forestry. Four miles north of Socorro, NM. Chaparral, brush and tall grass. Moderate fire behavior with flanking, backing, and creeping. Road closures in effect. Reduction in acreage due to more accurate mapping.

**North**, Cibola NF. Twenty-five miles southwest of Magdalena, NM. Timber. Moderate fire behavior with flanking, backing and creeping. Structures threatened. Road, trail and area closures in effect. Precipitation occurred over the fire area yesterday. Last report unless significant activity occurs.

Incident Name	Unit	Size		%	Ctn/ Comp	Est	Personnel		Resources			Strc Lost	\$\$ CTD	Origin Own

**Predictive Services Discussion:** A weakening trough will linger over the West while a strong ridge remains anchored over the central and eastern U.S. Scattered showers and thunderstorms will develop over the Great Basin and the Rockies. The Gulf states will also see afternoon thunderstorms. A front moving through the northern Plains will produce some shower and thunderstorm activity across the Dakotas and into the Upper Midwest. Temperatures will begin to warm slowly over the West but remain below normal for the season. Hot weather will remain over the Plains and much of the Southeast while cooler conditions spread across the Great Lakes and New England. In Alaska, an upper low in the Gulf of Alaska will keep southeasterly flow across the southern half of the state. Scattered showers and thunderstorms will continue in the south and spread northward through the Interior. Temperatures will warm slightly throughout the state.

<http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

## TAKING A NAP NEAR THE FIRELINE

*Operational Engagement Category*

Firefighting is often exhausting work and firefighters can find themselves needing to sleep while on the fireline. Before pausing to rest, firefighters must weigh the following considerations:

- Are lookouts posted? Discuss who that lookout can be. Can the lookout on the knob across the draw watch over you or does it need to be your partner on the fireline alternating rest times?
- Is the area free of hazards? (Falling snags or rolling materials) Discuss what you need to do to create a safe resting area.
- Are you still within agency work and rest guidelines? Review what these guidelines are.
- Does your crew need a break? Have they been pushed too hard? Talk about situations where you need to simply take yourself and/or your crew off the fire for uninterrupted rest.
- To reduce risks:
  - Keep lookouts posted; rotate lookouts.
  - Communicate crew conditions and status to supervisor or chain-of-command contact. Have firefighters discuss ways that they find to rest on the fireline and suggestions for methods to alternate shifts for more effective firefighting.

**Have an idea? Have feedback? Share it.**
