

National Interagency Coordination Center
Incident Management Situation Report
Friday, November 18, 2016 – 0800 MT
National Preparedness Level 1

National Fire Activity

Initial attack activity:	Light (151 new fires)
New large incidents:	14
Large fires contained:	6
Uncontained large fires:**	35
Area Command Teams Committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	2
Type 2 IMTs committed:	4

**Uncontained large fires include only fires being managed under a full suppression strategy.
[Link](#) to Geographic Area daily reports.

Southern Area (PL 5)

New fires:	121
New large incidents:	11
Uncontained large fires:	33
Type 1 IMTs committed:	2
Type 2 IMTs committed:	4

Party Rock, North Carolina Forest Service. IMT 2 (Brandon). One mile north of Lake Lure, NC. Hardwood litter. Active fire behavior with running, backing and single tree torching. Numerous structures threatened. Road, area and trail closures in effect.

Chestnut Knob, North Carolina Forest Service. IMT 2 (Kern). Three miles south of Enola, NC. Hardwood litter. Active fire behavior with uphill runs, flanking and spotting. Numerous structures threatened. Road, area and trail closures in effect.

Rock Mountain, Chattahoochee-Oconee NF. IMT 1 (Livingston). Two miles south of Tate City, GA. Hardwood litter and timber. Active fire behavior with running, flanking and backing. Numerous structures threatened. Road, area and trail closures in effect.

Pinnacle Mountain, South Carolina Forestry Commission. Three miles southeast of Rocky Bottom, SC. Hardwood Litter and Timber. Active fire behavior with uphill runs, flanking and backing. Numerous structures threatened. Evacuations, area and trail closures in effect.

Tellico, National Forests in North Carolina. IMT 1 (Dueitt). IMT is also managing the Boteler, Dick's Creek, Muskrat, and Cathy Gap fires. Three miles south of Almond, NC. Hardwood litter, timber and short grass. Minimal fire behavior with creeping and smoldering. Numerous structures threatened. Road and trail closures in effect.

Boteler, National Forests in North Carolina. Nine miles east of Hayesville, NC. Timber and brush. Minimal fire behavior with smoldering. Numerous structures threatened. Road, area and trail closures in effect.

Dick's Creek, National Forests in North Carolina. Two miles northwest of Sylva, NC. Hardwood litter, short grass and timber. Minimal fire behavior with smoldering. Structures threatened.

Muskrat, North Carolina Forest Service. Eight miles southwest of Franklin, NC. Hardwood litter and timber. Minimal fire behavior with smoldering. Structures threatened.

* **Cathy Gap**, National Forests in North Carolina. Four miles northwest of Balsam Grove, NC. Hardwood litter and timber. Extreme fire behavior with uphill runs, flanking and backing. Structures threatened.

Maple Springs, National Forests in North Carolina. IMT 2 (Esperance). Three miles northwest of Santeetlah Lake, NC. Hardwood litter, timber and brush. Moderate fire behavior with backing, creeping and smoldering. Structures threatened. Road, area and trail closures in effect.

Tatum Gulf, Georgia Forestry Commission. Eleven miles west of LaFayette, GA. Hardwood litter. Moderate fire behavior with flanking and backing. Numerous structures threatened. Road and area closures in effect.

Eastern Cherokee Complex, Eastern Cherokee Agency (2 fires). Four miles east of Cherokee, NC. Hardwood litter. Minimal fire behavior with smoldering. Structures threatened.

Rough Ridge, Chattahoochee-Oconee NF. IMT 2 (Fogle). Thirteen miles northwest of Blue Ridge, GA. Hardwood litter, timber and brush. Minimal fire behavior with backing, creeping and smoldering. Structures threatened. Area and trail closures in effect.

Raven Rock, George Washington & Jefferson NF. Started on private land one mile east of Jenkins, KY. Hardwood litter and timber. Minimal fire behavior with smoldering. Trail closures in effect.

Abner Br, Kentucky DOF. Two miles southwest of Big Laurel, KY. Timber and Hardwood Litter. Active fire behavior.

Timber Ridge, Chattahoochee-Oconee NF. Three miles southeast of Tiger, GA. Hardwood litter and timber. Minimal fire behavior with creeping and smoldering. Last report unless significant activity occurs.

Half Way, National Forests in Alabama. Six miles east of Sylacauga, AL. Closed timber litter. No new information. Last report unless new information is received.

Mowbray, Tennessee DOF. Started on private land three miles northwest of Soddy Daisy, TN. Dormant brush, hardwood slash and timber. No new information. Last report unless significant activity occurs.

Hwy 190, Kentucky DOF. Two miles southwest of Pineville, KY. Hardwood litter and timber. Active fire behavior.

Poe Road, Tennessee DOF. Four miles west of Soddy Daisy, TN. Timber and Hardwood Litter. Moderate fire behavior.

Walters Rd, Kentucky DOF. Two miles northeast of Pikeville, KY. Hardwood litter and timber. Active fire behavior.

* **Middlefield Fork Rd**, Kentucky DOF. Three miles west of Lick Creek, KY. Hardwood litter and timber. Active fire behavior.

Stiles, Tennessee DOF. Started on private land six miles southeast of Madisonville, TN. Hardwood litter. No new information. Last report unless new information is received.

* **Quarry Creek**, Cherokee NF. Two miles east of Tellico Plains, TN. Hardwood litter, brush and short grass. Active fire behavior with spotting, uphill runs and flanking. Structures threatened.

* **Hurricane Creek**, Kentucky DOF. Three miles southwest of Stopover, KY. Hardwood litter and timber. Active fire behavior.

* **Big Branch**, Kentucky DOF. Three miles south of Rocksana, KY. Hardwood litter and timber. Active fire behavior.

Harless Creek, Kentucky DOF. One mile east of Regina, KY. Hardwood litter and timber. Active fire behavior. Last report unless significant activity occurs.

Grassy Knob, Kentucky DOF. Five miles northeast of Middlesboro, KY. Hardwood litter and timber. Active fire behavior. Last report unless significant activity occurs.

* **Pathfork**, Kentucky DOF. Three miles south of Pathfork, KY. Hardwood litter and timber. Active fire behavior.

Slope Hollow 2, Kentucky DOF. Three miles south of Cumberland, KY. Hardwood litter and timber. Active fire behavior. Last report unless significant activity occurs.

Couch, Daniel Boone NF. Two miles northwest of Thousandsticks, KY. Hardwood litter. No new information. Last report unless significant activity occurs.

Hollins Fork, Kentucky DOF. Three miles north of Thousandsticks, KY. Hardwood litter and timber. Active fire behavior.

Scuddy 3, Kentucky DOF. One mile south of Scuddy, KY. Hardwood litter and timber. Active fire behavior.

* **Irwin Mill**, Georgia Forestry Commission. Two miles east of Fairmount, GA. Hardwood litter. Active fire behavior with running, flanking and isolated torching. Structures threatened.

*** Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments. ***

Additional wildfire information is available through the Geographic Areas at <http://gacc.nifc.gov/>

Predictive Services Discussion: An upper trough will cross the Plains and Midwest while upper high pressure ridges remain along the East Coast and the Interior West. A cold front will continue moving east through the Mississippi Valley and the Great Lakes region, bringing scattered thunderstorms and rain ahead and snow behind. Windy conditions will develop across the Midwest behind the front. A storm system will approach the West Coast with rain beginning along the Cascades. Cold conditions will remain over most of the West and spread into the Plains and Upper Midwest. Warm to very warm weather will remain over the South to the Ohio Valley and Mid-Atlantic region.

HAZARD TREE FELLING – HANG-UPS

Felling Safety Category

For decades, hazard trees have been associated with numerous deaths of workers assigned fire operations and project work. Incidents involving hazard trees are included in the top 5 life threats to wildland firefighters along with wildfire entrapment and motor vehicle accidents. In private industry, logging is recognized as the most dangerous occupation in the nation, and many associated fatalities involve felling hazard trees. Felling a hung-up hazard tree is a particularly hazardous and complex task.

Sawyers are to be reminded on how vital it is to constantly apply and maintain situational awareness and assess risks, particularly when faced with problem of a **hang-up** hazard tree.

In most cases, safely felling a hang-up requires extreme caution and expertise due to characteristic danger and complexity. The following are some topics experienced sawyers should review during 6 minutes for safety/tailgate safety discussions and cover in training modules specifically designed to address felling hang-up hazard trees:

- Cut/No Cut (walk-a-way) criteria
- Risk Assessment
- Situational Awareness Checklist
- Secure Felling Area
- No Work Zones (NWZ)
- Blasting option
- Equipment/cable option
- Role/responsibility of swamper/lookout
- Escape routes
- Pushing/driver tree opportunity
- Felling trees tied together
- Sidewinder potential
- Hazards of obscured view of top
- Need to keep looking up
- Weak/spiked tops, limb location/condition/density, and hidden defect/rot
- Prescribed step down (fence post/wafer) cutting techniques
- Rope Technique
