

**National Interagency Coordination Center  
Incident Management Situation Report  
Sunday, August 6, 2017 – 0530 MT  
National Preparedness Level 4**

**National Fire Activity**

Initial attack activity:	Light (94) new fires
New large incidents:	3
Large fires contained:	0
Uncontained large fires:**	31
Area Command Teams Committed:	1
NIMOs committed:	2
Type 1 IMTs committed:	5
Type 2 IMTs committed:	17

\*\*Uncontained large fires include only fires being managed under a full suppression strategy.  
[Link](#) to Geographic Area daily reports.

One MAFFS C-130 airtanker and support personnel each from the 152 Airlift Wing, (Nevada Air National Guard), 153<sup>rd</sup> Airlift Wing, (Wyoming Air National Guard) and the 302<sup>nd</sup> Airlift Wing (Colorado Springs, Air Force Reserve) have been deployed to Fresno, CA in support of wildland fire operations.

**Northern Rockies Area (PL 4)**

New fires:	13
New large incidents:	0
Uncontained large fires:	5
Area Command teams committed:	1
Type 1 IMTs committed:	3
Type 2 IMTs committed:	6

Area Command Team (Stutler) is managing large fires on the Lolo National Forest and Flathead Reservation.

**Rice Ridge**, Lolo NF. IMT 2 (Goldman). Six miles north of Seeley Lake, MT. Timber. Minimal fire behavior with creeping and flanking. Structures threatened. Trail and area closures in effect.

**Sunrise**, Lolo NF. Transfer of command from IMT 2 (Pearson) to IMT 1 (Turman) will occur today. IMT is also managing the Burdette fire. Eleven miles east of Superior, MT. Timber and brush. Active fire behavior with wind-driven runs, long-range spotting and single-tree torching. Structures threatened. Evacuations, road, trail and area closures in effect.

**Burdette**, Lolo NF. Thirteen miles southeast of Tarkio, MT. Timber. Moderate fire behavior with isolated torching, smoldering and creeping.

**Sapphire Complex** (3 fires), Lolo NF. IMT 2 (Thompson). Fifteen miles southeast of Clinton, MT. Timber. Moderate fire behavior with backing, flanking and isolated torching. Structures threatened. Road, trail and area closures in effect.

**Lolo Peak**, Lolo NF. IMT 1 (Livingston). Ten miles southwest of Lolo, MT. Timber. Moderate fire behavior with backing, flanking and single-tree torching. Road, trail and area closures in effect.

**Meyers**, Beaverhead - Deerlodge NF. IMT 2 (Almas). Twenty-five miles southwest of Philipsburg, MT. Timber. Active fire behavior with torching, spotting and creeping. Structures threatened. Evacuations, road and area closures in effect.

**Hanover**, Nez Perce - Clearwater NF. IMT 2 (Leach) Four miles northeast of Florence, ID. Timber, brush and grass. Moderate fire behavior with uphill runs and long-range spotting. Structures threatened. Road, trail and area closures in effect.

**Liberty**, Flathead Agency, BIA. IMT 1 (McGowan). Seventeen miles southeast of Arlee, MT. Timber. Minimal fire behavior. Road, trail and area closures in effect.

**Park Creek**, Helena - Lewis and Clark NF. IMT 2 (Zombro). IMT is also managing the Arrastra Creek fire. Two miles north of Lincoln, MT. Timber. Minimal fire behavior. Structures threatened. Area closures in effect.

**Arrastra Creek**, Helena - Lewis and Clark NF. Six miles northwest of Lincoln, MT. Timber. Minimal fire behavior. Structures threatened. Area closures in effect.

**Lodgepole Complex**, Miles City Field Office, BLM. Fifty-two miles northwest of Jordan, MT. Timber, brush and short grass. Minimal fire behavior. Sage-grouse habitat threatened.

**Predictive Services Discussion:** The upper level low pressure area located along the northern California and Oregon coastlines will continue to pull significant monsoonal moisture north into northern California, the Pacific Northwest, northern Great Basin, and the Northern Rockies. Significant lightning activity is expected. The scattered storms will be a mixture of dry and wet, with most being on the dry side, except across Utah and western Oregon where they could be wet. A dry period will begin to emerge over southern California and Arizona as the monsoonal moisture is displaced northward. Temperatures across the West will be near normal. Further east, the cooler than average northwesterly flow will continue across the Great Plains. A stalled cold front will linger over the Deep South and the southern Great Plains. This should lead to a continuance of wet conditions from Texas east through Georgia.

## TAKING A NAP NEAR THE FIRELINE

*Operational Engagement Category*

Firefighting is often exhausting work and firefighters can find themselves needing to sleep while on the fireline. Before pausing to rest, firefighters must weigh the following considerations:

- Are lookouts posted? Discuss who that lookout can be. Can the lookout on the knob across the draw watch over you or does it need to be your partner on the fireline alternating rest times?
- Is the area free of hazards? (Falling snags or rolling materials) Discuss what you need to do to create a safe resting area.
- Are you still within agency work and rest guidelines? Review what these guidelines are.
- Does your crew need a break? Have they been pushed too hard? Talk about situations where you need to simply take yourself and/or your crew off the fire for uninterrupted rest.
- To reduce risks:
  - Keep lookouts posted; rotate lookouts.
  - Communicate crew conditions and status to supervisor or chain-of-command contact. Have firefighters discuss ways that they find to rest on the fireline and suggestions for methods to alternate shifts for more effective firefighting.

**Have an idea? Have feedback? Share it.**
