

**National Interagency Coordination Center
Incident Management Situation Report
Sunday, June 18th, 2017 – 0530 MT
National Preparedness Level 2**

National Fire Activity

Initial attack activity:	Light (78) new fires
New large incidents:	5
Large fires contained:	1
Uncontained large fires:**	12
Area Command Teams Committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	2
Type 2 IMTs committed:	4

**Uncontained large fires include only fires being managed under a full suppression strategy.

Southwest Area (PL 5)

New fires:	4
New large incidents:	0
Uncontained large fires:	7
Type 1 IMTs committed:	2
Type 2 IMTs committed:	3

Cajete, Santa Fe, NF. IMT 1 (von Tillow). Eight miles northeast of Jemez Springs, NM. Timber and medium logging slash. Active fire behavior with flanking, torching and spotting. Numerous residences threatened. Road, area and trail closures in effect.

Highline, Tonto, NF. IMT 1 (Day). Eight miles north of Payson, AZ. Timber, brush and tall grass. Active fire behavior with flanking, short range spotting and creeping. Numerous residences threatened. Evacuations, road, area and trail closures in effect.

Frye, Coronado, NF. IMT 2 (Sinclair). Nine miles west of Swift Trail Junction, AZ. Timber and brush. Extreme fire behavior with backing, flanking and short crown runs. Numerous residences threatened. Road, area and trail closures in effect.

Bonita, Carson, NF. IMT 2 (Bales). Sixteen miles northeast of Canjilon, NM. Timber, brush and short grass. Active fire behavior with short range spotting, short crown runs and flanking. Road and area closures in effect.

Freeze 2, San Carlos Agency, BIA. Twenty-seven miles southeast of Whitewater, AZ. Timber and short grass. Minimal fire behavior with smoldering and creeping.

Corral, Gila, NF. Previously reported incident. Twenty-three miles northwest of Mimbres, NM. Tall grass and timber. Moderate fire behavior with creeping and backing. Last report unless significant activity occurs.

Straw, Gila, NF. Previously reported incident. Thirty-five miles northwest of Mimbres, NM. Timber. Minimal fire behavior with backing and creeping. Last report unless significant activity occurs.

Boundary, Coconino, NF. IMT 2 (Andrews). Twelve miles north of Bellemont, AZ. Timber, short grass and heavy logging slash. No new information.

Lizard, Coronado, NF. Transition from IMT 1 (Pierson) back to local unit occurred yesterday. Three miles southeast of Dagoon, AZ. Short grass and brush. No new information.

R-14, Fort Apache Agency, BIA. Three miles south of Cedar Creek, AZ. Timber. No new information.

Flying R, Coronado, NF. Nine miles southeast of Patagonia, AZ. Short grass and brush. No new information.

Windyhill, Tonto, NF. Three miles east of Roosevelt, AZ. Brush. No new information.

Predictive Services Discussion: Low pressure centered just north of the Bering Strait will continue to introduce minimal moisture into the state which will allow for the redevelopment of isolated storms in the afternoon beneath a warm, dry ridge of high pressure that extends west from the Yukon Territory into the interior. Across the Lower 48, high pressure over the Four Corners region will strengthen and will push temperatures further past the century mark. The above normal heat will extend north into Canada. Widely scattered dry and wet storms are possible from central Nevada and Utah south into New Mexico and Arizona. Thunderstorms will be possible along the Atlantic Seaboard as a cold front moves east from the Great Plains.

COMMUNICATIONS (LCES)

Fire Communications Category

Effective communication is a critical backbone of safe and successful operations.

● Discuss the factors that can affect radio communication at the incident.

- Knowledge of the radio issued to the individuals
- Net control, frequencies
- Line-of-sight restrictions
- Antenna polarization effect (direction of the antenna)
- Minimizing noise interference
- Wide band narrow band

● How can you mitigate potential problems?

- Implement effective communication procedures--be brief, use clear text, and to-the-point.
- Give a good comprehensive briefing. (Refer to the Briefing Checklist inside the back cover of the Incident Response Pocket Guide.)
- Confirm that relayed information is received, and understood.
- Keep a continuous information flow (e.g., updates on weather, fire behavior, work progress; changes in strategy/tactics; arrival of additional resources; solicit feedback).
- Establish emergency check-in procedures.
- Provide a minimum of 4 radios per 20-person firefighter crew.

● The Five Communication Responsibilities for All Firefighters:

- Brief others
- Debrief your actions
- Communicate hazards to others
- Acknowledge messages
- Ask if you don't know
