

**National Interagency Coordination Center  
Incident Management Situation Report  
Thursday, October 5, 2017 – 0530 MT  
National Preparedness Level 2**

**National Fire Activity**

Initial attack activity:	Light (66) new fires
New large incidents:	0
Large fires contained:	1
Uncontained large fires:**	5
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	2
Type 2 IMTs committed:	5

\*\*Uncontained large fires include only fires being managed under a full suppression strategy.

**Southern Area (PL 5)**

New fires:	23
New large incidents:	0
Uncontained large fires:	0
Type 1 IMTs Committed:	1
Type 2 IMTs Committed:	5

**Hurricane Maria Puerto Rico**, Federal Emergency Management Agency (FEMA). IMT 1 (McGowan) has been tasked with establishment of an incident support base for the receipt and distribution of commodities, supplies and resources. IMT 2 (Zombro) is coordinating with other agencies to plan and prioritize emergency road clearing. FDNY IMT 2 (Kane) has been tasked with assessment of damage to critical infrastructure including roads, water systems and communications.

**Hurricane Maria U.S Virgin Islands**, Federal Emergency Management Agency (FEMA). IMT 2 (Bird) has mobilized to St. Croix and is managing a logistical staging area for incoming responders.

**Hurricane Harvey**, Texas A&M Forest Service. Texas IMT 2 (Hanneman) has mobilized to College Station, TX to support recovery and mitigation efforts, surveying impacts on local fire departments and distributing donated fire equipment.

**Hurricane Irma Recovery – South Florida Parks**, National Park Service. IMT 2 (Foust) is overseeing site assessment, debris cleanup and emergency stabilization within national parks and monuments in Florida, Georgia, South Carolina and Caribbean units.

Incident Name	Unit	Size		%	Ctn/ Comp	Est	Personnel		Resources			Strc Lost	\$\$ CTD	Origin Own

#### **Northwest Area (PL 2)**

New fires: 6  
 New large incidents: 0  
 Uncontained large fires: 3  
 Type 1 IMTs committed: 1

**Eagle Creek**, Columbia River Gorge National Scenic Area. One mile south of Cascade Locks, OR. Timber. Minimal fire behavior. Road, trail and area closures in effect.

**Chetco Bar**, Rogue River - Siskiyou NF. Transfer of command from IMT 1 (Schulte) back to the local unit will occur today. Sixteen miles west of Selma, OR. Timber and brush. Minimal fire behavior. Road, trail and area closures in effect.

**Jones**, Willamette NF. Ten miles northeast of Lowell, OR. Timber and grass. Minimal fire behavior. Area closures in effect.

**Miller Complex**, (4 fires), Rogue River - Siskiyou NF. Previously reported incident. Seventeen miles east of Cave Junction, OR. Timber. Minimal fire behavior. Road, trail and area closures in effect. Last report unless significant activity occurs.

\*\*\* **Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.**

\*\*\*Additional wildfire information is available through the Geographic Areas at <http://gacc.nifc.gov/>

**Predictive Services Discussion:** The low pressure area over the northern Great Basin and the Pacific Northwest will continue to slowly weaken and move east through the day. This will allow for high pressure along the coast to begin to move on shore. The northerly wind flow along the coast will continue but will become more westerly across southern California. Breezy conditions will continue across the Great Lakes region and New England as a cold front moves east across southeastern Canada. Warm and dry conditions are expected across the Southeast and Texas as a high pressure ridge slowly drifts west.

<http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

## POWERLINE SAFETY

*Miscellaneous Fireline Hazards*

Operating near or under power lines poses unique hazards, and the following precautions should be followed to reduce potential equipment damage or injury:

- If possible, the power company should deactivate lines in the fire area.
- Don't operate heavy equipment under power lines.
- Keep all aviation activity away from power lines. Inform air attack and/or other aviation resources of the location of the power lines.
- Don't drive with long antennas under power lines.
- Don't stand near power lines during retardant drops.
- Don't park under power lines. The magnetic field around energized power lines can induce an electrical charge in ungrounded vehicles or equipment. This charge can shock anyone who touches the vehicle.
- Don't apply straight stream to power lines.
- All personnel should be cautioned that smoke may become charged and conduct the electrical current. Deactivated transmission and distribution lines may continue to pose a hazard due to induction.
- If power lines fall on your vehicle, DON'T leave the vehicle until the power company arrives. If the vehicle is on fire or fire is near, jump clear, don't hang on, keep feet together, and bunny hop away.
