

**National Interagency Coordination Center  
Incident Management Situation Report  
Saturday, October 14, 2017 – 0530 MT  
National Preparedness Level 3**

**National Fire Activity**

Initial attack activity:	Light (38) new fires
New large incidents:	0
Large fires contained:	0
Uncontained large fires:**	13
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	4
Type 2 IMTs committed:	1

\*\*Uncontained large fires include only fires being managed under a full suppression strategy.

<b>Total</b>	<b>28</b>	<b>605,997</b>	<b>251</b>	<b>933</b>	<b>60</b>	<b>11,254</b>

**Northern California Area (PL 4)**

New fires:	12
New large incidents:	0
Uncontained large fires:	10
Type 1 IMTs Committed:	4

**Central LNU Complex**, Sonoma Lake Napa Unit, Cal Fire. Cal Fire IMT 1 (Gouvea). One mile north of Santa Rosa, CA. Brush and tall grass. Moderate fire behavior with short-range spotting and flanking. Numerous structures threatened. Evacuations, road and area closures are in effect.

**Southern LNU Complex**, (3 fires). Sonoma Lake Napa Unit, Cal Fire. Cal Fire IMT 1 (Lawson). One mile east of Napa, CA. Timber, brush and short grass. Active fire behavior with running and flanking. Numerous residences threatened. Evacuations, road and area closures in effect. Reduction in acreage due to more accurate mapping.

**Mendocino Lake Complex**, (2 fires). Mendocino Unit, Cal Fire. Cal Fire IMT 1 (Derum). One mile west of Potter Valley, CA. Active fire behavior with backing. Numerous residences threatened. Road closures are in effect.

**NEU Wind Complex**, (2 fires). Nevada-Yuba-Placer Unit, Cal Fire. Cal Fire IMT 1 (Patterson). Four miles west of Grass Valley, CA. Timber and brush. Minimal fire behavior. Reduction in acreage due to more accurate mapping.

**Cherokee**, Butte Unit, Cal Fire. Three miles north of Oroville, CA. Brush and tall grass. Minimal fire behavior. Structures threatened. Trail closures in effect.

**Table**, Eldorado NF. Seventeen miles northeast of Pollock Pines, CA. Timber. Moderate fire behavior with backing.

**Buck**, Shasta – Trinity NF. Previously reported incident. Eleven miles southwest of Platina, CA. Timber, brush and short grass. Active fire behavior with wind-driven runs, uphill runs and backing. Structures threatened. Road, trail and area closures in effect. Last report unless significant activity occurs.

\*\*\* **Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.**

\*\*\*Additional wildfire information is available through the Geographic Areas at <http://gacc.nifc.gov/>

**Predictive Services Discussion:** Strong high pressure will move into the West, creating critical wind and humidity conditions across much of coastal and interior California. A strong upper level trough will produce windy conditions in the Great Basin and parts of the Southwest. Snow will move through the Northern Rockies into the northern Plains with rain stretching from the Dakotas to Great Lakes. A cold front across the Mid-Mississippi Valley and central Plains will trigger thunderstorms from Kansas to Illinois. High pressure will produce mild to warm conditions across the East and South with lingering showers over the Northeast and Mid-Atlantic.

<http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

## MEDICAL INCIDENT REPORT

*Fire Communication Category*

The new Medical Incident Report (MIR) form can be found at all of the following: pages 108-09 of the IRPG, Medical Plan ICS-206 WF form and in many Incident Action Plans (IAPs). The MIR evolved from, and has replaced, the "9 Line Form" and "Pink Sticker."

The MIR is not always tasked to the EMT or Paramedic in "Patient Care". The intent of the form is to:

- 1) establish control of the incident whether routine or life-threatening by initiating a new Incident Command System,
  - 2) have a systematic standard process for reporting medical incidents/injuries, similar to a fire size-up form for initial attack, and
  - 3) have any firefighter be able to fill it out and transmit with prior training and direction.
- 
- Treat it like any incident. If the incident is overwhelming, ask for a more qualified IC to assume command and expand/contract the organization's size depending on the needs of the incident.
  - Fill this form out completely prior to transmitting the report to dispatch/communications. If there is a life threat, do not let documentation delay patient care.
  - When transmitting the report, state the number and title of each section and say "break" and pause between the sections (e.g., "*Dispatch, TFLD Jones, Stand by for Priority Medical Incident Report. All other radio traffic please hold **BREAK** (pause/wait for response.) 2. Incident Status: Nature of Illness is chest pain. Incident Name is Tank Medical. IC will be TFLD Jones. Patient Care will be Paramedic Smith. **BREAK.** 3. Initial Patient Assessment is...*").
  - When using the MIR during a Multi-Casualty Incident (MCI) state the number injured and their severity (Section 3), (e.g., "***3. Initial Patient Assessment**, I have 5 patients. 3 Reds, 1 Yellow and 1 Green. Mechanism of Injury is...*").
  - Use the terms Paramedic or EMT with the provider's last name in "Patient Care." Do not use EMT to describe a Paramedic or the ambiguous term, "Medic." All those roles need to be clearly identified to understand the level of care and treatment the patient(s) will receive.
  - Enact more than one transport plan and clear more than one frequency if needed for Sections 5 and 6.
  - Always be ready for the first plan to fail and be flexible enough to move into an alternate plan. Use the acronym PACE (**P**rimary, **A**lternate, **C**ontingency, and **E**mergency) for planning purposes.

### Action Items:

- Consider developing medical emergency tabletop scenarios as part of morning briefings or field scenarios on project work to become familiar with the process. The more comfortable with the MIR you are, the more it will be second nature under stress.
- Ensure dispatchers and radio operators are aware of their roles and responsibilities pertaining to the Medical Incident Report.
- Review your local units' Emergency Plans.
