

National Interagency Coordination Center
Incident Management Situation Report
Tuesday, September 26, 2017 – 0530 MT
National Preparedness Level 3

National Fire Activity

Initial attack activity:	Light (66) new fires
New large incidents:	1
Large fires contained:	2
Uncontained large fires:**	15
Area Command teams committed:	0
NIMOs committed:	2
Type 1 IMTs committed:	2
Type 2 IMTs committed:	12

**Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

Two hundred and forty-five soldiers from the 23rd Brigade Engineer Battalion and 1-23 Infantry Battalion based out of Fort Lewis, Washington are deployed in support of the Umpqua North Complex.

Northwest Area (PL 3)

New fires:	3
New large incidents:	0
Uncontained large fires:	11
NIMOs Committed:	1
Type 1 IMTs committed:	2
Type 2 IMTs committed:	6

Eagle Creek, Columbia River Gorge National Scenic Area. IMT 2 (Harrod). One mile south of Cascade Locks, OR. Timber. Minimal fire behavior. Road, trail and area closures in effect. Reduction in acreage due to more accurate mapping.

Diamond Creek, Okanogan - Wenatchee NF. Transfer of command from NIMO (Houseman) back to the local unit will occur on 9/27. Twenty-seven miles north of Winthrop, WA. Timber. Minimal fire behavior. Road, trail and area closures in effect.

Chetco Bar, Rogue River - Siskiyou NF. IMT 1 (Schulte). Sixteen miles west of Selma, OR. Timber and brush. Minimal fire behavior. Road, trail and area closures in effect.

Horse Creek Complex, (4 fires), Willamette NF. Transfer of command from IMT 1 (T. Kurth) back to the local unit will occur on 9/28. IMT is also managing the Rebel fire. Seven miles south of Belknap Springs, OR. Timber. Minimal fire behavior. Road, trail and area closures in effect.

Rebel, Willamette NF. Twenty-two miles north of Oakridge, OR. Timber. Minimal fire behavior. Road, trail and area closures in effect.

Whitewater, Willamette NF. Transfer of command from IMT 2 (Rabe) back to the local unit will occur on 9/28. Ten miles east of Idanha, OR. Timber and brush. Minimal fire behavior. Structures threatened. Road, trail and area closures in effect.

Umpqua North Complex, (6 fires), Umpqua NF. IMT 2 (Rohrer). Fifty miles east of Roseburg, OR. Timber, brush and grass. Minimal fire behavior. Road, trail and area closures in effect.

High Cascades Complex, (5 fires), Rogue River - Siskiyou NF. IMT 2 (Roide) and IMT 2 (Johnson). Nine miles northeast of Prospect, OR. Timber. Minimal fire behavior. Structures threatened. Road, trail and area closures in effect.

Jones, Willamette NF. IMT 2 (Knerr). IMT is also managing the Kelsey Creek fire. Ten miles northeast of Lowell, OR. Timber and grass. Minimal fire behavior. Structures threatened. Area closures in effect.

Kelsey Creek, Willamette NF. Eleven miles east of Oakridge, OR. Timber. Minimal fire behavior. Area closures in effect.

Desolation, Ochoco NF. Twenty miles northeast of Prineville, OR. Timber and brush. Moderate fire behavior with flanking and backing. Structures threatened. Road, trail and area closures in effect.

Jolly Mountain, Okanogan - Wenatchee NF. Thirteen miles northwest of Cle Elum, WA. Timber. No new information.

Horse Prairie, Central Unit, Oregon Department of Forestry. Fifteen miles northwest of Canyonville, OR. Timber. No new information. Last report unless new information is received.

***Additional wildfire information is available through the Geographic Areas at <http://gacc.nifc.gov/>

Predictive Services Discussion: A dry northeasterly flow will continue over California as the upper level ridge moves inland and as a weak thermal trough begins to develop along the coast. With the weakening upper level trough continuing to slowly move east and over the Continental Divide, surface high pressure over Nevada and Utah will elevate the potential for Santa Ana wind possibilities across Southern California. However, should the event occur, it is not expected to be a major or long lasting one. Looking east, scattered showers and storms will impact Texas and should provide needed moisture to the state's interior. Dry conditions are expected along the East Coast along with warmer than normal temperatures as Hurricane Maria moves north several hundred miles off the Delaware coast,

HELICOPTER LANDING AREA SAFETY

Aviation Category

The following points should be considered when operating around an unimproved landing site:

- Always wear your personal protective equipment (PPE) when working around an operating helicopter. (Eye, hearing, head)
- Always get the approval of a flight crewmember or the pilot before approaching an operating helicopter.
- Only approach and depart a helicopter as directed, in a slightly crouched position, and in full view of a crewmember. Keep in pilot's field of vision at all times.
- Never go near the tail of helicopters.
- When loading helicopters in uneven terrain, always approach and depart from the down slope (lower) side and do not hold equipment overhead.
- Remove or secure loose articles prior to working around an operating helicopter.
- Be aware of the dust abatement conditions of the landing area, as blowing dust, sand, or rocks caused by the helicopter's rotor wash can be hazardous.
