

National Interagency Coordination Center
Incident Management Situation Report
Wednesday, August 29, 2018 – 0530 MT
National Preparedness Level 5

National Fire Activity

Initial Attack Activity:	Light (98 fires)
New large incidents:	0
Large fires contained:	2
Uncontained large fires:**	42
Area Command teams committed:	0
NIMOs committed:	2
Type 1 IMTs committed:	13
Type 2 IMTs committed:	19

Nationally, there are 67 large fires being managed under a strategy other than full suppression.

**Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

Two hundred thirty-three soldiers from the 14th Brigade Engineer Battalion based out of Joint Base Lewis-McChord, Washington are deployed in support of the Mendocino Complex.

One hundred thirty-eight fireline management personnel from Australia and New Zealand are assigned to support large fires in the California and Northwest Areas.

One RC-26 aircraft with Distributed Real-Time Infrared (DRTI) capability and support personnel from the 141st Air Refueling Wing (Washington Air National Guard) has been deployed to Spokane, WA in support of wildland fire operations in the West.

Active Incident Resource Summary

New fires:	7
New large incidents:	0
Uncontained large fires:	14
Type 1 IMTs committed:	6
Type 2 IMTs committed:	7

Crescent Mountain, Okanogan/Wenatchee NF. Transfer of command from IMT 1 (Wilkins) to IMT 1 (Turman) will occur tomorrow. IMT is also managing the McLeod and Holman incidents. Eighteen miles west of Winthrop, WA. Timber. Moderate fire behavior with creeping, backing and flanking. Evacuations, road, area and trail closures in effect.

McLeod, Okanogan/Wenatchee NF. Eight miles north of Mazama, WA. Timber. Moderate fire behavior with single tree torching, creeping and smoldering. Numerous residences threatened. Road, area and trail closures in effect.

Holman, Okanogan/Wenatchee NF. Nineteen miles northwest of Mazama, WA. Timber. Moderate fire behavior with backing, creeping and flanking. Structures and communication infrastructure threatened. Road, area and trail closures in effect.

Terwilliger, Willamette NF. Transfer of command from IMT 2 (Sinclair) to IMT 2 (Connell) will occur tomorrow. Five miles southeast of Blue River, OR. Timber. Active fire behavior with flanking, torching and short-range spotting. Numerous structures threatened. Road, area and trail closures in effect.

Klondike, Rogue River-Siskiyou NF. IMT 1 (J. Kurth). IMT 1 (Dueitt) mobilizing. Nine miles northwest of Selma, OR. Timber and chaparral. Active fire behavior with wind-driven runs, uphill runs and single tree torching. Numerous residences threatened. Road, area and trail closures in effect. Precipitation occurred over the fire area yesterday.

Natchez, Rogue River-Siskiyou NF. IMT 2 (Gales). Fifteen miles southeast of Cave Junction, OR. Timber and chaparral. Moderate fire behavior with backing, torching and flanking. Numerous structures threatened. Evacuations, road, area and trail closures in effect.

Cougar Creek, Okanogan/Wenatchee NF. Transfer of command from IMT 1 (Livingston) to IMT 2 (Lawson) will occur today. IMT is also managing the Bannock Lakes incident. Twelve miles northwest of Ardenvoir, WA. Timber, medium logging slash and closed timber litter. Minimal fire behavior. Numerous structures threatened. Road, area and trail closures in effect.

Bannock Lakes, Okanogan/Wenatchee NF. Fourteen miles southwest of Stehekin, WA. Timber and brush. Minimal fire behavior. Trail closures in effect.

Watson Creek, Fremont-Winema NF. IMT 2 (Sheldon). Thirteen miles west of Paisley, OR. Timber and brush. Moderate fire behavior with isolated torching, spotting and backing. Numerous structures threatened. Road, area and trail closures in effect.

Ramsey Canyon, Medford Unit, DOF. Transfer of command from ODF IMT 1 (Hessel) back to the local unit will occur tomorrow. Twelve miles north of Eagle Point, OR. Timber, chaparral and short grass. Moderate fire behavior with backing, creeping and single tree torching. Numerous structures and energy infrastructure threatened. Road closures in effect.

Taylor Creek, Medford District, BLM. IMT 2 (Harrod). IMT is also managing the east side of the Klondike incident. Ten miles west of Grants Pass, OR. Timber and brush. Minimal fire behavior. Numerous structures threatened. Road, area and trail closures in effect.

Boyds, Northeast Region, Washington DNR. Transfer of command from IMT 2 (Rabe) back to the local unit will occur today. Three miles west of Kettle Falls, WA. Timber and brush. Minimal fire behavior. Communication infrastructure threatened. Precipitation occurred over the fire area yesterday.

Horns Mountain, Colville NF. Nineteen miles north of Evans, WA. Timber and heavy logging slash. Minimal fire behavior. Area closures in effect.

Miles, Umpqua NF. Five miles northeast of Trail, OR. Timber. Active fire behavior with backing, creeping and isolated torching. Numerous structures and energy infrastructure threatened. Road, area and trail closures in effect.

Columbus, Umpqua NF. Fifteen miles east of Tiller, OR. Timber. Active fire behavior with backing, isolated torching and creeping. Road, area and trail closures in effect.

Jennie's Peak 1039 RN, Central Oregon Rangeland Protection Association. Fourteen miles south of Fossil, OR. Timber, brush and tall grass. No new information. Last report unless new information is received.

Stubblefield 1008 RN, Oregon Private Lands. Started on private land seven miles west of Condon, OR. Timber, brush and short grass. No new information. Last report unless new information is received.

Lonerock 1057 RN, South Gilliam County Rural Fire Protection District. Eight miles southeast of Condon, OR. Timber, brush and short grass. No new information. Last report unless new information is received.

Predictive Services Discussion: A breezy and dry westerly flow will develop over the northern half of the country. This will create pockets of critical fire weather conditions along the Rocky Mountain Front, as down-sloping winds accelerate and dry out. A weak, dry cold front will move into the Pacific Northwest in the afternoon, increasing winds along the eastern slopes of the Cascades and across the Columbia Basin. Isolated thunderstorms will be possible across southern Oregon and southern Idaho in the afternoon. Across the Great Lakes region, winds will be stronger yet...and gusty. However, humidities will be slightly elevated. In the East, a passing cold front will bring scattered showers and storms to New England, the Mid-Atlantic States, and the Mid-South. The monsoon over the Southwest will continue to be suppressed, with only isolated storms expected across mainly New Mexico and Colorado. A breezy onshore flow over California will keep weather conditions near average and humidity levels slightly elevated.

Transfer Of Command

Operational Engagement Category

Risks to fireline personnel increase significantly during transfer of command periods regardless of the size or complexity of the incident. There is a high potential for fatalities, serious injuries, or incidents (some have occurred in the past). Be proactive in mitigating the risks by proper implementation of LCES –Lookout, Communications, Escape Routes, and Safety Zones.

Factors for increased risks to fireline personnel during transition periods include:

- No, or poor, briefing of incoming personnel.
- Lack of fire weather and behavior information, both forecast and observed.
- Communications; face-to-face briefings may not be possible and radio frequencies may be overextended and/or changing due to the increased demands on the system.
- Initial attack resources may not have checked-in and the Incident Commander may not be aware of the number, type and location of all resources.
- Location of safety zones and escape routes may not be known and communicated to all resources.
- Not all Resources know who is in command.

Mitigation actions to take:

- Lookouts: Post and maintain your own lookouts.
- Communications: Maintain existing communications with your own and adjacent resources, as well as your original supervisor, while you are developing communications with incoming adjacent resources and your new supervisor.
- Escape routes and safety zones: Identify escape routes and assure incoming resources are aware of their locations; be aware that your original escape routes and safety zones may no longer be accessible due to changing fire behavior or your increased distance from them.
- Transition at the morning briefing.
- Utilize the [Incident Response Pocket Guide](#) transition checklist.
