

National Interagency Coordination Center
Incident Management Situation Report
Thursday, August 30, 2018 – 0530 MT
National Preparedness Level 5

National Fire Activity

Initial Attack Activity:	Light (84 fires)
New large incidents:	0
Large fires contained:	1
Uncontained large fires:**	36
Area Command teams committed:	0
NIMOs committed:	2
Type 1 IMTs committed:	12
Type 2 IMTs committed:	16

Nationally, there are 67 large fires being managed under a strategy other than full suppression.

**Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

Two hundred thirty-three soldiers from the 14th Brigade Engineer Battalion based out of Joint Base Lewis-McChord, Washington are deployed in support of the Mendocino Complex.

One hundred thirty-five fireline management personnel from Australia and New Zealand are assigned to support large fires in the California and Northwest Areas.

One RC-26 aircraft with Distributed Real-Time Infrared (DRTI) capability and support personnel from the 141st Air Refueling Wing (Washington Air National Guard) has been deployed to Spokane, WA in support of wildland fire operations in the West.

Active Incident Resource Summary

New fires:	11
New large incidents:	0
Uncontained large fires:	11
Type 1 IMTs committed:	5
Type 2 IMTs committed:	6

Crescent Mountain, Okanogan/Wenatchee NF. Transfer of command from IMT 1 (Wilkins) to IMT 1 (Turman) will occur today. IMT is also managing the McLeod and Holman incidents. Eighteen miles west of Winthrop, WA. Timber. Moderate fire behavior with creeping, backing and flanking. Evacuations, road, area and trail closures in effect.

McLeod, Okanogan/Wenatchee NF. Eight miles north of Mazama, WA. Timber. Moderate fire behavior with backing, creeping and flanking. Numerous residences threatened. Road, area and trail closures in effect.

Holman, Okanogan/Wenatchee NF. Nineteen miles northwest of Mazama, WA. Timber. Moderate fire behavior with backing, creeping and flanking. Structures and communication infrastructure threatened. Road, area and trail closures in effect.

Klondike, Rogue River-Siskiyou NF. Transfer of command from IMT 1 (J. Kurth) to IMT 1 (Dueitt) will occur tomorrow. Nine miles northwest of Selma, OR. Timber and chaparral. Active fire behavior with wind-driven runs, uphill runs and single tree torching. Numerous residences threatened. Road, area and trail closures in effect.

Terwilliger, Willamette NF. Transfer of command from IMT 2 (Sinclair) to IMT 2 (Connell) will occur today. Five miles southeast of Blue River, OR. Timber. Active fire behavior with flanking, torching and spotting. Numerous structures threatened. Road, area and trail closures in effect.

Natchez, Rogue River-Siskiyou NF. IMT 2 (Gales). Fifteen miles southeast of Cave Junction, OR. Timber and chaparral. Moderate fire behavior with torching, backing and flanking. Numerous structures threatened. Road, area and trail closures in effect.

Cougar Creek, Okanogan/Wenatchee NF. IMT 2 (Lawson). IMT is also managing the Bannock Lakes incident. Twelve miles northwest of Ardenvoir, WA. Timber, medium logging slash and closed timber litter. Minimal fire behavior. Numerous structures threatened. Road, area and trail closures in effect.

Bannock Lakes, Okanogan/Wenatchee NF. Fourteen miles southwest of Stehekin, WA. Timber and brush. Minimal fire behavior. Trail closures in effect.

Watson Creek, Fremont-Winema NF. IMT 2 (Sheldon). Thirteen miles west of Paisley, OR. Timber and brush. Moderate fire behavior with isolated torching and backing. Numerous structures threatened. Road, area and trail closures in effect.

Ramsey Canyon, Medford Unit, DOF. Transfer of command from ODF IMT 1 (Hessel) back to the local unit will occur tomorrow. Twelve miles north of Eagle Point, OR. Timber, chaparral and short grass. Minimal fire behavior. Numerous structures and energy infrastructure threatened. Road closures in effect.

Taylor Creek, Medford District, BLM. IMT 2 (Harrod). IMT is also managing the east side of the Klondike incident. Ten miles west of Grants Pass, OR. Timber and brush. Minimal fire behavior. Numerous structures threatened. Road, area and trail closures in effect.

Boyds, Northeast Region, Washington DNR. Three miles west of Kettle Falls, WA. Timber and brush. Minimal fire behavior. Communication infrastructure threatened.

Horns Mountain, Colville NF. Nineteen miles north of Evans, WA. Timber and heavy logging slash. Minimal fire behavior. Area closures in effect.

Miles, Umpqua NF. Five miles northeast of Trail, OR. Timber. Active fire behavior with backing, isolated torching and spotting. Numerous structures and energy infrastructure threatened. Road, area and trail closures in effect.

Columbus, Umpqua NF. Fifteen miles east of Tiller, OR. Timber. Active fire behavior with backing, isolated torching and creeping. Road, area and trail closures in effect.

Predictive Services Discussion: The breezy, dry west-southwesterly flow will continue over the northern half of the CONUS, as a weak cold front moves across the Pacific Northwest toward the Northern Rockies by afternoon. The passing of the front will allow for some mixing of the upper level winds with lower level winds to create gusty winds in the afternoon. Fires along the eastern slopes of the Cascades will be most receptive, due to the fact they have not received wetting precipitation in quite some time. To the south, the strong high pressure ridge over Texas will expand and drift westward, producing hot and dry conditions west from the state and into California. In the East, a weak frontal boundary will provide enough lift to create scattered showers and thunderstorms from New England southwest into Tennessee. A weak sea breeze will allow for isolated storm development along the Gulf Coast and along the eastern coast of Florida.

Roadside Incident Response

Vehicles/Roads Category

Nationally, the number of injuries and fatalities among emergency responders who are responding to roadside incidents is increasing. Although most wildland fires occur in remote areas, there are situations where wildland fire personnel are responding to fires along rural country roads, jeep roads, or major highways; the risk still exists for our firefighters. Below is a checklist of considerations that should be utilized when responding to fires and other incidents along roadsides:

Considerations

- Firefighter and public safety will always be the number one priority.
- Utilize L.C.E.S. in all incident activities.
- Personal Protective Equipment is to be used on all incidents.

Upon Arrival at the Scene

Size up incident – see [Incident Response Pocket Guide](#)

- What has happened?
- What is happening?
- What will or could happen?
- Is this a HazMat situation?

Risk Management Process

- Decision Point, Go/No-Go. See the [Incident Response Pocket Guide](#), page 1

Tactical Considerations

- Anytime traffic flow is affected by the incident, contact the jurisdictional law enforcement agency.
- Conduct all operations as far from traffic lanes as possible to provide for crew and public safety.
- Park units on the same side of the roadway whenever possible to avoid traffic congestion.
- Personnel do not exit the fire apparatus until instructed to do so by the module leader.
- Exit the fire apparatus away from the roadway or where hazard exposure is minimized.
- Exit the fire apparatus with full personal protective equipment.
- Post a lookout to watch for and control oncoming traffic.
- Utilize forward and rear spotters when visibility is impaired or road conditions warrant.
- Utilize and place road flares or other traffic warning signs whenever possible.
- If equipment needs to be removed from the traffic side of the apparatus, one person will retrieve the equipment and a lookout will watch for oncoming traffic.
- Engine operators will operate pumps from the non-traffic side or from the cab of the apparatus when possible. Keep all hose, fire tools, and equipment out of traffic lanes when possible.
- During night operations utilize reflective clothing, vests and other safety equipment as necessary.
- All emergency responses on roadways will be concluded as quickly as possible to reduce personnel exposure.
- Cancel or demob unnecessary apparatus as soon as possible.

*** Each agency emergency vehicle operator will follow their particular state laws and agency policies governing the operations of emergency vehicles.*
