

**National Interagency Coordination Center  
Incident Management Situation Report  
Tuesday, September 18, 2018 – 0530 MT  
National Preparedness Level 3**

**National Fire Activity**

Initial Attack Activity:	Light (91 fires)
New large incidents:	3
Large fires contained:	3
Uncontained large fires:**	20
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	6
Type 2 IMTs committed:	14

Nationally, there are 61 large fires being managed under a strategy other than full suppression.

\*\*Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

Three Type 2 Incident Management Teams have mobilized in support of Hurricane Florence. IMT 2 (Goff) is staged in Columbia, SC. IMT 2 (Parrish and Rabe) are staged in Atlanta, GA.

New fires:	10
New large incidents:	2
Uncontained large fires:	6
Type 1 IMTs committed:	2
Type 2 IMTs committed:	2

**Bald Mountain**, Uinta-Wasatch-Cache NF. IMT 1 (Pechota). Seven miles northeast of Mona, UT. Timber and brush. Active fire behavior with short crown runs, short-range spotting and backing. Numerous residences and energy infrastructure threatened. Evacuations, road, area and trail closures in effect.

**Pole Creek**, Uinta-Wasatch-Cache NF. IMT 1 (Lund). Twelve miles northeast of Nephi, UT. Timber and brush. Extreme fire behavior with wind-driven runs, group torching and long-range spotting. Numerous residences and energy infrastructure threatened. Evacuations, road, area and trail closures in effect.

**\* Roosevelt**, Bridger-Teton NF. IMT 2 (Chadwick) mobilizing. Thirty-two miles south of Jackson, WY. Timber. Extreme fire behavior with running, crowning and group torching. Structures threatened. Road, area and trail closures in effect.

**\* Marten Creek**, Bridger-Teton NF. IMT 2 (Rohrer) mobilizing. Thirteen miles east of Afton, WY. Timber. Extreme fire behavior with crowning, running and spotting. Structures threatened.

**Slate**, Uinta-Wasatch-Cache NF. Six miles east of Kamas, UT. Timber. Active fire behavior with backing, creeping and torching.

**Indian Butte**, Clark County. Eight miles northwest of Dubois, ID. Timber, brush and short grass. Minimal fire behavior. Road and area closures in effect.

**Stewart Creek**, Sawtooth NF. Eighteen miles northwest of Fairfield, ID. Timber and brush. Minimal fire behavior. Structures and sage-grouse habitat threatened. Road, area and trail closures in effect.

**Predictive Services Discussion:** A trough will remain over the western U.S., keeping strong southwesterly flow over the Interior West. Gusty winds up to 35 mph and humidity as low as the single digits will produce critical fire weather conditions across southern Nevada, central Utah, and southwestern Wyoming. Windy conditions will also spread across northwestern Colorado and southeastern Idaho. Scattered showers and thunderstorms will develop in southern New Mexico and southern Arizona as moisture from a weakening tropical disturbance moves out of Mexico. Showers and thunderstorms are also likely across the northern Plains and the upper Midwest. Widely scattered showers and thunderstorms associated with the remnants of Florence will continue along the Eastern Seaboard. Heavy rain is possible from the Maryland shores to Maine. Afternoon thunderstorms will form along the Gulf Coast.

## Constructing Line Without A Safe Anchor Point

*Operational Engagement*

When deciding where to build fireline, the following considerations must be weighed:

- Can you hold the line without the fire hooking under/around you? How do you protect against losing the line and ensure your safety if there is a danger of the fire hooking around you?
- Are there adequate safety zones and escape routes? Review what constitutes an adequate safety zone and escape route. Who has the responsibility to designate them and continue to make sure they are adequate?
- Can you develop your starting point into an anchor point? List some good anchor points. Describe how you would develop your starting point into an anchor point.
- Have you posted good lookouts? Where should the lookout(s) be posted? Who can be a lookout?
- Do you have good communications? Who do you need to be in contact with? If the communications are not good, what can you do to improve them?
- To reduce the risks, start the line in another location. Talk about fires where you have had to relocate the line because your anchor point did not hold the fire.
- Do you have a lookout posted? Can they see the main fire?
- How have you mitigated Watchout Situation #8?
