

National Interagency Coordination Center
Incident Management Situation Report
Thursday, September 27, 2018 – 0530 MT
National Preparedness Level 2

National Fire Activity

Initial Attack Activity:	Light (54) new fires
New large incidents:	0
Large fires contained:	1
Uncontained large fires:**	19
Area Command teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	4
Type 2 IMTs committed:	7

Nationally, there are 53 large fires being managed under a strategy other than full suppression.

**Uncontained large fires include only fires being managed under a full suppression strategy.

Great Basin Area (PL 4)

New fires:	6
New large incidents:	0
Uncontained large fires:	7
Type 1 IMT's committed:	4
Type 2 IMT's committed:	2

Roosevelt, Bridger-Teton NF. IMT 1 (Demasters). Thirty-two miles south of Jackson, WY. Timber and brush. Active fire behavior with group torching, spotting and crowning. Numerous structures threatened. Evacuations, road, area and trail closures in effect.

Pole Creek, Uinta-Wasatch-Cache NF. Transfer of command from IMT 1 (Lund) to IMT 1 (McGowan) will occur tomorrow. Twelve miles northeast of Nephi, UT. Timber and brush. Moderate fire behavior with isolated torching, short-range spotting and smoldering. Numerous residences and energy infrastructure threatened. Evacuations, road, area and trail closures in effect.

Bald Mountain, Uinta-Wasatch-Cache NF. Transfer of command from IMT 1 (Pechota) to IMT 1 (McGowan) will occur tomorrow. Seven miles northeast of Mona, UT. Timber and brush. Minimal fire behavior. Numerous residences and transportation and energy infrastructure threatened. Evacuations, road, area and trail closures in effect.

Mirror Lake Complex (2 fires), Uinta-Wasatch-Cache NF. IMT 2 (Roide). Thirteen miles east of Kamas, UT. Timber, brush and light logging slash. Active fire behavior with short-range spotting, uphill runs and torching. Road and trail closures in effect.

Marten Creek, Bridger-Teton NF. IMT 2 (Rohrer). Thirteen miles east of Afton, WY. Timber and brush. Moderate fire behavior with isolated torching, backing and creeping. Road and area closures in effect.

Conner, Cassia County. Four miles southwest of Malta, ID. Brush and short grass. Moderate fire behavior with creeping and smoldering. Residences and sage-grouse habitat threatened.

Predictive Service Discussion: An area of low pressure off the Californian coast will create a dry, down-sloping, easterly wind across northern California and Oregon. Critical fire weather conditions may be possible under this flow regime. Further north, a northwesterly flow is expected across western Washington State and across the Northern Rockies. This will promote seasonal temperatures. In the Southwest, a weak version of the Four Corners High will keep the region warm and dry. A strong frontal system will move into the Great Lakes region bringing widespread, moderate rainfall, while a stalled front continues to produce showers and storms up and down the Atlantic and Gulf Coasts.

Entrapment Avoidance

Operational Engagement Category

Avoiding situations where firefighters become entrapped is the first concern when devising strategy and tactics. The following discussion points are among the things to consider.

- ➊ Discuss the three types of safety zones and describe examples.
 - The burn
 - Natural features
 - Constructed sites
- ➋ Discuss the guidelines for distance separation to avoid radiant heat injury.
 - Four times the maximum flame height (20 feet-flame height x 4 = 80 feet radius from firefighters)
 - Discuss size based on amount of resources and equipment in the area.
- ➌ Discuss heat impact factors that will affect the guidelines for distance separation.
 - Convection heat from wind and terrain features
 - Location relative to fire spread
 - Re-burn potential of fuel in safety zone
- ➍ Discuss how firefighters have a right to know the location of their escape routes and safety zones at all times.
- ➎ Discuss how firefighters have a right to ask for clarification when faced with unclear instructions or fear of the unknown.

- ➏ Describe a basic procedure for identification of effective escape routes and safety zones.
 - Observe
 - Visualize
 - Identify
 - Time
 - Inform
 - Evaluate
