

**National Interagency Coordination Center  
Incident Management Situation Report  
Sunday, August 25, 2019 – 0530 MT  
National Preparedness Level 2**

**National Fire Activity**

|                               |                      |
|-------------------------------|----------------------|
| Initial attack activity:      | Light (76 new fires) |
| New large incidents:          | 4                    |
| Large fires contained:        | 3                    |
| Uncontained large fires:***   | 22                   |
| Area Command teams committed: | 0                    |
| NIMOs committed:              | 0                    |
| Type 1 IMTs committed:        | 2                    |
| Type 2 IMTs committed:        | 3                    |

Nationally, there are 33 large fires being managed under a strategy other than full suppression.

\*\*\* Uncontained large fires include only fires being managed under a full suppression strategy.

\*1 Hectare = 2.47 Acres

**Predictive Services Discussion:** An Alberta Clipper will drop southeast from southwestern Canada across Montana, bringing scattered showers and cooler temperatures to the Pacific Northwest and the Northern Rockies. High pressure over southwestern Oregon, California and Arizona will strengthen. Expect an upward trend in temperatures. Pressure gradients across northern California will line up to be north-to-south oriented; expect north winds to develop which will lead to lower humidities and poor overnight recoveries. Stormy conditions are expected across the nation's mid-section, as the Alberta Clipper draws moisture north from the Gulf of Mexico.

## SAFECOMs

Aviation

### What the SAFECOM system IS

The Aviation Safety Communiqué (SAFECOM) [AMD-34/FS-5700-14](#) should be used to report any condition, observation, act, maintenance problem, or circumstance with personnel or the aircraft that has the potential to cause an aviation-related mishap. SAFECOMs are a tool used to identify, document, track, and correct safety related issues.

### What the SAFECOM system IS NOT

- NOT intended for initiating punitive actions,
- NOT to be used as a complaint system or for personal attacks,
- NOT used by contracting officers for contract evaluations/award purposes,
- NOT a substitute for "on-the-spot" corrections to a safety concern, and
- does NOT replace the requirement for initiating an accident or incident report.

SAFECOMs provide the necessary feedback for development of the following communication tools:

- Accident Prevention Bulletins.
- Lessons Learned.
- Safety Alerts.
- Technical Bulletins.
- Airwards
- Information Sharing Memos.
- Maintenance Deficiencies (ADs, SBs, etc).
- Safety Trends.
- Training Needs.
