

National Interagency Coordination Center
Incident Management Situation Report
Tuesday, July 7, 2020 – 0730 MT
National Preparedness Level 3

National Fire Activity:

| | |
|-------------------------------|--------------------------|
| Initial attack activity: | Moderate (290 new fires) |
| New large incidents: | 2 |
| Large fires contained: | 4 |
| Uncontained large fires:*** | 21 |
| Area Command teams committed: | 0 |
| NIMOs committed: | 1 |
| Type 1 IMTs committed: | 2 |
| Type 2 IMTs committed: | 4 |

Nationally, there are 12 large fires being managed under a strategy other than full suppression.

*** Uncontained large fires include only fires being managed under a full suppression strategy.

| TOTALS | 56 | 319 | 2,114 | 935,614 |

*1 Hectare = 2.47 Acres

Predictive Services Discussion: Critical fire weather conditions are possible across the Great Basin as a compact, fast-moving cold front moves east along the northern state lines of California and Nevada. In addition to breezy westerly winds and low humidities, a small cluster of dry thunderstorms will accompany the passage of the system as it moves east. Further south across the central and southern Great Basin, breezy winds and low humidities are also expected. Another surge of monsoonal moisture will move into Arizona and New Mexico bringing more lightning. Humidities south of the Mogollon Rim will be slightly elevated, while north and east of the Rim they will be critical low. Along the West Coast, onshore flow will continue. Temperatures will be near-average.

Operational Briefings

Fire Communications Category

Operational briefings are critical to safe fire operations. To ensure a consistent and effective briefing, a standardized briefing checklist should always be used. The following checklist is printed on the inside back cover of the *Incident Response Pocket Guide*, PMS 461:

- Situation:
 - Fire name, location, map orientation, other incidents in the area.
 - Terrain influences.
 - Fuel type and conditions.

- Fire weather (previous, current, and expected).
- Fire behavior (previous, current, and expected).

- Mission/Execution:

- Command (Incident Commander/immediate supervisor).
- Leader's intent.
- Specific tactical assignments.
- Contingency plans.

- Communications:

- Communication Plan (tactical, command, air/ground frequencies, cell phone numbers, etc.).
- Medevac Plan.

- Service/Support:

- Other resources that may be working adjacent to you and those available to order.
- Aviation operations.
- Logistics (e.g., transportation, supplies, equipment).

- Risk Management:

- Identify known hazards and risks.
- Identify control measures to eliminate hazards and reduce risk.
- Identify trigger points for disengagement or reevaluation of operational plan.
