

**National Interagency Coordination Center
Incident Management Situation Report
Monday, June 29, 2020 – 0730 MT
National Preparedness Level 3**

National Fire Activity:

Initial attack activity:	Light (176 new fires)
New large incidents:	7
Large fires contained:	0
Uncontained large fires:***	24
Area Command teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	1
Type 2 IMTs committed:	4

Nationally, there are 19 large fires being managed under a strategy other than full suppression.

*** Uncontained large fires include only fires being managed under a full suppression strategy.

Southwest Area (PL 4)

New fires:	9
New large incidents:	1
Uncontained large fires:	9
Type 1 IMTs committed:	1
Type 2 IMTs committed	1

Bighorn, Coronado NF, USFS. IMT 1 (NR Team 1). Five miles northeast of Tucson, AZ. Chaparral, brush and timber. Active fire behavior with wind-driven runs, flanking and short-range spotting. Numerous structures threatened. Evacuations, road, trail and area closures in effect.

Brigham, Apache-Sitgreaves NF, USFS. Twenty-two miles north of Morenci, AZ. Brush, short grass and timber. Moderate fire behavior with flanking, backing and creeping. Structures threatened. Road, trail and area closures in effect.

Mangum, Kaibab NF, USFS. IMT 2 (SW Team 3). Twenty-four miles southeast of Fredonia, AZ. Timber, brush and short grass. Minimal fire behavior with creeping and torching. Residences threatened. Road, trail and area closures in effect. Reduction in acreage due to more accurate mapping.

Tadpole, Gila NF, USFS. Twelve miles north of Silver City, NM. Timber, brush and chaparral. Moderate fire behavior with creeping, isolated torching and flanking. Structures threatened. Road, trail and area closures in effect.

Vics Peak, Cibola NF, USFS. Thirty miles north of Truth or Consequences, NM. Timber. Active fire behavior with short crown runs, wind-driven runs and backing. Road, trail and area closures in effect.

Bush, Tonto NF, USFS. Thirty-eight miles northeast of Mesa, AZ. Brush and tall grass. Minimal fire behavior with smoldering. Road, trail and area closures in effect.

Central, Tonto NF, USFS. Four miles east of New River, AZ. Brush and short grass. Minimal fire behavior with smoldering. Road, trail and area closures in effect.

Good, Gila NF, USFS. Twenty-nine miles north of Silver City, NM. Timber, brush and tall grass. Moderate fire behavior with backing, creeping and smoldering.

* **Avondale**, Buenos Aires NWR, FWS. Eight miles southeast of Avondale, AZ. Brush. Minimal fire behavior with creeping and smoldering.

Great Basin Area (PL 2)

New fires:	37
New large incidents:	5
Uncontained large fires:	12
Type 2 IMTs committed	2

Canal, Central Area, Utah DOF. IMT 2 (GB Team 3) mobilizing. Previously reported incident. Started on private land 5 miles north of Oak City, UT. Brush and tall grass. Extreme fire behavior with wind-driven runs and long-range spotting. Numerous residences and energy infrastructure threatened. Evacuations and road closures in effect.

* **Mahogany**, Humboldt-Toiyabe NF, USFS. IMT 2 (GB Team 7) mobilizing. Seven miles northeast of Mt. Charleston, NV. Timber and brush. Extreme fire behavior with crowning, uphill runs and running. Residences threatened. Road, trail and area closures in effect.

* **Poeville Road**, Truckee Meadows Fire Protection District. Twelve miles northwest of Reno, NV. Brush and short grass. Minimal fire behavior with creeping and smoldering. Numerous structures threatened. Road and area closures in effect.

* **Knolls**, Northwest Area, Utah DOF. Started on private land five miles south of Saratoga Springs, UT. Brush and grass. Active fire behavior with wind-driven runs and spotting. Numerous structures threatened. Evacuations in effect.

Miller, Ely District, BLM. Thirty-one miles northeast of Pioche, NV. Brush, chaparral and short grass. Active fire behavior with crowning, group torching and spotting. Structures and sage-grouse habitat threatened.

* **Traverse**, Northwest Area, Utah DOF. Four miles north of Lehi, UT. Brush and tall grass. Active fire behavior with creeping, wind-driven runs and smoldering. Numerous structures and energy infrastructure threatened. Evacuations in effect.

Monarch, Carson City District, BLM. Started on BIA land 11 miles southeast of Gardnerville, NV. Timber and tall grass. Minimal fire behavior with smoldering.

Roc, Manti-La Sal NF, USFS. Sixteen miles northeast of La Sal, UT. Timber, brush and slash. Active fire behavior with creeping, isolated torching and backing. Structures threatened. Evacuations and road closures in effect.

Twin, Ely District, BLM. Twelve miles northeast of Alamo, NV. Chaparral, brush and tall grass. Active fire behavior with wind-driven runs, running and backing.

* **Wire Pass**, Cedar City District, BLM. Twenty-five miles east of Kanab, UT. Brush and short grass. Moderate fire behavior with creeping and isolated torching. Energy infrastructure threatened. Road, trail and area closures in effect.

Rock Path, Richfield Field Office, BLM. Fifteen miles north of Milford, UT. Chaparral, brush and short grass. Moderate fire behavior with smoldering and group torching. Structures threatened.

Brown, Ely District, BLM. Two miles southeast of Lund, NV. Timber, brush and tall grass. Minimal fire behavior with smoldering and creeping.

Predictive Services Discussion: Critical fire weather conditions are expected across the Four Corners region as a cold front moves east across the area. Westerly winds sustained around 20 to 30 mph with gusts to near 45 mph will interact with very dry fuels and low humidity levels to create a critical environment for fire activity. Widespread showers and storms will continue across the Northern Rockies and Idaho as the associated upper level low pressure area begins to move northeast toward Canada. A dry northerly flow will continue across Northern California. Isolated storms will be possible across central Oregon, central Utah, and northern Colorado. In the East, scattered storms will continue from the Ohio River Valley south to the Gulf Coast. Rain will be possible across New England as a low pressure area crosses over the region.

Hazard Tree Felling – Hang-Ups

Felling Safety Category

Felling a hung-up hazard tree is a particularly hazardous and complex task. Safely felling a hang-up requires extreme caution and expertise.

The following are some topics sawyers should review during tailgate safety discussions to address felling hang-up hazard trees:

Size up and Evaluation:

- Cut/No Cut (walk-away). Is tree secure and does it need to come down?
- What type of hang up? In a fork, pinched between two trees, or resting on limbs?
- Vertical hang ups have increased complexities.
- Condition of all relevant trees; live, dead, rot, etc. Does the hang up tree have any weak areas that could fail?
- Obscured view of top?
- If sawyer is unsure of outcome do not attempt to cut leaner.

Operational Considerations:

- Escape routes for unforeseen circumstances?
- Consider falling trees as a group.
- Consider face cuts versus slash cuts for directional control.
- Rope Technique allows increased distance from danger zones

Alternative Mitigations:

- Blasting
- Heavy equipment/cable
- No Work Zones

Discuss any personal lessons learned with hang-up trees that you may have experienced.
