

National Interagency Coordination Center
Incident Management Situation Report
Saturday, November 7, 2020 – 0730 MDT
National Preparedness Level 2

National Fire Activity:

Initial attack activity:	Light (106 new fires)
New large incidents:	2
Large fires contained:	4
Uncontained large fires:***	21
Area Command teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	1
Type 2 IMTs committed:	4

Nationally, there are 14 fires being managed under a strategy other than full suppression.

***Uncontained large fires include only fires being managed under a full suppression strategy.

Southern California Area (PL 2)

New fires:	21
New large incidents:	0
Uncontained large fires:	6
Type 2 IMTs committed:	2

Creek, Sierra NF, USFS. IMT 2 (AK Black Team). Thirty-five miles northeast of Clovis, CA. Timber, chaparral and tall grass. Moderate fire behavior with isolated torching, creeping and smoldering. Numerous structures and energy infrastructure threatened. Area, road and trail closures in effect.

SQF Complex, Sequoia NF, USFS. IMT 2 (CA Team 13). Thirty-three miles east of Porterville, CA. Timber and chaparral. Active fire behavior with uphill runs, single tree torching and spotting. Area, road and trail closures in effect.

Silverado, Orange County Fire Authority. Nine miles east of Irvine, CA. Chaparral, brush and tall grass. Minimal fire behavior. Area and trail closures in effect.

Blue Ridge, Orange County Fire Authority. One mile north of Corona, CA. Brush and tall grass. Minimal fire behavior. Area and trail closures in effect.

El Dorado, San Bernardino Unit, Cal Fire. Three miles northeast of Yucaipa, CA. Timber, chaparral and brush. Minimal fire behavior with creeping and smoldering. Numerous structures threatened. Area and trail closures in effect.

Coleman, Los Padres NF, USFS. Thirteen miles southwest of King City, CA. Brush and tall grass. No new information.

***Prescribed fire acres are for reference only and may not reflect the most up-to-date information.

***Official prescribed fire accomplishment reporting occurs through agency specific systems of record.

Predictive Services Discussion: Upper-level troughing will broaden and deepen over the West as another upper low tracks from British Columbia into Pacific Northwest and northern California. A cold front will continue to swing through the Intermountain West and into northwest Mexico with below average temperatures expected behind the front. Precipitation is expected across much of the West with heavy snow likely in portions of the Sierra and Rocky Mountains. Elevated fire weather conditions are likely on portions of the southern and central High Plains as lee troughing and downslope flow strengthen. Heavy rain is likely in portions of South Florida and far southeast Louisiana.

In Country Not Seen In Daylight

Operational Engagement Category

Often, firefighters arrive on a fire after dark. This is recognized as Watch Out Situation #2. Before safely fighting fire, in country not seen in daylight, firefighters must be able to answer the following questions:

- Can the resources you are replacing give you a thorough briefing? Identify whom you might get information from. Can you meet up with the departing overhead/resource leaders?
- Can you observe the area/use scouts? List ways you could observe the area you need to work.
- Have escape routes and safety zones been thoroughly scouted and marked for night use? Talk about what constitutes an escape route and a safety zone; who would identify them; and in what ways might they be marked.
- Have potential dangers been located; can they be mitigated? What are the dangers associated with Watch Out Situation #2? How can they be worked around?
- Reduce the risks by:
 - Posting lookouts.
 - Checking communications.
 - Retreat if you have doubts about your escape routes or safety zones, or the situation becomes too complex. Give examples of arriving on a fire after dark and what was done to allow you to fight fire safely in country not seen in daylight.
 - Identifying prominent geographic features.
