

**National Interagency Coordination Center
Incident Management Situation Report
Monday, October 5, 2020 – 0730 MDT
National Preparedness Level 4**

National Fire Activity:

Initial attack activity:	Light (49 new fires)
New large incidents:	1
Large fires contained:	1
Uncontained large fires:***	35
Area Command teams committed:	1
NIMOs committed:	3
Type 1 IMTs committed:	15
Type 2 IMTs committed:	12

Nationally, there are 33 fires being managed under a strategy other than full suppression.

***Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

[Link](#) to Understanding the IMSR.

NIMO (Houseman) has been assigned to COVID-19 support at Forest Service headquarters in Washington, D.C.

NIMO (Reinarz) has been assigned to provide wildland fire support to California.

NIMO (Day) has been assigned to provide wildland fire support to federal land management agencies in Oregon and Washington.

Two hundred thirty-four Marines from the 7th Engineer Support Battalion, 1st Marine Logistics Group, 1 Marine Expeditionary Force based out of Camp Pendleton, California are deployed in support of the Creek fire.

Eleven fire suppression crews and five overhead personnel from Canada are supporting fire suppression efforts in northern California.

Six fire suppression crews, 15 fire engines and 14 overhead personnel from Canada are supporting fire suppression efforts in Oregon.

Five fire suppression crews and four overhead personnel from Mexico are supporting fire suppression efforts in southern California.

Northern California Area (PL 5)

New fires:	14
New large incidents:	0
Uncontained large fires:	11
Area Command:	1
Type 1 IMTs committed:	8
Type 2 IMTs committed:	2

Glass, Sonoma-Lake Napa Unit, Cal Fire. IMT 1 (Cal Fire Team 3). Thirteen miles northwest of Napa, CA. Tall grass, brush and timber. Active fire behavior with uphill runs, spotting and flanking. Several communities and infrastructure threatened. Evacuations, area, road and trail closures in effect.

August Complex (2 fires), Mendocino NF, USFS. Area Command Team (Sexton), IMT 1 (AK Team 1) and IMT 1 (PNW Team 2). IMT 1 (SW Team 1) and IMT 1 (GB Team 2) mobilizing. Fourteen miles northwest of Elk Creek, CA. Timber, chaparral and tall grass. Active fire behavior with group torching, short crown runs and backing. Several communities and infrastructure threatened. Evacuations, area, road and trail closures in effect.

August Complex West Zone, Mendocino Unit, Cal Fire. IMT 1 (Cal Fire Team 5). Four miles northeast of Covelo, CA. Timber, chaparral and tall grass. Active fire behavior with uphill runs, torching and spotting. Several communities and communication infrastructure threatened. Evacuations, area, road and trail closures in effect.

North Complex, Plumas NF, USFS. IMT 1 (CA Team 4). One mile southwest of Crescent Mills, CA. Timber and brush. Active fire behavior with flanking, backing and isolated torching. Several communities and infrastructure threatened. Evacuations, area, road and trail closures in effect.

Red Salmon Complex (2 fires), Six Rivers NF, USFS. IMT 2 (NW Team 10). Fourteen miles northeast of Willow Creek, CA. Timber and closed timber litter. Active fire behavior with uphill runs, running and short-range spotting. Several communities and communication infrastructure threatened. Evacuations, area, road and trail closures in effect.

Slater, Klamath NF, USFS. IMT 2 (NW Team 7). IMT is also managing the Devil fire. Five miles northeast of Happy Camp, CA. Timber and brush. Moderate fire behavior with backing, flanking and isolated torching. Several communities and communication infrastructure threatened. Evacuations, area, road and trail closures in effect.

Devil, Klamath NF, USFS. Five miles north of Seiad, CA. Timber. Moderate fire behavior with backing, flanking and isolated torching. Area and trail closures in effect.

Zogg, Shasta-Trinity Unit, Cal Fire. IMT 1 (Cal Fire Team 2). Nine miles southwest of Redding, CA. Chaparral, brush and short grass. Minimal fire behavior with creeping and smoldering. Residences threatened. Evacuations, area, road and trail closures in effect.

Fork, Eldorado NF, USFS. Fifteen miles northeast of Pollock Pines, CA. Timber and brush. Minimal fire behavior with creeping, backing and smoldering. Numerous structures and energy infrastructure threatened. Area, road and trail closures in effect.

***Prescribed fire acres are for reference only and may not reflect the most up-to-date information.

***Official prescribed fire accomplishment reporting occurs through agency specific systems of record.

Predictive Services Discussion: Cold fronts will move into the northern Great Basin and south across the northern Plains. Critical fire weather conditions are expected across southern Wyoming, northern Colorado, and western Nebraska with elevated conditions stretching from northern Utah into western South Dakota and western Kansas. A wind shift from west to north-northwest will accompany the frontal passage with dry conditions continuing behind the front. Dry and breezy conditions are also likely from central Missouri into Minnesota ahead of the cold front. Mid and upper clouds are likely to begin moving over portions of the southern and central California coast Monday night as a weak upper low approaches.

ATV – Transport

Vehicles/Roads Category

All-Terrain Vehicle (ATV) Loading/Unloading

Loading/unloading of ATVs has resulted in serious injury and even death to employees. Only those who have been fully trained in ATV operations should conduct loading/unloading procedures. The following safety measures are recommended:

- Wear all PPE (including gloves, helmet, etc.) until ATV is either secured or unloaded.
- Ensure header board (board placed in front of bed of truck or trailer) is in place and in good condition.
- ATV tire ramps should be secure to trailer or tailgate and on level terrain.
- If possible, use a tilt trailer to haul an ATV. If this is not feasible, try to lower back end of vehicle so slant of loading ramp is reduced. Back into a ditch, hillside, or anything else to try and lower back end of vehicle.
- When loading ATV onto vehicle or trailer, keep seated, and lean body weight forward on ATV.
- When unloading ATV, keep seated and keep weight forward. This helps keep ATV from flipping over backwards.
- Never load or unload an ATV with a load on the racks. Load all ATVs empty.

● Securing ATV for transport

ATVs improperly loaded can be dangerous to you and other highway users. Steering can be affected if your load is not properly distributed and if not properly secured, can become dislodged and damage equipment and cause injury or death during a quick stop or crash.

● Drivers are responsible for their load –regardless of who actually loads equipment. All drivers are responsible for:

- inspecting the ATV,
- recognizing overloads and poorly balanced weight, and
- knowing the gear loaded on the ATV is securely tied down.

● Securing ATV's:

- Secure ATV in its normal operating position (on all four wheels)
- Set the parking brake and place transmission in gear
- Turn fuel valve OFF
- Use chocks (that fit snugly against wheels) in front and back of ATV. Front end header boards should also block forward movement of ATV.
- Tie down ATV on at least each corner – use tie downs made from one-inch nylon strap or greater, with hooks at each end and that have ratcheting buckles (ordinary rope should not be used due to stretching) or tie-down straps that will lock in place
- ATVs should never be hauled with a load attached to the cargo racks. Hazard exists of losing the load from the ATV while in transit.
