

**National Interagency Coordination Center
Incident Management Situation Report
Monday, October 12, 2020 – 0730 MDT
National Preparedness Level 4**

National Fire Activity:

Initial attack activity:	Light (43 new fires)
New large incidents:	3
Large fires contained:	0
Uncontained large fires:***	39
Area Command teams committed:	2
NIMOs committed:	2
Type 1 IMTs committed:	10
Type 2 IMTs committed:	12

Nationally, there are 37 fires being managed under a strategy other than full suppression.

***Uncontained large fires include only fires being managed under a full suppression strategy.

Northern California Area (PL 5)

New fires:	6
New large incidents:	0
Uncontained large fires:	11
Area Command:	2
Type 1 IMTs committed:	7
Type 2 IMTs committed:	3

August Complex (2 fires), Mendocino NF, USFS. Area Command Team (Sexton), IMT 1 (PNW Team 2), IMT 1 (SW Team 1) and IMT 1 (GB Team 2). Area Command Team (Stutler) and IMT 1 (GB Team 1) mobilizing. Fourteen miles northwest of Elk Creek, CA. Timber, chaparral and tall grass. Moderate fire behavior with backing, creeping and smoldering. Several communities and infrastructure threatened. Evacuations, area, road and trail closures in effect.

Slater, Klamath NF, USFS. IMT 2 (NW Team 7). IMT is also managing the Devil fire. Five miles northeast of Happy Camp, CA. Timber and brush. Minimal fire behavior with creeping and smoldering. Several communities and communication infrastructure threatened. Evacuations, area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Devil, Klamath NF, USFS. Five miles north of Seiad, CA. Timber. Minimal fire behavior with creeping and smoldering. Area and trail closures in effect. Precipitation occurred over the fire area yesterday.

August Complex West Zone, Mendocino Unit, Cal Fire. IMT 1 (Cal Fire Team 5). Four miles northeast of Covelo, CA. Timber, chaparral and tall grass. Minimal fire behavior with flanking, backing and creeping. Several communities and communication infrastructure threatened. Evacuations, area, road and trail closures in effect.

Red Salmon Complex (2 fires), Six Rivers NF, USFS. IMT 2 (NW Team 10). IMT 2 (CA Team 12) mobilizing. miles northeast of Willow Creek, CA. Timber. Minimal fire behavior with backing, creeping and smoldering. Several communities and communication infrastructure threatened. Evacuations, area, road and trail closures in effect.

North Complex, Plumas NF, USFS. IMT 1 (CA Team 4). One mile southwest of Crescent Mills, CA. Timber and brush. Minimal fire behavior with creeping, backing and smoldering. Area, road and trail closures in effect.

Glass, Sonoma-Lake Napa Unit, Cal Fire. IMT 1 (Cal Fire Team 3). Thirteen miles northwest of Napa, CA. Tall grass, brush and timber. Minimal fire behavior with smoldering. Several communities and infrastructure threatened. Evacuations, area, road and trail closures in effect.

Fork, Eldorado NF, USFS. Fifteen miles northeast of Pollock Pines, CA. Timber and brush. Minimal fire behavior with smoldering. Numerous structures and energy infrastructure threatened. Area, road and trail closures in effect.

Zogg, Shasta-Trinity Unit, Cal Fire. Nine miles southwest of Redding, CA. Chaparral, brush and short grass. Minimal fire behavior.

***Prescribed fire acres are for reference only and may not reflect the most up-to-date information.

***Official prescribed fire accomplishment reporting occurs through agency specific systems of record.

Predictive Services Discussion: High pressure will begin to build into the southwestern US, bringing somewhat warmer and drier conditions to Southern California, the Southwest, and central/southern Great Basin. This building high pressure brings the potential for offshore flow across central and southern California. Further north, most, westerly flow will remain in place across the Pacific Northwest into the Northern Rockies bringing another day of cold, unsettled weather.

Firefighter Nutrition

Firefighter Health & First Aid

Nutrition is a critical part of the health and safety of wildland fire suppression personnel. This is the fuel for the body to perform the work and maintain cognitive abilities. Wildland firefighters on the fireline need 4,000-6,000 calories a day to not go into an energy deficit. Consider the following key points when choosing your meal:

- There are 3 major energy sources in food: carbohydrates, protein, and fats.
- Carbohydrates (also called sugar) offer an immediate source of energy for your body. They provide the fuel for your muscles and organs, such as your brain.
- Proteins are the basic building blocks of the human body. They are made up of amino acids that help build muscles, blood, skin, hair, nails and internal organs.
- Fat is an essential nutrient that provides energy, energy storage, insulation, and contour to the body.
- MTDC recommends eating 150-200 kcals every 2 hours during the work shift to maintain blood glucose and energy levels.

Carbohydrates:

- Studies on athletes have shown that carbohydrates are the most critical energy source for performance and health.
- Carbohydrates are your body's first choice for fuel. If given a choice of several types of foods simultaneously, your body will use the energy from carbohydrates first.
- If you do not eat enough carbohydrates, the following can occur:
 - Fatigue
 - Muscle cramps
 - Poor mental function
- The fire camp lunches (called shift food) are designed to allow firefighters small amounts of food (primarily carbohydrates) that can be easily eaten throughout the work shift.

Discussion Points:

How are you eating your fire lunch? Is it all at once or small amounts throughout the day? Think of long duration events (Ultra Runs, triathlons), do you see athletes stopping for a big meal or eating small amounts constantly throughout the race?
