

National Interagency Coordination Center
Incident Management Situation Report
Saturday, October 17, 2020 – 0730 MDT
National Preparedness Level 3

National Fire Activity:

Initial attack activity:	Light (68 new fires)
New large incidents:	2
Large fires contained:	2
Uncontained large fires:***	29
Area Command teams committed:	2
NIMOs committed:	2
Type 1 IMTs committed:	8
Type 2 IMTs committed:	11

Nationally, there are 30 fires being managed under a strategy other than full suppression.

***Uncontained large fires include only fires being managed under a full suppression strategy.

Northern California Area (PL 4)

New fires:	20
New large incidents:	0
Uncontained large fires:	7
Area Command:	1
Type 1 IMTs committed:	3
Type 2 IMTs committed:	3

August Complex (2 fires), Mendocino NF, USFS. Area Command Team (Stutler), IMT 1 (GB Team 1), IMT 1 (SW Team 1) and IMT 1 (GB Team 2). Fourteen miles northwest of Elk Creek, CA. Timber, chaparral and tall grass. Active fire behavior with backing, creeping and single tree torching. Several communities and infrastructure threatened. Evacuations, area, road and trail closures in effect.

Slater, Klamath NF, USFS. IMT 2 (NW Team 7). IMT is also managing the Devil fire. Five miles northeast of Happy Camp, CA. Timber and brush. Minimal fire behavior with creeping and smoldering. Several communities and communication infrastructure threatened. Evacuations, area, road and trail closures in effect.

Devil, Klamath NF, USFS. Five miles north of Seiad, CA. Timber. Minimal fire behavior with creeping and smoldering. Area and trail closures in effect.

Red Salmon Complex, Six Rivers NF, USFS. IMT 2 (CA Team 12). Fourteen miles northeast of Willow Creek, CA. Timber. Minimal fire behavior with backing, creeping and isolated torching. Several communities threatened. Area, road and trail closures in effect. Evacuations have been lifted.

North Complex, Plumas NF, USFS. IMT 2 (CA Team 11). One mile southwest of Crescent Mills, CA. Timber and brush. Minimal fire behavior with creeping, backing and smoldering. Area, road and trail closures in effect.

Fork, Eldorado NF, USFS. Fifteen miles northeast of Pollock Pines, CA. Timber and brush. Minimal fire behavior with smoldering. Numerous structures and energy infrastructure threatened. Area, road and trail closures in effect.

***Prescribed fire acres are for reference only and may not reflect the most up-to-date information.

***Official prescribed fire accomplishment reporting occurs through agency specific systems of record.

Predictive Services Discussion: Elevated to critical fire weather conditions are expected in much of Colorado, New Mexico, and portions of the southern and central High Plains ahead of a cold front with downslope flow along the Front Range and southern Rockies. Dry and breezy conditions will also develop from portions of the southern Plains into the Midwest. Surface cold fronts will drop south across into the Intermountain West and through the northern and central Plains with precipitation, including snow in places, expected in the Pacific Northwest, Northern Rockies, northern High Plains, and portions of the western and northern Great Lakes.

Dozer/Plow Operations

Vehicles & Roads Category

Dozers/tractor plows provide suppression and support capability for fire operations. When working on or around dozers on the fireline, it is important to respect the following guidelines:

- Load/unload equipment from the transport in a safe manner on a level, stable surface.
- Park transport in an area free of fuel. Clear an area if needed to protect parked equipment.
- Do not sit or bed down near equipment. Walk around the equipment before starting or moving it.
- Lower the dozer blade and/or fire plow to the ground when the equipment is idling or stopped.
- When working a dozer or tractor plow, stay at least 100 feet in front or 50 feet behind the equipment.
- Allow no one but the operator to ride on the equipment.
- Never get on or off equipment while it is moving.
- Provide front and rear lights for equipment working at night or in heavy smoke.
- Provide lights and fluorescent vests to personnel working with dozer/tractor plow units.
- Use hand signals for direction and safety.
- Do not use a dozer or tractor plow without a canopy or brush guard, and radio communications.
- Operators will wear required personal protective equipment and carry a fire shelter.
- Be aware of different fuel types, rates of spread, and flammability.
- Watch for wetlands, steep slopes, rocks, ditches, and other obstacles that might stop the equipment.
- Do not get too far ahead of a firing crew during firing operations.
- Anchor the line to a secure firebreak and create a black line (burn out) until the fire is completely enclosed.
- Tractor plow operators should wear headgear protection for head, face, eyes, and ears while also providing radio reception and ventilation capabilities.
- Tractor plow crews should consist of a minimum of two people.
- When the dozer or tractor plow is equipped with a hand-clutch lever, always take equipment out of gear when mounting and dismounting.
