

**National Interagency Coordination Center  
Incident Management Situation Report  
Saturday, August 21, 2021– 0730 MDT  
National Preparedness Level 5**

**National Fire Activity:**

Initial attack activity:	Light (65 fires)
New large incidents:	0
Large fires contained:	2
Uncontained large fires: ***	85
Area Command teams committed:	1
NIMOs committed:	1
Type 1 IMTs committed	13
Type 2 IMTs committed:	20

Nationally, there are 48 fires being managed under a strategy other than full suppression.

\*\*\*Uncontained large fires include only fires being managed under a full suppression strategy.

### Northern California Area (PL 5)

New fires:	21
New large incidents:	0
Uncontained large fires:	10
NIMOs committed:	1
Type 1 IMTs committed:	6
Type 2 IMTs committed:	5

**Dixie**, Butte Unit, Cal Fire. Unified command between IMT 1 (Cal Fire Team 3) and IMT 1 (CA Team 1). Fifteen miles northeast of Paradise, CA. Timber and brush. Active fire behavior with flanking, spotting and torching. Several communities, numerous structures and infrastructure threatened. Evacuations, area, road and trail closures in effect.

**Caldor**, Eldorado NF, USFS. IMT 1 (Cal Fire Team 6). Sixteen miles northeast of Plymouth, CA. Timber, light slash and brush. Active fire behavior with short-range spotting, torching and wind-driven runs. Several communities, numerous structures and infrastructure threatened. Evacuations, area, road and trail closures in effect.

**Monument**, Shasta-Trinity NF, USFS. Unified command between IMT 1 (Cal Fire Team 5) and IMT 1 (AK Team 1). One mile southwest of Del Loma, CA. Timber and brush. Moderate fire behavior with flanking, torching and short-range spotting. Several communities, structures and infrastructure threatened. Evacuations, area, road and trail closures in effect.

**McFarland**, Shasta-Trinity NF, USFS. IMT 2 (CA Team 10). Four miles southeast of Wildwood, CA. Timber, chaparral and closed timber litter. Active fire behavior with backing and flanking. Several communities and infrastructure threatened. Evacuations, area, road and trail closures in effect.

**Antelope**, Klamath NF, USFS. Transfer of command from IMT 2 (SW Team 4) to IMT 1 (SA Red Team) will occur today. Twenty miles northeast of McCloud, CA. Timber and brush. Active fire behavior with flanking, torching and spotting. Several communities, numerous structures and infrastructure threatened. Evacuations, area, road and trail closures in effect.

**River Complex** (3 fires), Klamath NF, USFS. NIMO (Team 3) and IMT 2 (CA Team 15). Nine miles southwest of Etna, CA. Timber and brush. Moderate fire behavior with backing, flanking and uphill runs. Several communities, numerous structures and infrastructure threatened. Evacuations, area, road and trail closures in effect.

**McCash**, Six Rivers NF, USFS. IMT 2 (SW Team 3). IMT 2 (GB Team 3) mobilizing. Fourteen miles northeast of Somes Bar, CA. Timber, brush and short grass. Active fire behavior with uphill runs, running and flanking. Several communities and communication infrastructure threatened. Evacuations, area, road and trail closures in effect.

**Lava**, Shasta-Trinity NF, USFS. Four miles east of Weed, CA. Timber and brush. Minimal fire behavior with creeping and smoldering. Area and road closures in effect.

### Northwest Area (PL 5)

New fires:	18
New large incidents:	0
Uncontained large fires:	37
Area Command Teams committed:	1
Type 1 IMTs committed:	6
Type 2 IMTs committed:	10

Area Command (Team 3) has been mobilized to support the Northwest Multi-Agency Coordinating Group.

**Schneider Springs**, Okanogan-Wenatchee NF, USFS. Transfer of command from IMT 2 (EA Silver Team) to IMT 1 (PNW Team 2) will occur tomorrow. Twenty-one miles northwest of Tieton, WA. Short grass, timber and brush. Active fire behavior with uphill runs, running and flanking. Several communities, numerous structures and communication infrastructure threatened. Evacuations, area, road and trail closures in effect.

**Windy Pass**, Okanogan-Wenatchee NF, USFS. Eleven miles southwest of Cle Elum, WA. Timber and short grass. Minimal fire behavior. Structures threatened. Area, road and trail closures in effect.

**Ford Corkscrew**, Northeast Region, DNR. IMT 2 (SW Team 5). Eleven miles south of Springdale, WA. Timber and closed timber litter. Moderate fire behavior with flanking, isolated torching and spotting. Several communities and numerous structures threatened. Evacuations and road closures in effect.

**Twenty-five Mile**, Okanogan-Wenatchee NF, USFS. IMT 1 (SW Team 1). Twelve miles northwest of Chelan, WA. Short grass, brush and timber. Moderate fire behavior with flanking, torching and smoldering. Numerous structures and infrastructure threatened. Evacuations, area, road and trail closures in effect. Reduction in acreage due to more accurate mapping.

**Walker Creek**, Northeast Region, DNR. Transfer of command from IMT 2 (NR Team 6) to IMT 2 (RM Team Blue) will occur today. IMT is also managing the Chickadee Creek incident. Four miles northwest of Wauconda, WA. Timber. Active fire behavior with uphill runs, single tree torching and short-range spotting. Several communities threatened. Evacuations, area, road and trail closures in effect.

**Chickadee Creek**, Northeast Region, DNR. Sixteen miles northwest of Tonasket, WA. Timber and short grass. Active fire behavior with uphill runs, single tree torching and short-range spotting.

**Rough Patch Complex** (5 fires), Umpqua NF, USFS. IMT 1 (GB Team 2). IMT is also managing the Jack incident and the Devil's Knob Complex. Eighteen miles southwest of Oakridge, OR. Closed timber litter and timber. Active fire behavior with uphill runs, flanking and torching. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Jack**, Umpqua NF, USFS. Thirty-one miles east of Roseburg, OR. Closed timber litter and timber. Moderate fire behavior with torching, backing and creeping. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Devil's Knob Complex** (4 fires), Umpqua NF, USFS. Twenty miles northeast of Azalea, OR. Timber and medium slash. Active fire behavior with short uphill runs, backing and group torching. Structures threatened. Area, road and trail closures in effect.

**Summit Trail**, Colville Agency, BIA. IMT 2 (NW Team 10). IMT is also managing the Upper Lime Creek incident. Seventeen miles west of Inchelium, WA. Timber and light slash. Minimal fire behavior with backing, creeping and smoldering. Numerous structures and communication infrastructure threatened. Area and road closures in effect. Precipitation occurred over the fire area yesterday. Reduction in acreage due to more accurate mapping.

**Upper Lime Creek**, Colville Agency, BIA. Six miles northwest of Keller, WA. Timber and light slash. No new information. Last report unless significant activity occurs.

**Fox Complex** (2 fires), Fremont-Winema NF, USFS. IMT 1 (ODF Team 3). Fourteen miles west of Lakeview, OR. Timber, short grass and brush. Moderate fire behavior with flanking, backing and isolated torching. Numerous structures and infrastructure threatened. Road closures in effect.

**Middle Fork Complex** (2 fires), Willamette NF, USFS. Transfer of command from IMT 1 (PNW Team 3) to IMT 2 (NW Team 13) will occur tomorrow. IMT is also managing the Knoll incident. Nine miles northeast of Oakridge, OR. Closed timber litter and timber. Moderate fire behavior with flanking and torching. Numerous structures threatened. Evacuations, area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Knoll**, Willamette NF, USFS. Seven miles northeast of McKenzie Bridge, OR. Timber, closed timber litter and light slash. Minimal fire behavior with creeping and smoldering. Structures and infrastructure threatened. Area, road and trail closures in effect.

**Muckamuck**, Colville NF, USFS. IMT 1 (CA Team 2). IMT is also managing the Cub Creek 2, Cedar Creek and Delancy incidents. Four miles northwest of Conconully, WA. Timber and closed timber litter. Active fire behavior with group torching, short-range spotting and creeping. Community of Conconully and numerous structures threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Cub Creek 2**, Southeast Region, DNR. Five miles north of Winthrop, WA. Short grass, closed timber litter and timber. Active fire behavior with single tree torching, short-range spotting and creeping. Several communities and energy infrastructure threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Cedar Creek**, Okanogan-Wenatchee NF, USFS. Fifteen miles northwest of Winthrop, WA. Timber, brush and short grass. Active fire behavior with single tree torching, short-range spotting and creeping. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Delancy**, Okanogan-Wenatchee NF, USFS. Fifteen miles northwest of Winthrop, WA. Timber, short grass and closed timber litter. Minimal fire behavior. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Green Ridge**, Umatilla NF, USFS. IMT 2 (RM Team Black). Thirty miles east of Walla Walla, WA. IMT is also managing the Lick Creek incident. Short grass, timber and medium slash. Minimal fire behavior with single tree torching, creeping and smoldering. Numerous structures threatened. Evacuations, area, road and trail closures in effect.

**Lick Creek**, Umatilla NF, USFS. Fifteen miles southeast of Pomeroy, WA. Short grass, hardwood litter and timber. Minimal fire behavior with creeping and smoldering. Area, road and trail closures in effect.

**Black Butte**, Malheur NF, USFS. IMT 2 (NW Team 6). Thirty-six miles southeast of John Day, OR. Timber and light slash. Minimal fire behavior with backing, creeping and single tree torching. Structures threatened. Area, road and trail closures in effect.

**Bulldog Mountain**, Colville NF, USFS. IMT 2 (NW Team 7). IMT is also managing the Mack Mountain incident. Sixteen miles northwest of Kettle Falls, WA. Heavy slash and timber. Minimal fire behavior with backing, creeping and smoldering. Residences threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Mack Mountain**, Colville NF, USFS. Fifteen miles north of Kettle Falls, WA. Timber and brush. Minimal fire behavior with backing, creeping and flanking. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Bull Complex**, Mt. Hood NF, USFS. IMT 2 (GB Team 4). Twenty-five miles northeast of Mill City, OR. Timber. Moderate fire behavior with backing, flanking and single tree torching. Area, road and trail closures in effect.

**Whitmore**, Colville Agency, BIA. Twenty-seven miles northeast of Bridgeport, WA. Timber. No new information.

**Skyline Ridge Complex** (3 fires), South Unit, ODF. Five miles southeast of Days Creek, OR. Timber, heavy and light slash. Minimal fire behavior with backing, smoldering and creeping.

### Northern Rockies Area (PL 5)

New fires:	1
New large incidents:	0
Uncontained large fires:	31
Type 1 IMTs committed:	1
Type 2 IMTs committed:	3

**Pine Grove**, Fort Belknap Agency, BIA. Three miles northeast of Hays, MT. Timber and short grass. Minimal fire behavior. Several communities, structures and sage-grouse habitat threatened. Area and road closures in effect. Precipitation occurred over the fire area yesterday.

**Character Complex** (2 fires), Idaho Panhandle NF, USFS. Three miles north of Kellogg, ID. Timber and brush. Moderate fire behavior with backing, single tree torching and smoldering. Several communities threatened. Evacuations, area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Woods Creek**, Helena-Lewis and Clark NF, USFS. IMT 1 (RM Team 1). IMT is also managing the Divide Complex and American Fork incident. Sixteen miles northeast of Townsend, MT. Short grass, timber and brush. No new information.

**Divide Complex** (2 fires), Helena-Lewis and Clark NF, USFS. Seventeen miles west of Neihart, MT. Short grass and timber. No new information.

**American Fork**, Helena-Lewis and Clark NF, USFS. Twenty-four miles southwest of Harlowton, MT. Short grass, timber and brush. Minimal fire behavior with creeping and smoldering. Residences threatened. Area, road and trail closures in effect.

**Alder Creek**, Beaverhead-Deerlodge NF, USFS. IMT 2 (NR Team 5). IMT is also managing the Trail Creek, Christensen and Black Mountain incidents. Twenty miles northwest of Wisdom, MT. Timber and brush. Minimal fire behavior with smoldering. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Trail Creek**, Beaverhead-Deerlodge NF, USFS. Twenty miles west of Wisdom, MT. Timber and brush. Minimal fire behavior with smoldering. Community of Gibbonsville threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Christensen**, Beaverhead-Deerlodge NF, USFS. Ten miles northeast of Wisdom, MT. Timber and brush. Minimal fire behavior with smoldering. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Black Mountain**, Beaverhead-Deerlodge NF, USFS. Twenty miles east of Salmon, ID. Timber, heavy slash and brush. Minimal fire behavior with smoldering. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**West Lolo Complex**, Lolo NF, USFS. IMT 2 (SA Gold Team). Six miles north of St. Regis, MT. Timber, closed timber litter and brush. Minimal fire behavior with creeping and smoldering. Community of Thompson Falls and infrastructure threatened. Evacuations, area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Granite Pass Complex** (3 fires), Lolo NF, USFS. Thirty miles southwest of Missoula, MT. Timber, closed timber litter and brush. Minimal fire behavior with smoldering. Community of Lolo Hot Springs, structures and communication infrastructure threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Bedrock**, Ponderosa Area Office, IDL. Started on tribal land twenty-five miles northeast of Lewiston, ID. Timber and brush. Minimal fire behavior with smoldering and creeping. Numerous structures threatened.

**Cougar Rock Complex** (3 fires), Clearwater Potlach Timber Protective Association, IDL. Seventeen miles northeast of Elk River, ID. Light slash and timber. Minimal fire behavior with creeping. Structures and infrastructure threatened. Area and road closures in effect.

**Stateline Complex** (7 fires), Idaho Panhandle NF, USFS. Twenty-two miles southwest of Superior, MT. Closed timber litter, timber and light slash. Minimal fire behavior with backing, creeping and smoldering. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Storm Theatre Complex** (12 fires), Nez Perce-Clearwater NF, USFS. Transfer of command from NIMO (Team 1) back to the local unit occurred yesterday. Thirty-five miles southwest of Missoula, MT. Brush, timber and closed timber litter. Minimal fire behavior with flanking, backing and creeping. Area, road and trail closures in effect.

**Burnt Peak**, Kootenai NF, USFS. IMT 2 (GB Team 5). IMT is also managing the South Yaak incident. Nine miles southwest of Troy, MT. Timber. Minimal fire behavior with smoldering and creeping. Structures threatened. Area, road and trail closures in effect.

**South Yaak**, Kootenai NF, USFS. Four miles northwest of Troy, MT. Timber and light slash. Minimal fire behavior with creeping, smoldering and backing. Area, road and trail closures in effect.

**Harris Mountain**, Cascade County. Seven miles southeast of Cascade, MT. Closed timber litter and timber. Minimal fire behavior. Structures threatened. Precipitation occurred over the fire area yesterday.

**Boulder 2700**, Flathead Agency, BIA. Three miles northeast of Finley Point, MT. Closed timber litter and timber. Minimal fire behavior with creeping, backing and smoldering. Numerous residences and infrastructure threatened. Area and trail closures in effect.

**Whitetail Creek**, Northwestern Land Office, DNR. Nine miles northeast of Finley Point, MT. Medium slash and timber. Minimal fire behavior with smoldering. Precipitation occurred over the fire area yesterday.

**Twin**, Northwestern Land Office, DNR. Thirty-three miles north of Plains, MT. Timber and medium slash. Minimal fire behavior with smoldering.

**Toetly 3**, Coeur d'Alene Tribe, BIA. Started on private land two miles northeast of Plummer, ID. Timber and brush. Minimal fire behavior with smoldering and creeping. Structures threatened. Area and trail closures in effect.

**Dry Cabin**, Lolo NF, USFS. Forty-one miles north of Drummond, MT. Timber and brush. Previously reported incident. Minimal fire behavior with creeping and smoldering. Trail closures in effect. Last narrative report unless significant activity occurs.

**Predictive Services Discussion:** An upper low will track over Oregon into southern Idaho with troughing remaining over the West and high pressure over the Southeast. A cold front across the Plains will move into the Great Lakes and mid-Mississippi Valley, while another cold front moves into the northern Great Basin. Elevated conditions expected on the eastern Sierra slopes and in the western Great Basin. Dry and breezy conditions are also possible in the gaps of the Coast Range of northern California, southeast Oregon, and northwest Arizona. Numerous showers with scattered thunderstorms are forecast ahead of the upper low across eastern Washington, Idaho Panhandle, and western Montana. Scattered, fast-moving wet and dry thunderstorms are likely across northern Nevada, southeast Oregon, and southern Idaho into northern Utah and western Wyoming. The greatest threat for new fire starts will be over northern Nevada, southeast Oregon, and southwest Idaho where fuels are driest. A break in the monsoon will continue over much of the Southwest, but a few wet thunderstorms may return to southern New Mexico during the afternoon. Below normal temperatures will remain over most of the West with the coldest temperatures over the interior Northwest, northern Great Basin, and northern Rockies. Impacts from Hurricane Henri will begin to affect portions of New Jersey, Long Island into New York City, and southern New England.

## Bees and Wasps

*Firefighter Health & First Aid*

In general, bees sting to protect their hive and seldom sting when they are foraging unless they feel threatened (like being swatted at or stepped on). On the other hand, many bees or wasps foraging in one area may indicate a colony is nearby. If you intend to work or camp in the area, scout for bee or wasp nests first. Colonies vary in behavior over time, especially with changes in season, becoming more aggressive and easily agitated in the late summer and fall. You may pass the same colony for weeks and then one day provoke them unexpectedly.

### • **Look out for colonies:**

Bees and wasps nest in a wide variety of locations, such as in pipes or holes, behind shutters, under shingles, within cracks and crevices in trees and rocks, and hanging from branches. Be alert for groups of flying bees entering or leaving an opening and listen for buzzing sounds. Be especially alert when climbing, digging fireline, and moving logs. Do not put your hands where you can't see them.

Be particularly careful when using any heavy equipment that produces sound vibrations, such as chainsaws, weedeaters, and pumps. **Keep escape routes in mind.**

**If you disturb a nest and are being attacked, run away. Use your shroud or shirt to protect your head neck and face. Swatting and waving your arms aggravates bees/wasps more!**

### • **About Africanized and European honeybees:**

Honeybees are brown, hairy insects, about 5/8-inch long, with black encircling their abdomen, giving them a subtle striped appearance. All honeybees look alike. Only an expert can tell them apart. The sting from a single Africanized honeybee is no more harmful than one from the common garden or European honeybee. Africanized honeybees are known as killer bees because they defend their nests more aggressively, with less provocation, and in larger numbers than other honeybees, so there is a greater chance of receiving many stings.

Africanized honeybees are found in the southwest and are spreading across the southern United States. You are more likely to be struck by lightning than be killed by Africanized bees.

### • **Considerations with all bees and wasps:**

- 1) If a bee gets in the vehicle while you are driving, stay calm, pull over, and stop to let the bee out.
- 2) Keep trash away from your camp and keep it covered.
- 3) Look at what you are drinking and eating before you eat or drink. Bees and wasps are attracted to accessible food and water.

### • **If you get stung:**

The first thing you should do is remove the stinger. The end of a stinger is barbed and will remain stuck in the skin even if the bee is removed. Muscles in the stinger allow it to continue pumping venom into

the victim, even if it is no longer connected to the bee. Do not pull the stinger out with your fingers or tweezers because this will squeeze out more venom. Instead, scrape the stinger out with your fingernail, the edge of a credit card, a dull knife blade, or another straight-edged object.

- **Two kinds of reactions are usually associated with bee stings and other stinging insects:**

- (1) Local Reactions:**

A local reaction is usually characterized by pain, swelling, redness, and itching, and a welt surrounding the wound made by the stinger. Swelling can sometimes be locally severe. For instance, if stung on the finger, the arm may be swollen even up to the elbow. Swelling such as this is fairly common, even though it may be alarming. Swelling may be reduced by cooling the wound and/or taking an antihistamine such as Benadryl. Topical solutions such as calamine may also help alleviate pain.

- (2) Systemic, Allergic, or Life-Threatening Reactions:**

Allergic reactions can develop anywhere on the body and may include rash or hives, dizziness or headache, cramps, nausea, vomiting, swelling away from the general area of the sting, shortness of breath, difficulty swallowing, shock, and unconsciousness. If you experience any of these symptoms, seek emergency medical assistance immediately. Symptoms can begin immediately following the sting or up to 30 minutes later and might last for hours.

- **If you know you are allergic:**

Anaphylaxis, if treated in time, usually can be reversed by epinephrine (adrenaline) injected into the body. Individuals who are aware that they are allergic to stings should carry epinephrine in either a normal syringe (sting kit) or an auto-injector (EpiPen) at all times when working outside, **and they should communicate their allergy to supervisor/coworkers in case they become incapacitated.** Epinephrine is obtainable only by prescription from a physician.

- **Discussion Topics:**

- Have you and your crew identified who is allergic to bee/wasp stings? Are they carrying their prescription EpiPen? Identify the EpiPen and its location to the rest of the crew.
- If you have an EMT on your crew/team, what are their protocols for treating stings and related allergic reactions?
- Discuss how you and your crew will safely flag or mark any identified nests/hives.
