

**National Interagency Coordination Center  
Incident Management Situation Report  
Wednesday, June 2, 2021– 0730 MDT  
National Preparedness Level 2**

**National Fire Activity:**

Initial attack activity:	Light (155 fires)
New large incidents:	3
Large fires contained:	2
Uncontained large fires: ***	14
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	0
Type 2 IMTs committed:	3

Nationally, there are 9 fires being managed under a strategy other than full suppression.

\*\*\*Uncontained large fires include only fires being managed under a full suppression strategy.

**Southwest Area (PL 3)**

New fires: 13  
 New large incidents: 1  
 Uncontained large fires: 7  
 Type 2 IMTs committed: 2

\* **Mescal**, Gila District Office, BLM. IMT 2 (SW Team 5) mobilizing. Twelve miles northeast of Hayden, AZ. Brush. Active fire behavior with running, flanking and spotting.

**Sycamore Canyon**, Papago Agency, BIA. Transfer of command from IMT2 (SW Team 4) back to the local unit will occur today. Fifteen miles southeast of Sells, AZ. Grass and brush. Minimal fire behavior with smoldering. Structures threatened.

**Wolf Draw**, Santa Fe NF, USFS. Eleven miles northwest of Regina, NM. Timber. Minimal fire behavior with single tree torching and creeping.

**Warren**, Coronado NF, USFS. Nine miles south of Portal, AZ. Grass and brush. Minimal fire behavior with smoldering.

**McDonald Tank**, Fort Apache Agency, BIA. Twenty-five miles southeast of Whiteriver, AZ. Timber, brush and grass. Minimal fire behavior with creeping and smoldering. Structures threatened. Area and road closures in effect.

**Dog**, Guadalupe Mountains NP, NPS. Thirty-four miles southwest of Whites City, NM. Timber and grass. Minimal fire behavior with smoldering. Structures threatened. Area and trail closures in effect.

**Courthouse**, Central District, Arizona DOF. Thirteen miles southwest of Tonopah, AZ. Grass and chaparral. No new information.

**Johnson**, Gila NF, USFS. Thirty-four miles northeast of Silver City, NM. Timber and grass. Moderate fire behavior with flanking, backing and creeping. Structures threatened. Trail closures in effect. Last narrative report unless significant activity occurs.

### **Predictive Services Discussion:**

An upper-level trough will approach the Pacific Northwest today helping to shift the ridge and axis of well above average temperatures slightly eastward over the Intermountain West. Onshore flow will not strengthen enough by the afternoon and low humidity is likely again across much of the West Coast, especially along and east of the Coast Ranges. Breezy winds are likely along and east of the Cascades as well. Isolated thunderstorms are possible over the High Sierra and in south-central to central Oregon and remain possible in eastern Arizona into much of New Mexico. Severe weather is possible across the southern High Plains into south Texas and from the Lower Mississippi Valley into the Ohio Valley. Cooler and wetter conditions will begin to move into most of Alaska.

# Medical Incident Report

*Fire Communication Category*

The Medical Incident Report (MIR) can be found in the following documents: in the [Incident Response Pocket Guide \(IRPG\), PMS 461](#), under Emergency Medical Care (pink); in the Medical Plan [ICS-206 WF](#); and in many Incident Action Plans (IAPs). The MIR evolved from and has replaced the 9 Line Form and pPink sticker.

The MIR is not always tasked to the Emergency Medical Technician (EMT) or Paramedic in Patient Care. The intent of the form is to:

1. establish control of the incident, whether routine or life-threatening, by initiating a new Incident Command System,
  2. have a systematic standard process for reporting medical incidents/injuries, similar to a fire size-up for initial attack, and
  3. enable any firefighter, with prior training and direction, to fill it out and transmit the information.
- Treat it like any incident. If the incident is overwhelming, ask for a more qualified Incident Commander (IC) to assume command. Expand/contract the organization's size depending on the needs of the incident.
  - Fill this report out completely prior to transmitting to dispatch/communications. If the incident is life threatening, do not let documentation delay patient care.
  - When transmitting the report, state the number and title of each section, and say "break" and pause between the sections (e.g., "**Dispatch**, Task Force Leader (TFLD) Jones. Standby for Priority Medical Incident Report. **1.** All other radio traffic please hold, **break**" (pause/wait for response). "**2. Incident Status:** Nature of Illness is chest pain. Incident Name is Tank Medical. IC will be TFLD Jones. Patient Care will be Paramedic Smith. **Break** (pause again). **3. Initial Patient Assessment** is...").
  - When using the MIR during a Multi-Casualty Incident (MCI), state the number injured and their severity (Section 3: e.g., "**3. Initial Patient Assessment**, I have five patients. three Reds, one Yellow, and one Green. Mechanism of Injury is...").
  - Use the terms Paramedic or EMT with the provider's last name in "Patient Care." Do not use EMT to describe a Paramedic or the ambiguous term Medic. All those roles need to be clearly identified to understand the level of care and treatment the patient(s) will receive.
  - Enact more than one transport plan and clear more than one frequency if needed for Sections 5 and 6.
  - Always be ready for the first plan to fail and be flexible enough to move into an alternate plan. Use the acronym PACE (**P**rimary, **A**lternate, **C**ontingency, and **E**mergency) for planning purposes.

## Action Items:

- Consider developing medical emergency tabletop scenarios as part of morning briefings or field scenarios on project work to become familiar with the process. The more comfortable with the MIR you are, the more it will be second nature under stress.
- Ensure dispatchers and radio operators are aware of their roles and responsibilities pertaining to the MIR.
- Review your local unit emergency plans.

This topic was submitted by Assistant Fire Management Officer (AFMO) Miles Ellis and Asst. State Fire Management Officer (FMO) Paul Hohn with Wyoming Bureau of Land Management (BLM), and expanded upon by Eric Graff, of Grand Canyon Helitack.
