

**National Interagency Coordination Center  
Incident Management Situation Report  
Wednesday, August 10, 2022 – 0730 MDT  
National Preparedness Level 3**

**National Fire Activity:**

Initial attack activity:	Light (147 fires)
New large incidents:	4
Large fires contained:	3
Uncontained large fires: **	30
Area Command teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	3
Type 2 IMTs committed:	7
***Complex IMTs committed:	0

\*\*\*Complex Incident Management Teams (CIMTs) are configured to respond to large, complex fires and can expand and reduce staffing in all functional areas as necessary to meet the needs of the incident.

Nationally, there are 61 fires being managed under a strategy other than full suppression.

\*\*Uncontained large fires include only fires being managed under a full suppression strategy.

New fires:	55
New large incidents:	1
Uncontained large fires:	9
Type 1 IMTs committed:	1
Type 2 IMTs committed:	2

**Windigo**, Umpqua NF, USFS. IMT 2 (NW Team 6). IMT is also managing the Potter fire. Twenty miles southwest of La Pine, OR. Closed timber litter, timber and medium slash. Active fire behavior with wind-driven runs, torching and spotting. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Potter**, Willamette NF, USFS. Forty-six miles southwest of La Pine, OR. Closed timber litter, timber and medium slash. Active fire behavior with wind-driven runs, torching and spotting. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Cedar Creek**, Willamette NF, USFS. IMT 1 (PNW Team 2). Fifteen miles east of Oakridge, OR. Timber and closed timber litter. Active fire behavior with flanking, single tree torching and short-range spotting. Structures threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Vantage Highway**, Southeast Region, Washington DNR. IMT 2 (NW Team 12). IMT is also managing the Cow Canyon fire. Five miles west of Vantage, WA. Short grass and brush. Minimal fire behavior with smoldering. Structures threatened. Area closure in effect. Precipitation occurred over the fire area yesterday.

**Cow Canyon**, Southeast Region, Washington DNR. Eleven miles north of Naches, WA. Short grass, timber and brush. Minimal fire behavior with creeping and smoldering. Structures threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Williams Lake**, Northeast Region, Washington DNR. Twelve miles south of Cheney, WA. Timber and tall grass. Minimal fire behavior with creeping.

**Beech Creek**, Malheur NF, USFS. Nine miles south of Long Creek, OR. Timber and short grass. Moderate fire behavior with creeping, backing and isolated torching. Structures threatened.

**Griffin**, Burns District, BLM. Thirty-six miles northeast of Burns, OR. Brush, tall grass and timber. Active fire behavior.

**Miller Road**, The Dalles Unit, Oregon DOF. Eight miles west of Maupin, OR. Short grass, brush and timber. No new information. Last report unless significant activity occurs.

\*1 Hectare = 2.47 Acres

**Predictive Services Discussion:** Scattered showers and mixed wet and dry thunderstorms are likely to be ongoing across Washington into the Idaho Panhandle in the morning and possibly southeast Oregon into southwest Idaho. Scattered mostly wet thunderstorms will develop across eastern Oregon, eastern Washington, southern and central Idaho, and western Montana in the afternoon, although drier storms are likely across northern Idaho into western Montana. Severe storms are possible across portions of northern and eastern Washington into northeast Oregon and northern Idaho. Drier air will move into central Oregon and northern California in the afternoon, with elevated fire weather conditions likely due to southwest sustained winds of 10-20 mph gusting to 25-35 mph amid minimum relative humidity of 8-20%. Dry and breezy conditions are also expected across portions of north-central and northeast Montana.

Scattered wet monsoonal thunderstorms will continue across the Southwest, Colorado Rockies, southeast California, and much of the Great Basin. Scattered showers and thunderstorms are likely across much of Texas, becoming more numerous across the Lower Mississippi Valley into the central and southern Appalachians and Mid-Atlantic. Thunderstorms will be more isolated across Florida, Georgia, and South Carolina.

# Uninformed on Strategy, Tactics, or Hazards

*Operational Engagement Category*

Firefighters who are uninformed on strategy, tactics, or hazards are in conflict with Watch Out Situation #5. Before going to the fireline, it is imperative that firefighters obtain information about strategies, tactics, or hazards by asking themselves the following questions:

- Can communications be established to find out strategy, tactics, or hazards?
  - Discuss ways you might establish communications.
  - For example: Contact someone who is already on the fire and ask them what tactics and strategies are working or not working, what hazards have they witnessed, etc.
- Can scouting safely identify potential hazards?
  - Talk about different methods of scouting a fire (e.g., using a lookout from your crew or sending a line scout ahead, utilizing air attack or the spotter on a smokejumper airplane).
  - Discuss what types of hazards you might come across and ways you would mitigate them.
  - For example: If you arrive at a fire after dark and are instructed to dig line downhill with the fire below, how could you make this a safe situation?
- Have strategies, tactics, or hazards changed since last informed?
  - Discuss situations that might alter the way you are fighting a fire (e.g., wind shifts, resources you expected don't arrive, etc.).
  - Also, think about what new hazards can develop while you are on the fireline (e.g., roots burning out and trees coming down, winds shifting direction and speed, etc.).
- Can you get a briefing from your supervisor?
  - Talk about the importance of constant communications and ensuring firefighters are on the same page with strategies and tactics.
  - For example, if one crew decides to do a burnout but doesn't let the crew at the other end of the line know what they are doing, what can happen?
- To reduce the risks:
  - Post lookouts.
  - Determine escape routes and establish safety zones.
  - Consider retreating until you are better informed.
  - Don't leave a staging area or operational briefing until you have all the pertinent information.
    - Emphasize ways to inform firefighters about strategies, tactics, and hazards. Tell a story about when you were uninformed and what you did to correct the situation so that you were safe.
  - Use the [\*NWCG Incident Response Pocket Guide \(IRPG\)\*, PMS 461](#), (back inside cover) Briefing Checklist.
