

**National Interagency Coordination Center
Incident Management Situation Report
Saturday, August 27, 2022 – 0730 MDT
National Preparedness Level 3**

National Fire Activity:

Initial attack activity:	Light (109 fires)
New large incidents:	3
Large fires contained:	0
Uncontained large fires: **	17
Area Command teams committed:	0
NIMOs committed:	2
Type 1 IMTs committed:	2
Type 2 IMTs committed:	10
***Complex IMTs committed:	0

***Complex Incident Management Teams (CIMTs) are configured to respond to large, complex fires and can expand and reduce staffing in all functional areas as necessary to meet the needs of the incident.

Nationally, there are 26 fires being managed under a strategy other than full suppression.

**Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

[Link](#) to Understanding the IMSR.

One RC-26 aircraft with Distributed Real-Time Infrared (DRTI) capability and support personnel from the 141st Air Refueling Wing (Washington Air National Guard) have been deployed to Boise, ID. One RC-26 aircraft with Distributed Real-Time Infrared (DRTI) capability and support personnel from the 162nd Operations Group (Arizona Air National Guard) have been deployed to Eugene, OR in support of wildland fire operations.

One Boeing 737 airtanker from New South Wales, Australia is supporting fire suppression efforts in the western United States.

Northwest Area (PL 3)

New fires: 45
 New large incidents: 1
 Uncontained large fires: 8
 Type 1 IMTs committed: 1
 Type 2 IMTs committed: 6

White River, Okanogan-Wenatchee NF, USFS. IMT 2 (NW Team 7). IMT 2 (NW Team 8) mobilizing. IMT is also managing the Irving Peak fire. Twenty-three miles northwest of Leavenworth, WA. Timber. Active fire behavior with flanking, backing and isolated torching. Numerous structures threatened. Area, road and trail closures in effect.

Irving Peak, Okanogan-Wenatchee NF, USFS. Twenty-six miles northwest of Leavenworth, WA. Timber. Active fire behavior with flanking, backing and isolated torching. Structures threatened. Area, road and trail closures in effect.

Rum Creek, Medford District, BLM. IMT 2 (NW Team 13). Twelve miles northwest of Hugo, OR. Timber and closed timber litter. Active fire behavior with running, crowning and group torching. Numerous structures threatened. Area, road and trail closures in effect.

Cedar Creek, Willamette NF, USFS. IMT 1 (PNW Team 3). Fifteen miles east of Oakridge, OR. Timber and closed timber litter. Minimal fire behavior with creeping and smoldering. Structures threatened. Area, road and trail closures in effect.

Windigo, Umpqua NF, USFS. IMT 2 (NW Team 10). IMT 2 (NW Team 9) mobilizing. IMT is also managing the Potter and Big Swamp fires. Twenty miles southwest of La Pine, OR. Closed timber litter, timber and medium slash. Minimal fire behavior with creeping, single tree torching and smoldering. Area, road and trail closures in effect.

Potter, Willamette NF, USFS. Forty-six miles southwest of La Pine, OR. Closed timber litter, timber and medium slash. Minimal fire behavior with creeping, single tree torching and spotting. Area, road and trail closures in effect.

Big Swamp, Willamette NF, USFS. Thirty-seven miles southwest of La Pine, OR. Closed timber litter, timber and medium slash. Minimal fire behavior with creeping and isolated torching. Area, road and trail closures in effect.

Crocketts Knob, Malheur NF, USFS. IMT 2 (NW Team 12) mobilizing. Nineteen miles north of Prairie City, OR. Brush and timber. Active fire behavior with uphill runs, flanking and backing. Structures threatened. Area, road and trail closures in effect.

*** Medicine Valley**, Yakama Agency, BIA. Four miles west of White Swan, WA. Brush and grass. Active fire behavior with wind-driven runs, running and spotting. Structures threatened. Evacuations, area, road and trail closures in effect. Last narrative report unless significant activity occurs.

Predictive Services Discussion: Another upper-level trough will move into the Pacific Northwest and northern Rockies today. Dry and windy conditions are likely ahead of a cold front in southeast Oregon, southern and central Idaho, along the Sierra Front into western and northern Nevada, and in portions of Wyoming. Westerly sustained winds of 15-20 mph, gusting 20-40 mph amid minimum relative humidity of 8-25% are expected across these areas and may expand into portions of eastern Idaho and southwest Montana ahead of the cold front and cloud cover. Isolated drier thunderstorms are possible in northern and central Idaho into Montana and northern Wyoming. Isolated to scattered showers are likely in portions of Washington, western Oregon, and northern Idaho into western and central Montana as well. Temperatures will also be 5-15°F cooler today than previous days. Scattered monsoon thunderstorms will continue over the greater Four Corners region, and thunderstorms are likely across portions of the Plains, western Great Lakes, and much of the Southeast. Strong to severe storms are possible from Minnesota into the Texas Panhandle.

The 10 Standard Firefighting Orders

Operational Engagement Category

The orders are arranged according to their importance and grouped in a logical sequence: fire behavior, fireline safety, and organizational control.

Review and consider Standard Firefighting Orders as a part of every shift.

- Did you receive or request an adequate briefing, including weather, current and predicted fire behavior, wind direction, predicted humidity, fuel moisture, and/or local factors?
- Do you have a map of the fire? Are topography, fuel types, and spread direction defined?

The Fire Behavior group addresses conditions the firefighter will encounter – weather, fire status, and fire behavior.

1. Keep informed on fire weather conditions and forecasts.
 2. Know what your fire is doing at all times.
 3. Base all actions on current and expected behavior of the fire.
- Are you familiar with direction, distance, location, and size of escape routes and safety zones?
 - Discuss the need for a lookout, such as extreme fire behavior or a fire located out of your line-of-sight.
 - Discuss the importance of situational awareness.

The Fireline Safety group emphasizes personal safety.

4. Identify escape routes and safety zones, and make them known.
 5. Post lookouts when there is possible danger.
 6. Be alert. Keep calm. Think clearly. Act decisively.
- Review the importance and means of sharing tactical decisions and resource movement.
 - Review other factors influencing potential changes in tactics, which could affect control of your forces.

The Organizational Control group is centered around tactical decisions.

7. Maintain prompt communications with your forces, your supervisor, and adjoining forces.
 8. Give clear instructions and be sure they are understood.
 9. Maintain control of your forces at all times.
- After you have considered, discussed, and acted on the previous nine orders:
 10. Fight fire aggressively, having provided for safety first.
