

**National Interagency Coordination Center
Incident Management Situation Report
Friday, January 7, 2022 – 0730 MDT
National Preparedness Level 1**

National Fire Activity (January 3 – January 6, 2022):

Initial attack activity:	Light (81 fires)
New large incidents:	2
Large fires contained:	4
Uncontained large fires: ***	0
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	0
Type 2 IMTs committed:	0

Nationally, there are 0 fires being managed under a strategy other than full suppression.

***Uncontained large fires include only fires being managed under a full suppression strategy.

Ten Year Average Acres (2011 – 2020 as of today)	5,247

***Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

***Additional wildfire information is available through the Geographic Areas at <https://gacc.nifc.gov/>

Predictive Services Discussion: Precipitation will continue across much of the Northwest into the Northern Rockies, northern California, and northern Great Basin today. Dry and breezy conditions are expected on portions of the southern High Plains today, but more widespread elevated fire weather conditions are likely tomorrow ahead of a cold front and amid downslope flow. A cold front will push through the Plains and Great Lakes tomorrow, with showers and thunderstorms expected along and ahead of the cold front across the Southeast over the weekend. Snow is more likely across portions of the Great Lakes and into the Northeast this weekend into early Monday as the cold front pushes into the Atlantic and Gulf of Mexico late Sunday into Monday.

An upper-level trough is expected to approach the West Coast early next week, and forecast guidance indicates it will likely split, with a short-wave trough traversing through the Northern Rockies before moving over the Great Lakes and a cut-off low forming over the Southwest before moving onto the southern and central Plains later in the week. Overall, near to above normal temperatures are expected for much of the West and onto the Plains next week. Chances of showers and storms are forecast to return to the southern Plains, Texas, and the Southeast mid to late next week as well.

The 10 Standard Firefighting Orders

Operational Engagement Category

The orders are arranged according to their importance and grouped in a logical sequence: fire behavior, fireline safety, and organizational control.

Review and consider Standard Firefighting Orders as a part of every shift.

- Did you receive or request an adequate briefing, including weather, current and predicted fire behavior, wind direction, predicted humidity, fuel moisture, and/or local factors?
- Do you have a map of the fire? Are topography, fuel types, and spread direction defined?

The Fire Behavior group addresses conditions the firefighter will encounter – weather, fire status, and fire behavior.

1. Keep informed on fire weather conditions and forecasts.
 2. Know what your fire is doing at all times.
 3. Base all actions on current and expected behavior of the fire.
- Are you familiar with direction, distance, location, and size of escape routes and safety zones?
 - Discuss the need for a lookout, such as extreme fire behavior or a fire located out of your line-of-sight.
 - Discuss the importance of situational awareness.

The Fireline Safety group emphasizes personal safety.

4. Identify escape routes and safety zones, and make them known.
 5. Post lookouts when there is possible danger.
 6. Be alert. Keep calm. Think clearly. Act decisively.
- Review the importance and means of sharing tactical decisions and resource movement.
 - Review other factors influencing potential changes in tactics, which could affect control of your forces.

The Organizational Control group is centered around tactical decisions.

7. Maintain prompt communications with your forces, your supervisor, and adjoining forces.
 8. Give clear instructions and be sure they are understood.
 9. Maintain control of your forces at all times.
- After you have considered, discussed, and acted on the previous nine orders:
10. Fight fire aggressively, having provided for safety first.
